argues that the relative economic prosperity and general optimism of the late 90s created the perfect environment for fast danceable music that with some notable exceptions tended to avoid political commentary An homage to a time when plaids and skankin were king and doing the jitterbug in your best suit was so money Hell of a Hat is an inside look at 90s ska swing and the loud noises of an era when America was dreaming and didn't even know it

Pulling a Rabbit Out of a Hat Ross Anderson, 2019-05-23 Who Framed Roger Rabbit emerged at a nexus of people technology and circumstances that is historically culturally and aesthetically momentous By the 1980s animation seemed a dying art Not even the Walt Disney Company which had already won over thirty Academy Awards could stop what appeared to be the end of an animation era To revitalize popular interest in animation Disney needed to reach outside its own studio and create the distinctive film that helped usher in a Disney Renaissance That film Who Framed Roger Rabbit though expensive and controversial debuted in theaters to huge success at the box office in 1988 Unique in its conceit of cartoons living in the real world Who Framed Roger Rabbit magically blended live action and animation carrying with it a humor that still resonates with audiences Upon the film's release Disney's marketing program led the audience to believe that Who Framed Roger Rabbit was made solely by director Bob Zemeckis director of animation Dick Williams and the visual effects company Industrial Light Magic though many Disney animators contributed to the project Author Ross Anderson interviewed over 140 artists to tell the story of how they created something truly magical Anderson describes the ways in which the Roger Rabbit characters have been used in film shorts commercials and merchandising and how they have remained a cultural touchstone today

Early Modern Poetics in Melville and Poe William E. Engel, 2016-04-29 Bringing to bear his expertise in the early modern emblem tradition William E Engel traces a series of self reflective organizational schemes associated with baroque artifice in the work of Herman Melville and Edgar Allan Poe While other scholars have remarked on the influence of seventeenth century literature on Melville and Poe this is the first book to explore how their close readings of early modern texts influenced their decisions about compositional practice especially as it relates to public performance and the exigencies of publication Engel s discussion of the narrative structure and emblematic aspects of Melville s Piazza Tales and Poe s The Raven serve as case studies that demonstrate the authors debt to the past Focusing principally on the overlapping rhetorical and iconic assumptions of the Art of Memory and its relation to chiasmus Engel avoids engaging in a simple account of what these authors read and incorporated into their own writings Instead through an examination of their predisposition toward an earlier model of pattern recognition he offers fresh insight into the writers understandings of mourning and loss their use of allegory and what they gained from their use of pseudonyms

Reading Green in Early Modern England Leah

Knight, 2016-04-08 Green in early modern England did not mean what it does today but what did it mean Unveiling various versions and interpretations of green this book offers a cultural history of a color that illuminates the distinctive valences greenness possessed in early modern culture While treating green as a panacea for anything from sore eyes to sick minds early moderns also perceived verdure as responsive to their verse sympathetic to their sufferings and endowed with surprising powers of animation Author Leah Knight explores the physical and figurative potentials of green as they were understood in Renaissance England including some that foreshadow our paradoxical dependence on and sacrifice of the green world Ranging across contexts from early modern optics and olfaction to horticulture and herbal health care this study explores a host of human encounters with the green world both the impressions we make upon it and those it leaves with us The first two chapters consider the value placed on two ways of taking green into early modern bodies and minds by seeing it and breathing it in while the next two address the manipulation of greenery by Orphic poets and medicinal herbalists as well as grafters and graffiti artists A final chapter suggests that early modern modes of treating green wounds might point toward a new kind of intertextual ecology of reading and writing Reading Green in Early Modern England mines many pages from the period not literally but tropically metaphorically green that cultivate a variety of unexpected meanings of green and the atmosphere and powers it exuded in the early modern world
