Haunted By The Past:

Haunted by Vertigo Sidney Gottlieb, Donal Martin, 2021-10-26 When Richard Schickel stated unequivocally in 1972 that "We're living in a Hitchcock world all right he did so without even mentioning the film that now stands at the top of the Sight how the film itself is haunted by numerous literary and cinematic forebearers and how it continues to haunt not only filmmakers but artists working in other media as well Essays that concentrate on formative or interpretive contexts of the film including Greek mythology early German cinema film noir an ensemble of mostly French writers and filmmakers and modern and postmodern art are complemented by others that present close readings of hidden details in the film its use of multiple gazes that underscore its meaning and drama the darker sides of even gestures of love and hospitality and how the film embodies Hitchcock's late style Taken together the essays in the volume reinforce how *Vertigo* is like the majestic trees visited by the two main characters in the film *sempervirens* an enduring masterpiece of then now and we can safely say the future

Roper Gate, *Stephen King and the Uncanny Imaginary* Erin Mercer, 2023-08-25 Offering an insightful examination of Stephen King s fiction this book utilises a psychoanalytical approach drawing on Freud

s theory of the uncanny It demonstrates how entrenched King s work is in a literary tradition influenced by psychoanalytic theory as well as the ways that King evades and amends Freud Such an approach positions King s texts not simply as objects of interpretation that might yield latent meaning but as producers of meaning King can certainly be read through the lens of the uncanny but this book also aims to consider the uncanny through the lens of King Organised around specific elements of the uncanny that can be found in King s fiction this book explores the themes of death and the return of the dead monstrosity telepathy inanimate objects becoming menacingly animate and spooky children Popular texts are considered such as IT The Shining and Pet Sematary as well as less discussed work including The Institute The Regulators and Desperation The book s central argument is that King s uncanny motifs offer insightful commentary on what is repressed in contemporary culture and insist on the failure of scientific rationalism to explain the world King s uncanny imaginary rejects dualistic notions of an experiencing self in an inert physical world and insists that psychic experience is bound up with the environmental This book will be of interest to students and scholars of contemporary and popular literature gothic and horror studies and cultural studies

The Thing Dylan Trigg,2014-08-29 What is the human body Both the most familiar and unfamiliar of things the body is the centre of experience but also the site of a prehistory anterior to any experience Alien and uncanny this other side of the body has all too often been overlooked by phenomenology In confronting this oversight Dylan Trigg s The Thing redefines phenomenology as a species of realism which he terms unhuman phenomenology Far from being

the vehicle of a human voice this unhuman phenomenology gives expression to the alien materiality at the limit of experience By fusing the philosophies of Merleau Ponty Husserl and Levinas with the horrors of John Carpenter David Cronenberg and H P Lovecraft Trigg explores the ways in which an unhuman phenomenology positions the body out of time At once a challenge to traditional notions of phenomenology The Thing is also a timely rejoinder to contemporary philosophies of realism The result is nothing less than a rebirth of phenomenology as redefined through the lens of horror
