Disney Gothic Jeffrey Andrew Weinstock,Lorna Piatti-Farnell,2024-04-24 Despite Disney s carefully crafted image of family friendliness Gothic elements are pervasive in all of Disney s productions ranging from its theme parks to its films and television programs The contributors to Disney Gothic reveal that the Gothic in fact serves as the unacknowledged motor of the Disney machine Exploring representations of villains ghosts and monsters this book sheds important new light on the role these Gothic elements play throughout the Disney universe in constructing and reinforcing conceptions of normalcy and deviance in relation to shifting understandings of morality social roles and identity categories In doing so this book raises fascinating questions about the appeal marketing and consumption of Gothic horror by adults and particularly by children who historically have been Disney s primary audience

Haints Arthur F. Redding,2011-09-15 In Haints Arthur Redding examines the work of contemporary American authors who draw on the gothic tradition in their fiction not as frivolous or supernatural entertainments but to explore and memorialize the ghosts of their heritage Ghosts Redding argues serve as lasting witnesses to the legacies of slaves and indigenous peoples whose stories were lost in the remembrance or mistranslation of history No matter how much Americans willingly or unwillingly repress the true history of their ancestry their ghosts remain unburied and restless Such authors as Toni Morrison and Leslie Marmon Silko deploy the ghost as a means of reconciling their own violently repressed heritage with their identity as modern Americans And just as our

ancestors were haunted by ghosts of the past today we are haunted by ghosts of contemporary crises urban violence racial hatred and even terrorism In other cases that Redding studies such as James Baldwin s *The Evidence of Things Not Seen* and Toni Cade Bambara s *Those Bones Are Not My Child* writers address similar crises to challenge traditional American claims of innocence and justice Finally Redding argues that ghosts emphasize a growing worry about a larger impending crisis the apocalypse Yet the despair the apocalypse inspires is vital to providing the grounds for new solutions to modern issues In the end the armies of the dispossessed enlist the forces of the spirit world to create a better future by ensuring that mistakes of the past are not repeated that Americans do not deny their heritage and that accountability exists for any given crisis book jacket

Ellen Glasgow and a Woman's Traditions Pamela R. Matthews, 1994 Ellen Glasgow wrote and published nineteen novels as well as poems short stories essays reviews and an autobiography published posthumously in a career that spanned nearly fifty years Until now her writings have not been subject to feminist revaluation in the way that works of such writers as Charlotte Perkins Gilman or Willa Cather have been In *Ellen Glasgow and a Woman's Traditions* Pamela R Matthews initiates such a revaluation by taking into account not only Glasgow s gender and her perception of her role as a woman writer but the reader s gender and mis understanding of Glasgow Using current feminist psychological theory she assesses what Glasgow faced as a woman writer caught between the nineteenth and twentieth centuries examines the traditions in place at these times and analyzes the influence on Glasgow of her female friendships This shifting of critical perspective yields entirely new interpretations and closes the gap that has existed between standard criticisms of Glasgow and the effect that Glasgow has had on her readers

New Wests and Post-Wests Paul S. Varner, 2013-10-03 The writers of these chapters are often working with changing assumptions about literary and media interpretations of an American West Here we see critical approaches to a West that never was a West of myth so enduring that the myth dominates nearly all artistic representation about this place that never was In this collection we see critical approaches to a New West a West that is a state of mind not a geographical place but a mythic space with no boundaries and no political inevitabilities These New Western studies accept the idea of a West that includes Canada Mexico Alaska and in the case of the US every geographic and historical point west of the historic founding settlements The West we study today is a post West an idea of the West past the traditional views of an old West dominated by white US nationalism and gendered as uncompromisingly masculine The idea itself of a single West no longer holds validity We now understand that all renderings of the West are renderings of multiple Wests Wests constructed by American nationalists Wests constructed by EuroAmerican writers and filmmakers Wests constructed by native peoples or Wests constructed outside the geographical boundaries of the US This collection presents an eclectic array of new scholarship ranging freely over the New Wests and Post Wests dealing with issues such as the literature of a 1950s California West eco crime genre fiction the West of Edward Dorn and the Beat Movement images of prostitution in California Gold Rush literature European perspectives on film representations of the first peoples the six

shooter and the American West German Westerns and Italian Westerns The Authentic Death of Hendry Jones by Charles Neider and films such as The Treasure of Sierra Madre Into the Wild There Will Be Blood and The Last Picture Show A unique aspect of this collection is the range of writers interpreting the American West in film and literature besides those writing from within the United States five of the writers provide international perspectives from the United Kingdom and the Universities of Tunis Vienna and Rome Each chapter includes a review of scholarship on its subject and an extended bibliography for further research

Horror Fiction in the Global South Ritwick Bhattacharjee, Saikat Ghosh, 2021-04-30 Horror Fiction in the Global South Cultures Narratives and Representations believes that the experiences of horror are not just individual but also simultaneously cultural Within this understanding literary productions become rather potent sites for the relation of such experiences both on the individual and the cultural front It s not coincidental then that either William Blatty s The Exorcist or Gabriel Garcia Marquez s One Hundred Years of Solitude become archetypes of the re presentations of the way horror affects individuals placed inside different cultures Such an affectation though is but a beginning of the ways in which the supernatural interacts with the human and gives rise to horror Considering that almost all aspects of what we now designate as the Global North and its concomitant the Global South political historical social economic cultural and so on function as different paradigms the experiences of horror and their telling in stories become functionally different as well Added to this are the variations that one nation or culture of the east has from another The present anthology of essays in such a scheme of things seeks to examine and demonstrate these cultural differences embedded in the impact that figures of horror and specters of the night have on the narrative imagination of storytellers from the Global South If horror has an everyday presence in the phenomenal reality that Southern cultures subscribe to it demands alternative phenomenology The anthology allows scholars and connoisseurs of Horror to explore theoretical possibilities that may help address precisely such a need
