Home Possessions Daniel Miller,2021-07-30 Although so much of the life we care about takes place at home this private space often remains behind closed doors and is notoriously difficult for researchers to infiltrate We may think it is just up to us to decorate transform and construct our homes but in this book we discover a new form of estate agency the active participation of the home and its material culture in the construction of our lives What do the possessions people choose to take with them when moving say about who they are and should we emphasize the mobility of a move or the stability of what movers take with them How is the home an active partner in developing relationships Why are our homes sometimes haunted by ghosts This intriguing book is a rare behind the scenes expos of the domestic sphere across a range of cultures Examples come from working class housewives in Norway a tribal society in Taiwan a museum in London tenants in Canada and students from Greece to produce a genuinely comparative perspective based in every case on sustained fieldwork So Japan long thought to be a nation that idealizes uncluttered simplicity is shown behind closed doors to harbour illicit pockets of disorganization while the warmth inside Romanian apartments is used to expel the presence of the state Representing a vital development in the study of material culture this book clearly shows that we may think we possess our homes but our homes are more likely to possess us

America by Henry Steel Olcott Twelve Nights at Rotter House J.W. Ocker, 2019-10-29 Felix Allsey is a travel writer with a keen eye for the paranormal and he's carved out a unique if only slightly lucrative niche for himself in nonfiction he writes travelogues of the country's most haunted places after haunting them himself When he convinces the owner of the infamous Rotterdam Mansion to let him stay on the premises for 13 nights he believes he's finally found the location that will bring him a bestseller As with his other gigs he sets rules for himself no leaving the house for any reason refrain from outside contact and sleep during the day When Thomas Ruth Felix's oldest friend and fellow horror film obsessive joins him on the project the two dance around a recent and unspeakably painful rough patch in their friendship but eventually fall into their old rhythms of dark humor and movie trivia That's when things start going wrong screams from upstairs figures in the thresholds and more than what should be in any basement Felix realizes the book he's writing and his very state of mind is tilting from nonfiction into all out horror and the shocking climax answers a question that's been staring these men in the face all along In Rotter House who's haunting who **Echoes of a Haunting** Clara M. Miller, 2000-01-31 In the first place the house doesn't even look haunted With these words a different world opens up to readers as it did some twenty nine years ago for an unsuspecting family from Buffalo New York Echoes of a Haunting traces the steps of this normal family whose life turned upside down when they moved to a disturbed or haunted house in Southern New York State in 1970 It is told in diary form in order to bring a semblance of order to the events At first the family tended to discount the happenings and come up with some rather creative explanations Soon however the explanations began more and more to assume the form of rationalizations Before long they were forced to admit that there was no natural cause for what was occurring daily both in the house and in the surrounding area Reluctantly the members of the family began to reach out to others In some cases they encountered scorn and even a strange unwarranted hostility as though the whole panoply of phenomena were their fault It was a very bad atmosphere in which to raise a family Once the story became public help was offered by psychics and clergy In some cases this help even brought a temporary relief but the trouble never disappeared for long Strange accidents one almost fatal happened on a regular basis Figures were seen both human and otherwise In one case a house was seen where no house had existed for many many years Disturbing personality changes emerged even resulting in a transformation of eye color from brown to blue The toll taken on the emotional and physical health of the family soon became too much to endure and they were forced to abandon the house in 1974 Hopefully this book will cause skeptics to think again to avoid a similar shock to the senses The family had a rude awakening Its never easy finding out that you cant always trust your senses that nothing is really impossible and that there is a breaking point for everyone Whether the reader is a died in the wool skeptic a searcher a believer or somewhere in between I hope everyone reads these pages with an open mind It is all true Echoes of a Haunting has recently been chosen as a textbook for a Masters Degree Program in Parapsychology at Texas Christian University The Professor teaching the course Dr Timothy Barth has stated that its the best documented case of a haunting he

has ever read The house is currently being investigated by Paranormal researchers who have taken startling photos of energy orbs and strange colored lights in the area Hopefully these photos will be available soon on the Authors website
