Von der Antike bis zur Moderne. Festschrift für Jure Zovko** Evandro Agazzi, Andreas Arndt, Hans-Peter Grosshans, 2022 Die zweiundzwanzig Autorinnen und Autoren entfalten in ihren dem kroatischen Philosophen Jure Zovko gewidmeten Beitr gen zur Philosophie der Antike des Deutschen

Idealismus und des 20. Jahrhunderts sowie zur Hermeneutik, zur Erkenntnis- und Wissenschaftstheorie, zur Metaphysik und zur Religionsphilosophie, die Philosophie als Interpretation einer gemeinsamen Welt. Dabei wird deutlich, die Philosophie bleibt auch in der Vielfalt ihrer Stimmen letztlich immer Eine, wie auch die Welt als Bezugspunkt menschlichen Handelns und Denkens nur eine ist, die wir miteinander teilen und die wir zu erkennen und zu erhalten haben. In their contributions dedicated to the Croatian philosopher Jure Zovko on the philosophy of antiquity, German Idealism and the 20th century as well as on hermeneutics, the theory of knowledge and science, metaphysics and the philosophy of religion, the twenty-two authors unfold philosophy as the interpretation of a common world. In the process, it becomes clear that philosophy, even in the diversity of its voices, ultimately always remains one, just as the world as a point of reference for human action and thought is only one, which we share with each other and which we have to recognise and preserve.

The Encyclopædia Britannica Hugh Chisholm, 1910 *The Encyclopaedia Britannica: Con to Edw*, 1910 *The Encyclopaedia Britannica* Hugh Chisholm, 1911 *The Encyclopaedia Britannica*, 1910 **Thinking on Thinking** Robert M. Berchman, 2021-04-23

Aristotle and Plotinus set the horizon of inquiry: thinking is thinking on thinking. Discussion of mind, meaning and subjectivity begins with the question: How is thinking on thinking different from the kind of thinking with which we are familiar? The answer is that thinking on thinking is about the presuppositions, concepts and problems that generate questions in ancient and modern metaphysics, epistemology, aesthetics, philosophy of mind and philosophy of language. Topics examined include the nature of intentionality and meaning, identity and relation, mind and consciousness, self-identity and subjectivity, which lead into discussions concerning other minds, the limits of thought and language and the emergence of aesthetics of the self. The effects of thinking on thinking are mapped particularly in parsing problems in ancient, modern, analytic and phenomenological thought, with advocacy of its importance in the present age.

Philosophische Werke / Hauptschriften zur Grundlegung der Philosophie 2 Gottfried W. Leibniz, Ernst Cassirer, 1996. Die philosophische Grundhaltung des wohl letzten großen Vertreters der Systemphilosophie, Gottfried Wilhelm Leibniz (1646–1716), lässt sich nur unter Berücksichtigung seiner Auseinandersetzung mit allen wissenschaftlichen Problemen seiner Zeit rekonstruieren. Die von Ernst Cassirer zusammengestellten Hauptschriften zur Grundlegung der Philosophie bringen den universalistischen Charakter der Leibnizschen Philosophie durch die Entwicklung ihres gedanklichen Fortschritts und das Verhältnis der einzelnen Systemglieder zur Anschauung.

Psychopathology and Philosophy Manfred Spitzer, Friedrich A. Uehlein, Godehard Oepen, 2012-12-06. Psychopathology should make clear what we know, how we know, and what we do not know. If you think you could eliminate philosophy and regard it as something irrelevant, it will overwhelm you in some obscure disguise. This is the point where that bulk of bad philosophy in psychopathological studies originates.

KARL JASPERS. Since the publication of KARL JASPERS' *General Psychopathology* in 1913, at least it has become obvious that a psychopathologist cannot do without philosophical reflection. If he wants to say anything about disorders of perception and thought or of the experiencing, I to

name the subjects of this book he must know those disorders and the problems related to them The phenomena and problems in question are not at all simply empirical which is to say that they concern the structure and function of the organs of sense or the central nervous system but conceptual We have already formed some notions and prejudices concerning those subjects perception e g is considered to be a projection from the outside into the inward thinking a kind of inward talk the I refers to reflecting upon me by myself etc Unless we think about these ideas critically we shall fail in describing disorders of experience thought and action

Experience and Infinite Task Tamara Tagliacozzo, 2017-12-20 This book examines the philosophical thought of the young Walter Benjamin and its development in his later work Starting from his critique of the philosophy of Immanuel Kant and Hermann Cohen the author traces the relationships among Benjamin's theories developed in tandem with his friend Gershom Scholem of knowledge language ethics politics the philosophy of history and aesthetics all linked to the Judaic theme of messianism and language as a realm of redemption She delineates a horizon in which the concept of experience as structure philosophical system and infinite task On the Program of the Coming Philosophy 1917 18 evolves into a concept of the origin as monad The Origin of German Tragic Drama 1925 merging finally into the historical concept as monad and dialectical image On the Concept of History 1940 Tagliacozzo asserts that the concept of experience as structure and symbolic system derived from his critical interpretation of Kant and Neo Kantianism develops into a conception of thought founded on a theological language of revelation

Essays in the History of Ideas Arthur O. Lovejoy, 2019-12-01 Originally published in 1948 In the first essay of this collection Lovejoy reflects on the nature methods and difficulties of the historiography of ideas He maps out recurring phenomena in the history of ideas which the essays illustrate One phenomenon is the presence and influence of the same presuppositions or other operative ideas in very diverse provinces of thought and in different periods Another is the role of semantic transitions and confusions of shifts and of ambiguities in the meanings of terms in the history of thought and taste A third phenomenon is the internal tensions or waverings in the mind of almost every individual writer sometimes discernible even in a single writing or on a single page arising from conflicting ideas or incongruous propensities of feeling or taste to which the writer is susceptible These essays do not contribute to metaphysical and epistemological questions they are primarily historical
