The Cave Dwellers Christina McDowell, 2021-05-25 This delicious take on the one percent in our nation s capital Town Country and clever combination of The Bonfire of the Vanities and The Nest explores what Washington DC s high society members do behind the closed doors of their stately homes They are the families considered worthy of a listing in the exclusive Green Book a discriminative diary created by the niece of Edith Roosevelt s social secretary Their aristocratic bloodlines are woven into the very fabric of Washington generation after generation Their old money and manner lurk through the cobblestone streets of Georgetown Kalorama and Capitol Hill They only socialize within their inner circle turning a blind eye to those who come and go on the political merry go round These parents and their children live in gilded existences of power and privilege But what they have failed to understand is that the world is changing And when the family of one of their own is held hostage and brutally murdered everything about their legacy is called into question in this unputdownable novel that combines social satire with moral outrage to offer a masterfully crafted
