Having A Go Bill Boyds Mallee:

Having a Go Weston Bate, Bill Boyd, 1989 History of Mallee district of Victoria 1920s 1930s wonderful photographs by Boyd of this era *Endurance* Deb Anderson, 2014-11-05 *Endurance* presents stories of ordinary Australians grappling with extraordinary circumstances providing insight into their lives their experiences with drought and their perceptions of climate change The book opens with the physical impacts science politics and economics of drought and climate change in rural Australia It then highlights the cultural and historical dimensions taking us to the Mallee wheat belt where researcher Deb Anderson interviewed farm families from 2004 to 2007 as climate change awareness grew Each story is grouped into one of three themes Survival Uncertainty and Adaptation Illustrated with beautiful colour photographs from Museum Victoria *Endurance* will appeal to anyone with an interest in life stories rural Australia and the environment Telling Environmental Histories Katie Holmes, Heather Goodall, 2017-12-12 This collection explores the intersections of oral history and environmental history Oral history offers environmental historians the opportunity to understand the ways people s perceptions experiences and beliefs about environments change over time In turn the insights of environmental history challenge oral historians to think more critically about the ways an active more than human world shapes experiences and people The integration of these approaches enables us to more fully and critically understand the ways cultural and individual memory and experience shapes human interactions with the more than human world just as it enables us to identify the ways human memory identity and experience is moulded by the landscapes and environments in which people live and labour It includes contributions from Australia India the UK Canada and the USA *Cultural Sustainability in Rural Communities* Catherine Driscoll, Kate Darian-Smith, David Nichols, 2017-07-06 There has been a recent expansion of interest in cultural approaches to rural communities and to the economic and social situation of rurality more broadly This interest has been particularly prominent in Australia in recent years spurring the emergence of an interdisciplinary field called rural cultural studies This collection is framed by a large interdisciplinary research project that is part of that emergence particularly focused on what the idea of cultural sustainability might mean for understanding experiences of growth decline change and heritage in small Australian country towns However it extends beyond the initial parameters of that research bringing together a range of senior and emerging Australian researchers who offer diverse approaches to rural culture The essays collected here explore the diverse forms that rural cultural studies might take and how these intersect with other disciplinary approaches offering a uniquely diverse but also careful account of life in country Australia Yet in its emphasis on the simultaneous specificity and cross cultural recognisability of rural communities this book also outlines a field of inquiry and a set of critical strategies that are more broadly applicable to thinking about the rural in the early twenty first century This book will be valuable reading for students and academics of Geography History Literary Studies Cultural Studies Anthropology and Sociology introducing rural cultural studies as a new dynamic and integrative discipline Oral History

and the Environment Stephen M. Sloan, Mark Cave, 2022 As uncontrolled development forces crises in the natural world deeply ingrained human connections with the earth are changing Oral history's proven ability to explore issues of race ethnicity class gender and sexuality make it a uniquely effective methodology for bringing in new perspectives to our understanding of environments This book brings together interviews with a global range of activists farmers water system managers victims of catastrophe tribal trustees wilderness rangers reindeer herders and foresters among others whose life experience gives them special insights into human environmental interaction and adaption Commentary by oral historians examines how these stories can be used to better understand our relationship with the natural world Oral History and the Environment takes what could seem broad and impersonal forces such as climate change and environmentalism and crystalizes their meaning through personal stories It overturns narrow historical frameworks bounded artificially by national borders and instead portrays the issues facing our common ecosystems

A Cultural History of Climate Change Tom Bristow, Thomas Ford, 2016-04-20 Charting innovative directions in the environmental humanities this book examines the cultural history of climate change under three broad headings history writing and politics Climate change compels us to rethink many of our traditional means of historical understanding and demands new ways of relating human knowledge action and representations to the dimensions of geological and evolutionary time To address these challenges this book positions our present moment of climatic knowledge within much longer histories of climatic experience Only in light of these histories it argues can we properly understand what climate means today across an array of discursive domains from politics literature and law to neighbourly conversation Its chapters identify turning points and experiments in the construction of climates and of atmospheres of sensation They examine how contemporary ecological thought has repoliticised the representation of nature and detail vital aspects of the history and prehistory of our climatic modernity This ground breaking text will be of great interest to researchers and postgraduate students in environmental history environmental governance history of ideas and science literature and eco criticism political theory cultural theory as well as all general readers interested in climate change

Beyond the Black Stump Alan Mayne, 2008 Historians have had little to say about the lands that stretch beyond the black stump These essays from around the country build inland Australia into our national history crisscrossing both the nineteenth and twentieth centuries Contributors are Lorina Barker Amanda Barry Badger Bates Peter Bishop Nici Cumpston Jean Duruz Charles Fahey Lionel Frost Heather Goodall Jenny Gregory Patricia Grimshaw Rodney Harrison Rick Hosking Darrell Lewis Alan Mayne Chrissiejoy Marshall Margaret Somerville and Richard Waterhouse

Indians and the Antipodes Sekhar Bandyopadhyay, Jane Buckingham, 2018-04-16 The Indian diaspora in Australia and New Zealand represents a successful ethnic community making significant contributions to their host societies and economies However because of their small number slightly more than half a million they rarely find mention in the global literature on Indian diaspora The present volume seeks to remedy this oversight Charting the chequered 250 year old history

of both the old and the new diaspora in the antipodes the chapters narrate the stories of labourers who journeyed under the pressure of colonial capital and post war professional migrants who went in search of better opportunities In the context of the White Australia and White New Zealand policies designed to stem the arrival of Asians in the early twentieth century we read of the complex survival stratagems adopted by migrants to circumvent the stringent insular world view of the existing white settlers in these countries Together with stories of the collective suffering and struggles of the diaspora we are presented with stories of individual resilience enterprise and social mobility Contemporary Meanings of Endurance Noel Salazar, Jeroen Scheerder, 2022-12-09 This book critically analyses the concept of endurance from different theoretical conceptual methodological and empirical perspectives The first part of the book takes a closer look at endurance by examining how it relates to concepts such as resilience perseverance and perdurance By analysing how these concepts overlap but differ we reach a better understanding of what constitutes endurance Furthermore endurance is reconfigured as a as a mundane aspect of everyday life The latter part of the book focuses on embodied experiences of endurance more specifically on endurance running walking and physical performances The different contributions focus on the meanings values and attributes that people ascribe to endurance in various socio cultural contexts The book uncovers practices environments and discourses in which endurance is applied and manifested from drought affected communities in rural Australia to professional endurance runners in Ethiopia as well as migrants in Greece and performance acts in domestic spaces in the United Kingdom and beyond This book will be of interest to scholars of movement sciences sports studies mobilities leisure studies and resilience studies **Australian national bibliography** ,1961 *Victorian Government Publications Received by the State Library of Victoria* ,1990 **Who's who in Australia** ,2005 **Australian Books in Print 1997** Bowker, 1997-03 excellent coverage essential to worldwide bibliographic coverage AMERICAN REFERENCE BOOKS ANNUAL This comprehensive reference provides current finding ordering information on more than 60 000 in print books published in or about Australia or written by Australian authors organized by title author keyword You ll also find brief profiles of more than 5 000 publishers distributors whose titles are represented as well as information on trade associations local agents of overseas publishers literary awards more **Overland** ,1995 *International Books in Print* ,1997 **Parliamentary Debates** Victoria.
