Hawaii A Pageant Of The Soil:

Hawaii Jean Hobbs,1935 **Imperial Maine and Hawai'i** Paul T. Burlin,2008-03-01 Burlin s book provides an analysis of some of the broad themes and currents of 19th century American expansion in the Pacific through a discussion of a number of Maine inhabitants either going to Hawai i or other areas of the archipelago Individuals covered include Sanford Dole Luther Secerance John L Stevens and James G Blaine *Possessing the Pacific* Stuart Banner,2009-06-30 During the nineteenth century British and American settlers acquired a vast amount of land from indigenous people throughout the Pacific but in no two places did they acquire it the same way Stuart Banner tells the story of colonial settlement in Australia New Zealand Fiji Tonga Hawaii California Oregon Washington British Columbia and Alaska Today indigenous people own much more land in some of these places than in others And certain indigenous peoples benefit from treaty rights while others do not These variations are traceable to choices made more than a century ago choices about whether indigenous people were the owners of their land and how that land was to be transferred to whites Banner argues that these differences were not due to any deliberate land policy created in London or Washington Rather the decisions were made locally by settlers and colonial officials and were based on factors peculiar to each colony such as whether the local indigenous people were agriculturalists and what level of political organization they had attained These differences loom very large now perhaps even larger than they did in the nineteenth century because they continue to influence the course of litigation and political struggle between indigenous people and whites over claims to land and other resources *Possessing the Pacific* is an original and broadly conceived study of how colonial struggles over land still shape the relations between whites and indigenous people throughout much of the world **The Statesman's Year-Book** M. Epstein,2016-12-23 The classic reference work that provides annually updated information on the countries of the world *Experiment Station Record* United States. Agricultural Research Service,United States. Office of Experiment Stations,1934 [Experiment Station Record](#) United States. Office of Experiment Stations,1934 **Kauai** Edward Joesting,1988-02-01 Here finally is a readable thoroughly researched and generously illustrated history of the island of Kauai Edward Joesting tells for the first time the story of one of the most intriguing and least known of the Hawaiian Islands His account begins with the prehistoric origins of the island and concludes with the annexation of Hawaii in 1898 Kauai describes the early emergence of Kauai as an island separate and distinctive from the other islands of Hawaii It recounts the coming of Western man the failure of King Kamehameha to conquer the island and the ultimate incorporation of the island into the Hawaiian kingdom Joesting also includes in his story the destructive impact of the sandalwood and whaling trades and the subsequent rise of an economy based on sugar cultivation His story comes to an end with the demise of the Hawaiian monarchy and the quiet revolution that occurred when Hawaii became a territory of the United States Historical documents not previously used bring new information and fresh perspectives to this book The result is a level headed engaging look at Kauai Kauai The Separate Kingdom is certain to

become the authoritative history of the island long regarded by many as the most beautiful in the Hawaiian archipelago

Land Tenure in the Pacific R. G. Crocombe, 1987 **The Kumulipo** Martha Warren Beckwith, 2000-07-01 The Kumulipo is the sacred creation chant of a family of Hawaiian alii or ruling chiefs Composed and transmitted entirely in the oral tradition its 2000 lines provide an extended genealogy proving the family's divine origin and tracing the family history from the beginning of the world **Native American Estate** Linda S. Parker, 2021-05-25 Points out the similarities between the struggle of Native Hawaiians and Native Americans to stop land divestment *Braided Waters* Wade Graham, 2018-12-04 Braided Waters sheds new light on the relationship between environment and society by charting the history of Hawaii's Molokai island over a thousand year period of repeated settlement From the arrival of the first Polynesians to contact with eighteenth century European explorers and traders to our present era this study shows how the control of resources especially water in a fragile highly variable environment has had profound effects on the history of Hawaii Wade Graham examines the ways environmental variation repeatedly shapes human social and economic structures and how in turn man made environmental degradation influences and reshapes societies A key finding of this study is how deep structures of place interact with distinct cultural patterns across different societies to produce similar social and environmental outcomes in both the Polynesian and modern eras a case of historical isomorphism with profound implications for global environmental history **The Sugar King of California** Sandra E. Bonura, 2024-06 Winner of the 2025 Spur Award First Runner Up for the 2025 Eric Hoffer Award in Reference Shortlisted for the 2025 Eric Hoffer Grand Prize Claus Spreckels 1828 1908 emigrated from his homeland of Germany to the United States with only seventy five cents in his pocket built a sugar empire and became one of the richest Americans in history alongside John D Rockefeller Warren Buffett and Bill Gates Migrating to San Francisco after the gold rush Spreckels built the largest sugar beet factory of its kind in the United States His sugar beet production in the Salinas Valley changed the focus of valley agriculture from dry to irrigated crops resulting in the vast modern agricultural industrial economy in today's Salad Bowl of the World When Spreckels gave America its first sugar cube he became the Sugar King The indomitable Spreckels was a colorful and complicated character on both sides of the Pacific A kingpin in the development of the Hawaii i California sugarcane industry he wielded a clenched fist over Hawaii i's economy for nearly two decades after occupying a position of unrivaled power and political influence with the Hawaiian monarchy while also advancing major technology developments on the islands The Sugar King's legacy continued as the Spreckels family developed large portions of California building and breaking monopolies in agriculture shipping railroading finance real estate horse breeding utilities streetcars and water infrastructure and building entire towns and cities from infrastructure to superstructure In *The Sugar King of California* Sandra E Bonura tells the rags to riches story of Spreckels's role in the developments of the sugarcane industry in the American West and across the Pacific triumphing in a milieu rife with cronyism and corruption and ultimately transforming California's industry and labor Harshly criticized by

his enemies for ruthless business tactics but loved by his employees he was unapologetic in his quest for wealth asserting Spreckels's success is California's success But there's always a cost for single minded determination the legendary family quarrels even included a murder charge Spreckels's biography is one of business triumph and tragedy a portrait of a family torn apart by money jealousy and ego *To Establish the Native Hawaiians Study Commission* United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on National Parks and Insular Affairs,1980 **The Statesman's Year-Book** S. Steinberg,2016-12-29 The classic reference work that provides annually updated information on the countries of the world Report on the Culture, Needs, and Concerns of Native Hawaiians, Pursuant to Public Law 96-565, Title III United States.
