Senate. Select Committee on Indian Affairs,1990 **Methods and Nations** Michael J. Shapiro,2004-06-01 Methods and Nations critiques one of the primary deployments of twentieth century social science comparative politics whose major focus has been nation building in the Third World often attempting to universalize and render self evident its own practices International relations theorists unable to resist the cognitive imperialism of a state centric social science have allowed themselves to become colonized Michael Shapiro seeks to bring recognition to forms of political expression alternative modes of intelligibility for things people and spaces that have existed on the margins of the nationhood practices of states and the complicit nation sustaining conceits of social science **A Nation of Peoples** Elliott Robert Barkan,1999-05-30 The debate over America s multiculturalism has been intense for nearly three decades dividing opponents into those insisting on such recognition and those fearing that such a formal acknowledgment will undermine the civic bonds created by a heterogeneous nation Facts have often been the victim in this dispute and few works have successfully attempted to present the broad spectrum of America s ethnic groups in a format that is readable current and authoritative The chapters in this reference book demonstrate that America has been far more than a nation of immigrants it has been a nation of peoples of virtually all races religions and nationalities inclusive of indigenous natives and peoples long present as well as myriad immigrant and refugee groups Not all groups have equally found America to be a land of opportunity and the successes of some groups have come at the expense of others To understand the American experience the reader must not just study the story of immigrants living on the East Coast but also the history of those living in the South Southwest West and even Alaska and Hawaii As a reference book this volume provides thorough coverage of more than two dozen racial ethnic and religious groups in the United States Each chapter is written by an expert contributor and overviews the experiences of one group or a cluster of related groups The chapters are arranged alphabetically and cover groups such as African Americans American Indians Filipinos Hawaiians Mexicans Mormons and Puerto Ricans To the extent possible each chapter discusses the initial arrival of the group in America the adaptation of the first generation of immigrants the economic political and cultural integration of the group and the status of the group in contemporary American society Each chapter closes with a bibliographical essay and the volume concludes with a review of the most important general works on America s multicultural heritage *Many Wests* David M. Wrobel,Michael C. Steiner,1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants

of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions

Reclaiming Indigenous Voice and Vision Marie Battiste, 2011-11-01 This book seeks to clarify postcolonial Indigenous thought beginning at the new millennium It represents the voices of the first generation of global Indigenous scholars and converges those voices their analyses and their dreams of a decolonized world Marie Battiste Author The essays in *Reclaiming Indigenous Voice and Vision* spring from an International Summer Institute held in 1996 on the cultural restoration of oppressed Indigenous peoples The contributors primarily Indigenous unravel the processes of colonization that enfolded modern society and resulted in the oppression of Indigenous peoples The authors among them Gregory Cajete Erica Irene Daes Bonnie Duran and Eduardo Duran James Youngblood Henderson Linda Hogan Leroy Little Bear Ted Moses Linda Tuhiwai Te Rina Smith Graham Hingangaroa Smith and Robert Yazzie draw on a range of disciplines professions and experiences Addressing four urgent and necessary issues mapping colonialism diagnosing colonialism healing colonized Indigenous peoples and imagining postcolonial visions they provide new frameworks for understanding how and why colonization has been so pervasive and tenacious among Indigenous peoples They also envision what they would desire in a truly postcolonial context In moving and inspiring ways *Reclaiming Indigenous Voice and Vision* elaborates a new inclusive vision of a global and national order and articulates new approaches for protecting healing and restoring long oppressed peoples and for respecting their cultures and languages
