Moe uthane the Hawaiian word for dream means soul sleep Hawaiians of old believed they communicated with auma kua their ancestral guardians while sleeping and this important relationship was sustained through dreaming During soul sleep people received messages of guidance from the gods romantic relationships blossomed prophecies were made cures were revealed Dreams provided inspiration conveying songs and dances that were remembered and performed upon waking Specialists interpreted dreams which were referred to and analyzed whenever important decisions were to be made Having no written language Hawaiians passed their history and life lessons down in the form of legends which were committed to memory and told and retold And within these stories are a multitude of dreams as in a famous legend of the goddess Pele who travels in a dream to meet and entrance the high chief Lohi au Dreams continue to play an important role in modern Hawaiian culture and are considered by some to have as powerful an influence today as in ancient times In this companion volume to her award winning Hawaiian Legends of the Guardian Spirits artist Caren Loebel Fried retells and illuminates nine dream stories from Hawai i s past that are sure to please readers young and old kama aina and malihini alike      *Hawaiian History* Richard Lightner,2004-08-30 Hawaii has been referred to as the crossroads of the Pacific This book illustrates how many world cultures and customs meet in the Hawaiian Islands providing a chronological overview highlighted by extracts from important works that express Hawaii s unique history This work starts with chronological chapters on general and ancient Hawaiian history and continues through early Western contact the 19th century and Hawaii s annexation to the United States Topics include politics religion social issues business ethnic groups and race relations      **Tribal Tattoo Encyclopedia** Radomir Fiksa,2021-09-04 The Tattoo Encyclopedia provides the first comprehensive overview of tribal tattooing across history continents and ethnicities Each group clan or community that practiced tattooing had its own places where people prepared for tattooing or where tattooing was performed Tattoo sessions were accompanied by music songs or other rituals They had tattoo artists and their assistants Of course they used various tattoo tools to carry and apply the designs Last but not least they also used different ingredients to obtain the inks for the tattoos For all this the different communities had their own names and terms in their own language or dialect and it is these terms including descriptions often already lost in history that this book presents      **Piercing Encyclopedia** Radomir Fiksa,2023-11-05 The practice of inserting sharp objects into the skin or other body parts for beautification or other purposes is thousands of years old The oldest mummy discovered in Egypt had a pierced ear Ancient African civilizations had habits of piercing their lips and tongues The oldest evidence of facial piercing was discovered in 2020 on the skeleton of a man who lived about 12 000 years ago Ear piercing has been common throughout history Often used for spiritual protection people wore metal on their ears to

prevent evil spirits from entering the brain through the ear canal Ancient African tribes and the Egyptians also practiced body modification through earlobe stretching as did people in Asia This practice among royalty is evident on the death mask of the young Egyptian pharaoh Tutankhamun as well as on statues of the Buddha where his earlobes reach almost to his shoulders Nose piercing is probably more than 4000 years old in the Middle East and was often offered as a gift and is still a tradition among some African tribes In India nose piercing was done for a completely different reason The jewel is usually worn in the left nostril of a woman In Ayurveda the traditional Indian approach to health and well being the spot on the left nostril is associated with the female reproductive organs and piercing here is believed to facilitate childbirth
