Economic Aid And American Policy Toward Egypt 1955 1981:

Economic Aid and American Policy toward Egypt, 1955-1981 William Joseph Burns, 1985-01-01 Gamal Abdel Nasser's 1955 decision to barter Egyptian cotton for Soviet bloc weaponry thrust Egypt onto center stage in the Cold War in the Middle East. What Egypt needed most and what the United States was uniquely equipped to provide was economic aid. For the Egyptian government, eager to take rapid strides toward economic development but crippled by a burgeoning population, a paucity of arable land, and a meager reserve of foreign exchange, American economic aid promised to serve as an enormously important crutch. For American policymakers, economic assistance appeared to be an ideal means of developing American influence in Egypt. Few aid relationships in the last three decades can match the drama and significance of the U.S. Egyptian experience. This study shows how the American government attempted to use its economic aid program to induce or coerce Egypt to support U.S. interests in the Middle East in the quarter century following the 1955 Czech-Egyptian arms agreement. William J. Burns has analyzed recently released government documents and interviews with former policymakers to throw light on the use of aid as a tool of American policy toward the Nasser regime. He also offers valuable observations on the role of the American economic assistance program in the Sadat era.

Egypt and the Politics of U.S. Economic Aid Marvin G. Weinbaum, 2019-03-04 The massive U.S. economic aid program for Egypt initiated in 1975 resulted in a bilateral aid relationship shaped by the interaction of political and development goals. In this study of the program's origins and consequences, Professor Weinbaum describes its scope and identifies the constraints that delayed and limited program implementation. The author discusses the modest U.S. leverage designed to encourage economic reforms and argues that far-reaching reforms could only be attained through a major change in Egypt's political structure. He finds that despite its failure to make Egypt more economically self-reliant, U.S. assistance has enabled the country to attain a level of consumption and development planning possible with no other alternative. The profit to the United States results from the regime's moderate foreign policies and compatible views on strategic threats to the region. Despite the mutual benefits of this aid program, Professor Weinbaum concludes that the United States must display greater sensitivity to Egypt's political and economic problems if the special relationship is to survive through the 1980s.

Egypt and American Foreign Assistance 1952-1956 J. Alterman, 2002-10-03 From the ground up, the story of missed opportunities, mixed messages, and mutual frustrations in American relations with Egypt at a seminal time. Unprecedented in its drawing on Egyptian official sources, *Hopes Dashed* sheds new light on the difficulties and challenges of a nascent relationship characterized by missed opportunities, mixed messages, and mutual frustrations. However beneficial the intentions of those on the ground, their desire for Egyptian economic development was stymied by bureaucratic obstacles both in Egypt and the United States. And as Egypt became embroiled in the Cold War, policy decisions increasingly were made at higher levels by officials more concerned with geopolitical and Arab-Israeli issues and less how U.S. assistance could help the domestic political economy of Egypt. Alterman

compellingly shows how the interests of both countries diverged to eventually undermine an early American attempt at economic assistance

The Struggle for Egypt Steven A. Cook, 2013-03-21 A half century ago Egypt under Nasser became the putative leader of the Arab world and a beacon for developing nations. Yet in the decades prior to the 2011 revolution it was ruled over by a sclerotic regime plagued by nepotism and corruption. During that time its economy declined into near shambles, a severely overpopulated Cairo fell into disrepair, and it produced scores of violent Islamic extremists. In *The Struggle for Egypt*, now with a new epilogue on the post-Mubarak era, noted regional specialist Steven A. Cook provides a sweeping and incisive account of how this parlous state of affairs came to be, why the revolution occurred, and where Egypt might be headed next. From p. 4 of cover

Capitalism and Nationalism at the End of Empire Robert L.

Tignor, 2015-03-08 The two decades that followed World War II witnessed the end of the great European empires in Asia and Africa. Robert Tignor's new study of the decolonization experiences of Egypt, Nigeria, and Kenya elucidates the major factors that led to the transfer of power from British to African hands in these three territories. Employing a comparative method in order to explain the different decolonizing narratives in each territory, he argues that the different state policies toward the private business sector and foreign capital were the result of nationalist policies and attitudes and the influence of Cold War pressures on local events. Using business records as well as official government sources, the work highlights the economic aspects of decolonization and weighs the influence of nationalist movements, changes in metropolitan attitudes toward the empire, and shifts in the international balance of power in bringing about the transfer of authority. The author concludes that the business communities did not play decisive roles, adhering instead to their time-honored role of leaving political issues to colonial officials and their nationalist critics. Tignor also finds that the nationalist movements, far from being ineffective, largely realized the primary goals of nationalist leaders that had been articulated for many decades.
