State of War Paul A. C. Koistinen,2012-09-16 In his farewell speech President Dwight Eisenhower famously warned us of the dangers of a military industrial complex MIC In Paul Koistinen s sobering new book that warning appears to have been both prophetic and largely ignored As the final volume in his magisterial study of the political economy of American warfare *State of War* describes the bipolar world that developed from the rivalry between the U S and USSR showing how seventy years of defense spending have bred a monster that has sunk its claws into the very fabric of American life Koistinen underscores how during the second half of the twentieth century and well into the twenty first the United States for the first time in its history began to maintain large military structures during peacetime Many factors led to that result the American economy stood practically alone in a war ravaged world the federal government especially executive authority was at the pinnacle of its powers the military accumulated unprecedented influence over national security and weaponry became much more sophisticated following World War II Koistinen describes how the rise of the MIC was preceded by a gradual process of institutional adaptation and then supported and reinforced by the willing participation of Big Science and its industrial partners the broader academic world and a proliferation of think tanks He also evaluates the effects of ongoing defense budgets within the context of the nation s economy since the 1950s Over time the MIC effectively blocked efforts to reduce expenditures control the arms race improve relations with adversaries or adopt more enlightened policies toward the developing world all the while manipulating the public on behalf of national security to sustain the warfare state Now twenty years after the Soviet Union s demise defense budgets are higher than at any time during the Cold War As Koistinen observes more than six decades of militaristic mobilization for stabilizing a turbulent world have firmly entrenched the state of war as a state of mind for our nation Collectively his five volume opus provides an unparalleled analysis of the economics of America s wars from the colonial period to the present illuminating its impact upon the nation s military campaigns foreign policy and domestic life **Routledge Revivals: Defence Industries (1988)** Daniel Todd,2018-02-01 Originally published in 1989 *Defence Industries* presents a worldwide survey of defence industries It argues that modern weapon systems and electronic

warfare have led to the transition of the military industrial enterprise into a multifaceted entity where electronics production is the key. It analyses the extent of defence industries showing that large portions of the aerospace shipbuilding motor vehicle and electronics industries are devoted to defence and discusses where the defence industries are located. It examines the differences in government policies contrasting the superpowers with newly industrialised countries.

Champions of the Poor Barend A. DeVries, 1998-03-01 Barend A. de Vries, a distinguished international economist, examines the economic roots of poverty, the actions that can be taken to eradicate it, and the ethical case for integrating the poor into the mainstream of society. De Vries applies Judeo-Christian ethics, in particular the values of social justice and compassion for the poor, to the problem of poverty in both the United States and in developing countries. Bringing together the insights of economics and ethicists, he considers both the economic feasibility of religious views regarding the eradication of poverty and the ethical aspects of economic programs. He analyzes the poverty of women resulting from discrimination, the impact of environmental degradation on the poor, the allocation of funding to military rather than social programs, and the implications of the enormous debts incurred by poor countries. In addressing these conditions, he demonstrates the pressing need for action on both economic and ethical grounds. *Champions of the Poor* offers an unbiased presentation of the ethical positions taken by Jews, Catholics, mainline Protestants, and Evangelicals, and stresses the need for all social sectors—religious and secular, business, labor, and government—to work together to eradicate poverty. By reassessing poverty from these seemingly disparate approaches, it seeks to bring us closer to solving this age-old problem.

Bulletin of the Atomic Scientists, 1986-06 *Peace Politics* Paul Joseph, 1993 The end of the Cold War promises a new era of global peace in which domestic reform could be achieved. Yet armed conflict persists throughout the world. Economic inequality, declining public services, environmental degradation, and other forms of domestic decay threaten the quality of life in the U.S. In *Peace Politics*, Paul Joseph develops a systematic comparison of the old and new world orders that links foreign and domestic affairs. By examining the issues that are central to any realignment of American politics, he offers a sweeping account of the possibilities and obstacles for progressive change over the 1990s. Acknowledging that all nations and people have a right to security, he argues for a global attack against a broad range of shared threats, including human rights violations, nuclear devastation, poverty, and despair. Politically repressive governments and environmental threats. Joseph also addresses the links between militarism in the U.S. and deforestation of the Amazon, the uncertain victory of the Gulf War, the effect of public opinion on security issues, the impact of peace movements, nuclear weapons policy, and the need for a peace dividend. Linking war and peace issues with environmental renewal, stronger democracy, economic justice, and citizen activism, *Peace Politics* is a rallying cry for rationality, genuine security, and mutual survival. Author note: Paul Joseph is Associate Professor of Sociology and Chair of the Anthropology, Sociology Department, and Peace and Justice Studies Program at Tufts University.
