Confusion to the Enemy

LEON ODELL GRIFFITH

In the span of Florida business and political history no man has made a deeper mark on the state than Edward Ball. He came to Florida half a century ago, built an empire from the foundation started by his brother-in-law Alfred I. duPont, and nurtured that empire through political criticism, tangles with American labor, and countless legal attacks. Today at 86, there is still probably no more powerful man breathing Florida air than Ed Ball. This book tells how he did it. A rare insight into the life of a unique man.

Mason, Virginia Whipple Harrison, 1976 Florida: A History Gloria Jahoda, 1984-06-17 For four hundred years Florida has been North America's ranking treasure hunt a national Never Never land Gloria Jahoda unfolds the colorful story in this book from the gold seeking conquistadores of Spain and the alleged search for a fountain of youth to today's vast influx of tourists and the retired in search of sun health and the delights of Disney World **Paving Paradise** Craig Pittman, Matthew Waite, 2010-05-25 Florida possesses more wetlands than any other state except Alaska yet since 1990 more than 84 000 acres have been lost to development despite presidential pledges to protect them How and why the state's wetlands are continuing to disappear is the subject of Paving Paradise Journalists Craig Pittman and Matthew Waite spent nearly four years investigating the political expedience corruption and negligence on the part of federal and state agencies that led to a failure to enforce regulations on developers They traveled throughout the state interviewed hundreds of people dug through thousands of documents and analyzed satellite imagery to identify former wetlands that were now houses stores and parking lots Exposing the unseen environmental consequences of rampant sprawl Pittman and Waite explain how wetland protection creates the illusion of environmental protection while doing little to stem the tide of destruction **Across Fortune's Tracks** Walter E. Based on hundreds of sources including company executives board members and investors as well as outside observers this factual and balanced history describes the St Joe Company from the days of its founders to the workings and dealings of its present day heirs For anyone concerned with land use and growth management particularly those with an interest in Florida s fragile wildlife and natural resources Green Empire will illuminate the issues surrounding the relationship between one of the most ambitious players in Florida s real estate market and the state s last frontier

Testing the Limits Brian Lewis Crispell,1999 A Floridian who served as a U S Senator from 1950 to 1968 George Armistead Smathers is generally regarded as a playboy politician who wasted his opportunities to achieve legal and political brilliance abandoning his constituency to represent business industry and other wealthy interests in Florida This detailed chronicle of Smathers s life and career reveals that his reputation was sensationalized and largely undeserved Brian Lewis Crispell incorporates lively anecdotes and personal descriptions in addition to details culled from research in newspapers interviews and the archives of Kennedy Johnson Truman and Smathers himself to bring the largely unstudied senator to life The work traces Smathers s political path from the forming of his statewide collection of loyal men a gathering of supporters from the University of Florida who formed his political base through his election to the House his successful 1950 Senate campaign against Claude Pepper and his Senatorial career during the beginning of the civil rights movement and the early Cold War Crispell highlights the senator s moderate civil rights record role in the 1960 presidential election and his internationalist position on aid to Latin America This thoroughly researched account presents Smathers as the quintessential Cold Warrior a man who significantly influenced his political world

The New Face of War Bruce D. Berkowitz,2010-05-11 As American and coalition troops fight the first battles of this new century from Afghanistan to Yemen to the Philippines to Iraq they do so in ways never before seen Until recently information war was but one piece of a puzzle more than a sideshow in war but far less than the sum total of the game Today however we find information war revolutionizing combat from top to bottom Gone are the advantages of fortified positions nothing is impregnable any longer Gone is the reason to create an overwhelming mass of troops now troop concentrations merely present easier targets Instead stealth swarming and zapping precision strikes on individuals or equipment are the order of the day based on superior information and lightning fast decision making In many ways modern warfare is information warfare Bruce Berkowitz s explanation of how information war revolutionized combat and what it means for our soldiers could not be better timed As Western forces wage war against terrorists and their supporters in actions large and small on several continents The New Face of War explains how they fight and how they will win or lose There are four key dynamics to the new warfare asymmetric threats in which even the strongest armies may suffer from at least one Achilles heel information technology competition in which advantages in computers and communications are crucial the race of decision cycles in which the first opponent to process and react to information effectively is almost certain to win and network organization in which fluid arrays of combat forces can spontaneously organize in multiple ways to fight any

given opponent at any time America's use of networked elite ground forces in combination with precision guided bombing from manned and unmanned flyers turned Afghanistan from a Soviet graveyard into a lopsided field of American victory Yet we are not invulnerable and the same technology that we used in Kuwait in 1991 is now available to anyone with a credit card and access to the Internet Al Qaeda is adept in the new model of war and has searched long and hard for weaknesses in our defenses Will we be able to stay ahead of its thinking In Iraq Saddam's army is in no position to defeat its enemies but could it defend Baghdad As the world anxiously considers these and other questions of modern war Bruce Berkowitz offers many answers and a framework for understanding combat that will never again resemble the days of massive marches on fortress like positions The New Face of War is a crucial guidebook for reading the headlines from across our troubled planet
