Programs as Incubators for Social Justice Leadership Antonio L. Ellis, 2016-02-10 This book shares the thoughts of mostly North American scholars on many interrelated topics that have not previously been linked in academic research The focus of the book is the belief that the Ed D can prepare highly competent justice oriented scholars who will be engaged with communities Among these future leaders the contributors envision educators who not only lead public schools but also private foundations not for profit organizations and community centers An outstanding feature of this volume is that each chapter highlights existing and emerging issues such as but not limited to candidate recruitment and admission policies program funding fees and student expenses academic support services faculty recruitment compensation evaluation and promotion models on site on line instruction internship policy opportunities for graduate student employment publishing and conference engagement student supervision protocols and dissertation and capstone project parameters In addition the book

explores cultural and socio political contexts public private sector relationships and the kinds of legislation that frame Ed D theory policy and practice from a social justice perspective At its best higher education is an indispensable space for spotlighting challenging and addressing injustice This important volume offers us the conceptual methodological empirical and pedagogical tools necessary for understanding the relationship between doctoral education and social justice work Antonio Ellis has assembled an impressive array of scholars who help us understand the promise and possibility of Ed D programs Marc Lamont Hill Host for the Black Entertainment Network Contributor for CNN and Distinguished Professor of African American Studies at Morehouse College This volume helps to clarify what is meant by social justice in school leadership settings and provides both philosophical and theoretical perspectives as well as strategies and curricular content that can assist in developing a common sense understanding of social justice The development of a mental frame of reference is critical to being able to transfer that understanding and curricular content into beliefs and practices As a professor of educational leadership and a college administrator I am most pleased to find a volume that provides perspectives and strategies which can be employed by academicians teaching in leadership programs and practitioners as they lead and prepare others to become leaders Zollie Stevenson Jr Associate Vice President for Academic Affairs and Associate Professor Philander Smith College

Changing Times In Teacher Education Marvin F. Wideen, Peter P. Grimmett, 2013-05-13 Pressures for reform in teacher education have begun to take on the same sense of urgency as school reform Those faculties of education who have been strong advocates for change in the schools now find themselves the subject of similar pressures from governmental policy makers Attempts at change have taken place in many different countries and jurisdictions around the world This book details through a series of international vignettes how teachers are responding to the changing times and social contexts in which they do their work The authors hold the view that changes are inevitable in teacher education but what is not clear is who will control the changes and whether the end result will actually improve the preparation of teachers The theme of the book is that the reform of teacher education should be informed by intelligent debate and that any attempt to restructure teacher preparation should result from a careful reconceptualisation of its purposes and processes
