

EDINBURGH CASTLE

Edinburgh Castle is a large castle in Edinburgh, Scotland. It is situated on a rocky outcrop, known as Castle Rock, which is part of a larger volcanic formation. The castle has been a major stronghold for Scotland since the 15th century. It was the seat of the Scottish monarchs until 1706, when it was taken over by the English. Since then, it has been used as a military installation, a prison, and a museum. The castle is one of the most popular tourist attractions in Edinburgh, and it is a UNESCO World Heritage Site.

History

The castle has a long and complex history. It was first built in the 15th century by James IV, who was the first Scottish monarch to build a castle in Edinburgh. The castle was then expanded by James V and James VI. In 1706, the castle was taken over by the English, and it became a military installation. It was used as a prison for many years, and it was also the site of several important events, including the execution of James II in 1688.

Architecture

The castle is a fine example of Scottish architecture. It features a mix of medieval and 18th-century styles. The main building is the Great Hall, which was built in the 15th century. It is a large, rectangular building with a high ceiling and a central fireplace. The castle also has several other buildings, including the Royal Palace and the Old Jail.

Visiting

The castle is open to the public every day, except on Sundays and public holidays. The entrance is free, but there is a charge for the guided tour. The tour is available in English, Scottish Gaelic, and Welsh. The castle is a great place to visit if you are interested in Scottish history and architecture.
