Edison Morgan Tesla:

Edison, Morgan and Tesla Daniel Blair Stewart, 1997 **The World's Richest Neighborhood** Quentin R. Skrabec, 2010

The residents of Pittsburgh's East End controlled as much as 40% of America's assets at the turn of the last century. Mail was delivered seven times a day to keep America's greatest capitalists in touch with their factories, banks, and markets. The neighborhood had its own private station of the Pennsylvania Railroad with a daily non-stop express to New York's financial district. Many of the world's most powerful men, princes, artists, politicians, scientists, and American Presidents such as William McKinley, Teddy Roosevelt, William Taft, Calvin Coolidge, and Herbert Hoover came to visit the hard-working and high-flying captains of industry. Two major corporations, Standard Oil and ALCOA Aluminum, were formed in East End homes. It was the first neighborhood to adopt the telephone with direct lines from the homes to the biggest banks in Pittsburgh, which at the time was America's fifth largest city. The story of this neighborhood is a story of America at its greatest point of wealth and includes rags to riches stories, political corruption, scandals, and greed. The history of this unique piece of American geography makes for enjoyable reading that will satisfy a large cross-section of readers.

Tesla Marko Perko, Stephen M Stahl, 2022-05-01

The enigmatic Nikola Tesla stalked by his ever-present inner demons, invents the modern world. His astonishing story is that of a new age god, a genius, a Zeus, a wonderful Wizard, yet a deeply troubled one. He tames the mysterious force called electricity; he dazzles the world with his endless inventions and discoveries; he blazes new paths in science that profoundly impact our daily lives; he turns fantasies into realities; his thought experiments disrupt scientific norms; he gives us many of the indispensable tools we use today; and famous actresses and chanteuses clamor for his attention as powerful men desire to be his friend. All before an astonished world. Yet all the while he keeps his own counsel as he simultaneously struggles with the challenging consequences of bipolar disorder, flights of manic energy alternating with depressive depths of great despair. He shuns the clichés of a quotidian life while forever seeking to lift the burdens from the shoulders of mankind. It would become his lifelong leitmotif, but at what cost to him? The authors, Marko Perko and Stephen M Stahl, M.D., Ph.D., D.Sc., propose a new style biography entitled *T E S L A His Tremendous and Troubled Life*. They will examine Nikola Tesla in a manner that has yet to be accomplished in publishing history, asking and answering the seminal question: Who was the real man with an extremely complex psyche, personality, who lived with obsessive compulsive disorder, OCD, and a hyperthymic temperament spilling over at times into high-flying bipolar mania and then crashing into devastating depression, and not simply the iconoclastic scientist who invented the modern world?

George Westinghouse Quentin R. Skrabec, 2007

This is a biography of Westinghouse, genius inventor from railroad and gas distribution equipment to the corporate model of invention and research. He surpassed Edison in electricity pioneering and in managing workers too, but they both lost their companies in the panic of 1907. The bank always wins.

greatest inventors but also how to look at the world in a different more imaginative way Read this book now and learn lessons from Nikola Tesla on why imagination is so vital to awakening your inner genius and insights into the real secret to creativity as explained by people like Jobs Picasso Dali and Twain **Who Built That** Michelle Malkin,2016-01-12

Conservative journalist Malkin provides an eclectic journey of American capitalism from the colonial period to the Industrial Age to the present spotlighting little known tinkerprenuers who achieved their dreams of doing well by doing good Learn how Paul Revere became America s first tech titan how famous patent holders Abraham Lincoln and Mark Twain championed the nation s unique system of intellectual property rights and more **War of the Currents** Stephanie Sammartino McPherson,2012-08-01

In the early 1880s only a few wealthy people had electric lighting in their homes Everyone else had use more dangerous lighting such as gas lamps Eager companies wanted to be the first to supply electricity to more Americans The early providers would set the standards and reap great profits Inventor Thomas Edison already had a leading role in the industry he had invented the first reliable electrical lightbulb By 1882 his Edison Electric Light Company was distributing electricity using a system called direct current or DC But an inventor named Nikola Tesla challenged Edison Tesla believed that an alternating current or AC system would be better With an AC system one power station could deliver electricity across many miles compared to only about one mile for DC Each inventor had his backers Business tycoon George Westinghouse put his money behind Tesla and built AC power stations Meanwhile Edison and his DC backers said that AC could easily electrocute people Edison believed this risk would sway public opinion toward DC power The battle over which system would become standard became known as the War of the Currents This exciting book tells the story of that war the people who fought it and the ways in which both kinds of electric power changed the world *Edison's Concrete Piano* Judy Wearing,2009-10-31

Not even geniuses get it right the first time An entertaining look at the failures of great inventors Booklist To achieve great things you have to be willing to take risks and as Edison s Concrete Piano reveals some of the most famous names in history experienced plenty of flops and face plants in the course of their careers Thomas Edison for example not only revolutionized the world with the light bulb but also designed a concrete piano a nonoperational helicopter made from box kites and piano wire and a machine to speak to the dead Alexander Graham Bell inventor of the telephone actually devoted most of his time to his sheep farm in Nova Scotia devising a multi nipples sheep somewhere along the way You ll also read about Leonardo da Vinci s walk on water shoes George Washington Carver s miracle peanut cure and much more The ludicrous ideas faulty designs and offbeat hobbies in this volume will inspire laughs and serve as a reminder that even the very best minds make mistakes Captivating This book is full of lessons for inventors and non inventors alike Henry Petroski author of Success through Failure **Empires of Light** Jill Jonnes,2003-08-19

The gripping history of electricity and how the fateful collision of Thomas Edison Nikola Tesla and George Westinghouse left the world utterly transformed In the final decades of the nineteenth century three brilliant and visionary titans of America s Gilded Age Thomas Edison Nikola

Tesla and George Westinghouse battled bitterly as each vied to create a vast and powerful electrical empire In *Empires of Light* historian Jill Jonnes portrays this extraordinary trio and their riveting and ruthless world of cutting edge science invention intrigue money death and hard eyed Wall Street millionaires At the heart of the story are Thomas Alva Edison the nation s most famous and folksy inventor creator of the incandescent light bulb and mastermind of the world s first direct current electrical light networks the Serbian wizard of invention Nikola Tesla elegant highly eccentric a dreamer who revolutionized the generation and delivery of electricity and the charismatic George Westinghouse Pittsburgh inventor and tough corporate entrepreneur an industrial idealist who in the era of gaslight imagined a world powered by cheap and plentiful electricity and worked heart and soul to create it Edison struggled to introduce his radical new direct current DC technology into the hurly burly of New York City as Tesla and Westinghouse challenged his dominance with their alternating current AC thus setting the stage for one of the eeriest feuds in American corporate history the War of the Electric Currents The battlegrounds Wall Street the 1893 Chicago World s Fair Niagara Falls and finally the death chamber Jonnes takes us on the tense walk down a prison hallway and into the sunlit room where William Kemmler convicted ax murderer became the first man to die in the electric chair

Brilliance Anthony,2013-08-19 Thomas Edison holds over 1 000 patents including those for the light bulb and the phonograph but he is broke To the rescue rides the world s banker J P Morgan with his offer of almost unlimited cash for the two men to join forces to illuminate America and revolutionize in the way the world does business Captivated by Morgan s glittering vision Edison accepts only to find the two men embroiled in the War of the Currents pitting their Direct Current electrical system against the Alternating Current system promoted by George Westinghouse and Edison s former assistant Nikola Tesla Ever more enmeshed in Morgan s personal life Edison becomes infatuated by a world of privilege and power where duty desire faith and immorality are thrown into conflict ultimately threatening his own spiritual and creative survival As a result Edison descends from his status as the godlike inventor of electric light to that of someone complicit in the invention of the electric chair *Brilliance* brings to life the birth of the modern era providing an indelible portrait of the times in which we now live

Cornered Barry C. Lynn, 2009-12-10 A manifesto for our times Thomas Frank Wall Street Journal Barry C Lynn one of the most original and surprising students of the American economy paints a genuinely alarming picture most of our public debates about globalization competitiveness creative destruction and risky finance are nothing more than a cover for the widespread consolidation of power in nearly every imaginable sector of the American economy *Cornered* strips the camouflage from the secret world of twenty first century monopolies neofeudalist empires whose sheer size vast resources and immense political power enable the people who control to direct virtually every major industry in America in an increasingly authoritarian manner Lynn reveals how these massive juggernauts which would have been illegal just thirty years ago came into being how they have destroyed or devoured their competition and how they collude with one another to maintain their power and create the illusion of open competitive markets A confluence of small government zealotry and misguided efficient market theories has led to a complete dismantling of government oversight of industry Has that brought us the promised economic utopia Just the opposite For decades the dominant elite has used the federal government to all but encourage companies to buy one another up outsource all their production and make their profits by leveraging their complete power over the market itself Lynn makes clear it will take more than a lawsuit or two to overthrow America s corporatist oligarchy and restore a model of capitalism that protects

our rights as property holders and citizens and the independence of our Republic Details how regular citizens can join together to beat the great powers and how to do so by relearning the real history and language of our democratic republic Includes stories of real people and real industries that show how monopolies threaten independent businesses squelch innovation degrade the quality and safety of products destabilize vital industrial and financial systems and destroy the fabric of democracy Explores monopoly power across a wide array of industries including appliances auto parts beer eyeglasses medical supplies pet food surfboards vitamins and more Demonstrates how the drive for always lower prices makes your job disappear puts your small business out of business and turns dreams of entrepreneurial success into impossible fantasies Lynn is that rarest of creatures a journalist whose theoretical writings are taken very seriously by the top policymakers and economic thinkers in Washington and around the world His work has been compared already to John Kenneth Galbraith and Peter Drucker The Washington Post called Lynn s last book on globalization Tom Friedman for grownups Cornered is essential reading for anyone who cares about America and its future
