Edited For Television Cnn Abc And The 1992 Presidential Campaign:

Edited For Television Matthew Robert Kerbel, 2019-04-15 This book discusses the words and pictures that constituted coverage of the 1992 presidential campaign on ABC and CNN It addresses the implications of the news product for the viewing audience and the impact of the forces that create television news on the political system **The Influence of Polls on Television News Coverage of Presidential Campaigns** Vincent M. Fitzgerald, 2018-06-12 Since the election of Richard Nixon in 1968 to Donald Trump's victory in 2016 both presidential campaigns and television news have undergone significant changes perhaps most noticeably in the use of public opinion polls in campaign reporting by the national evening newscasts of ABC CBS and NBC The Influence of Polls on Television News Coverage of Presidential Campaigns explores how during the past 50 years the three networks have quadrupled their use of polls during general election campaigns while the amount of time spent covering the actual issues facing the nation has dwindled The increasing focus on polls over the years by television news has resulted in an overall diminished quality of journalism which is relying more and more on sensationalism and theatrics The competition between the candidates has become a central focus of reporting which has led to presidential campaigns being covered like sporting events Major party candidates are portrayed increasingly less like potential leaders of the free world and more like athletes who are winning or losing a ballgame The problem is not exit polls prematurely projecting a winner several hours before voting ends but pre election polls which do the same thing weeks before Election Day Recommended for scholars interested in communication political science history and sociology **Edited For Television** Matthew Robert Kerbel, 1998 An examination of the role of network and cable news media in American presidential campaigns This second edition acknowledges the political changes that have taken place since the first edition namely the key policy battles of Clinton's first two years the mid term and 1996 elections **Presidential Campaign Discourse** Kathleen E. Did the Media Serve Us Well? Peter Ajemian, 1995 *Missed Opportunity* E. D. Dover, 2002-03-30 While the 2000 presidential election had a number of unique features including the decisive role of the Supreme Court it actually was quite similar to three earlier television age campaigns For the fourth time since 1960 an incumbent president retired and his party nominated the vice president as a potential successor The nomination of the vice president has become so commonplace that we now expect it Unfortunately we lack theoretical explanations of why vice presidents win nominations while often losing the general election Dover seeks to advance this needed theory Dover looks at the recurring features of television age elections with surrogate incumbents and applies them to a description of the leading events of Election 2000 The emphasis is on mediated incumbency a phenomenon that occurs when mass media particularly television exert enormous influence in defining the context and meaning of politics for most voters The first topics considered are the growth of the modern vice presidency and the nature of surrogate incumbent elections The outcome of such elections often turns on how effectively the vice president and his opponent overcome dilemmas unique to their strategic positions as incumbent or challenger Dover then describes the campaign from January 1999 through December 2000 from the perspective of television news media and shows how Gore failed to overcome his dilemma during a time marked by peace and prosperity The text is an important resource for scholars students and other researchers involved with American elections political communication and the American presidency Image Bite Politics Maria Elizabeth Grabe, Erik Page Bucy, 2009-03-02 Image Bite Politics is the first book to systematically assess the visual presentation of presidential candidates in network news coverage of elections and to connect these visual images with shifts in public opinion Presenting the results of a comprehensive visual analysis of general election news from 1992 2004 encompassing four presidential campaigns the authors highlight the remarkably potent

influence of television images when it comes to evaluating leaders

The Theory and Practice of Political

Stuckey, 1996-03-21 Focusing on theoretical and methodological insight this book brings together scholars from a variety of fields whose research is guided by diverse analytical approaches Instead of focusing on what divides scholars the authors explore areas of intellectual community building a more systematic and rigorous understanding of political communication By broadening and deepening understanding of the field this book provides insight into political processes that would otherwise be lacking

Political Communication

Richard M. Perloff, 2013-10-18 In this political communication text Richard M Perloff examines the various ways in which messages are constructed and communicated from public officials and politicians through the mass media to the ultimate receivers the people With a focus on the history of political communication he provides an overview of the most significant issues in the study of politics and the media In addition to synthesizing facts and theories and highlighting the scholarly contributions made to the understanding of political communication effects Political Communication addresses such factors as the rhetorical accomplishments of American presidents the ongoing tangles between the press and the presidency and the historical roots of politics as it is practiced and studied today It also addresses major issues about the press and politics that continually resurface such as question of press bias and the use and manipulation of media by politicians to accomplish national goals As a comprehensive and engaging introduction to contemporary political communication this volume provides all readers with a historical perspective on American politics and press and offers a unique appreciation of the strengths and virtues of political communication in America

The Millennium Election Lynda Lee Kaid, 2003 The Millennium Election highlights some of the most important campaign communication from the 2000 elections looking at candidates political messages the media's campaign coverage the impact of the Internet and the political socialization of young voters The authors show that we still have much to learn about traditional candidate voter interactions as well as new forms of political communication and these forms must work together to engage a new generation of voters Visit our website for sample chapters

The Parties Respond Louis Sandy Maisel, 2002-08-21 This classic text examines the issues surrounding party politics in the United States The fourth edition considers the demise of the Reform Party in 2000 and discusses campaign finance reform

Engaging the Public Thomas J. Johnson, Carol E. Hays, Scott P. Hays, 1998 This volume of original essays by leading political scientists and media scholars examines the nature of political disengagement among the public and offers concrete solutions for how the government and media can stimulate public engagement in the political process

The Media and Neo-Populism Gianpietro Mazzoleni, Julianne Stewart, Bruce Horsfield, 2003-02-28 Mazzoleni Stewart Horsfield and their contributors analyze the two way relationship of the mass media and the contemporary phenomenon of extreme right wing neo populist political parties which emerged in the closing years of the 20th century across the world The success of Jean Marie Le Pen leader of the neo populist Front National in the first French presidential ballot in April 2002 shows that

these extremist parties have strong if varying electoral support Drawn into reporting on the policies and antigovernment critiques of the new parties the mass communication institutions especially those engaged in news production have been challenged by a variety of unconventional but effective political campaign strategies that caused many media professionals considerable challenge Taking an approach informed by mass communication theory this book analyzes eight case studies of the interaction of news media dynamics and neo populism in Austria Australia France Canada India Italy the United States and the Latin American region against the background of widespread disenchantment with traditional parties and the complacency and cynicism of popularly elected governments Insights into media responses reveal how dependent on media coverage the neo populist parties were and how in many cases the media were initially unequal to the confronting ideologies of the new parties Although the news media exploited the new parties new parties exploited the news media as well in quite shrewd and original ways This is an important resource for scholars students and other researchers involved with political mass communications and right wing political organizations

Electronic Magazines William C. Spragens, 1995-06-27 The traditional documentary programming of network television's bygone era has given way to the recent explosion of ratings driven personality based news magazine programming While ostensibly conforming to a high standard of public service these magazines as even some of their producers admit must succumb to the forces of public appetite and profit maximization in order to be competitive This study examines this phenomenon of the electronic magazine and shows how the soft news programs affect the public's view of American politics and culture Maintaining the distinction between the syndicated tabloid style programming whose survival depends almost entirely on rating success and the more responsibly conceived network magazine programming Spragens provides a thorough content analysis of 60 Minutes Dateline NBC 20/20 and similar network series His study traces the development of the television magazine genre from the original 60 Minutes through the current crop of news programs it tracks the soft hard or sensational serious content dichotomy and its relation to ratings and it draws conclusions about the trends in soft news programming and their impact on the American public

Bill Clinton Allan Metz, 2002-03-30 Bill Clinton's administration was filled with new policies and achievements for the nation's future but those achievements were easily overshadowed by personal flaws and scandal Despite his personal problems Clinton captured the American public and served two terms as one of our more memorable presidents This comprehensive bibliography on Clinton will provide students with information from his childhood his pre presidential career presidency including assessments of it and the beginning of his post presidential life Key access points to this information are provided in the Table of Contents and detailed author and subject indexes Also included is an invited essay providing an overview of the Clinton presidency and an extensive chronology of significant events

A Virtuous Circle Pippa Norris, 2000-09-04 Is the process of political communications by the news media and by parties responsible for civic malaise A Virtuous Circle sets out to challenge and critique the conventional wisdom Based on a comparative examination of the role of the news media and

parties in 29 postindustrial societies focusing in particular on Western Europe and the United States this study argues that rather than mistakenly blaming the messenger we need to understand and confront more deep rooted flaws in systems of representative democracy
