Educating Adolescent Girls E. M. Chandler, 2022-12-29 Girls are worse than boys these days was a common complaint from teachers in the 1970s Whether true or not this viewpoint was pervasive yet little guidance had been given to the student teachers to help them tackle the problems that girls presented Originally published in 1980 the main purpose of this work was to provide a soundly based textbook on the education of adolescent girls which by taking into account the changing role of women in our society at the time would be of immediate use to all practitioners and students of education Research findings and material drawn from recent work by teachers in schools have been collated along with theoretical approaches selected for their relevance to teaching in a manner which demonstrates their practical implications The difficulties that teachers found in coping with the normal as well as the abnormal behaviour of girls is examined The importance of education for girls is looked at in the context of their future roles as members of the work force and as mothers of the next generation Reports and complaints about the inadequacies of the education system in preparing girls for their future life were rife In dealing with a topic which was causing such concern the author set out to fill a noticeable gap in the literature of Education at the time The book was designed for use by student teachers lecturers probationary teachers and their supervisors but social workers educational psychologists and others who deal with adolescents would also find it useful For students its value rested in the practical orientation of its information which gave it the dual function of handbook and academic textbook For practising teachers it gave advice encouragement and support

Comparative Perspectives on Refugee Youth Education

Alexander W. Wiseman, Lisa Damaschke-Deitrick, Ericka L. Galegher, Maureen F. Park, 2019-05-22 This volume explores the shared expectations that education is a panacea for the difficulties that refugees and their receiving countries face. This book investigates the ways in which education is both a dream solution as well as a contested landscape for refugee families and students. Using comparative cross-national perspectives across five continents, the editors and contributors critically analyze the educational structures, policies, and practices intended to support refugee youth transition from conflict and post-conflict zones to mainstream classrooms and schools in their new communities.

Principles of Adolescent Education Ralph Albert Dornfeld Owen, 1929

Bangalore Girls Supriya Baily, 2024-11-05 Bangalore is looked at in depth in Supriya Baily's exploration of one of India's most dynamic cities. Booklist praises the book, saying, "This deeply researched book is especially timely in light of recent gender-based violence in India. Through the stories of a group of school girls in what used to be India's most progressive city, Bangalore Girls reveals how the freedom women once enjoyed in the Silicon Valley of India has been eroded by the rising tide of right-wing nationalism, misogyny, and religious fundamentalism. Author Supriya Baily explores one of India's most dynamic cities through the eyes of a group of women who grew up and went to school together in the late 1980s and early 1990s. As they enjoyed the trappings of a burgeoning middle class, these classmates also watched their country move to the right politically and socially, spurred on by the Ayodhya riots that tore down the Babri Masjid Mosque in 1992 and the sectarian violence that followed. A Hindu nationalist tide that continues to rise today. The book offers us a window into these women's lives and shows us how they are responding to the breakdown of progressivism across multiple domains. They discuss not only their own safety and the educational opportunities and challenges confronting their families; they also talk about such society-wide issues as anti-Muslim sentiment, the backlash against science, and the dangers of independent thinking. Baily gives voice to their worries about political cults of personality and government policies that seek to marginalize and ostracize anyone who speaks out against the authorities, but especially women. As Indian prime minister Narendra Modi now consecrates the new Ram Temple in Ayodhya, it has never been more important to understand the wave of nationalism that began in 1992. The stories of these women told by Supriya Baily are a must-read tale of extremism's threat to women's rights and human rights."
