Education Reform Nita Scoggan,1998-07-01 **Resources in Education** ,2001-10 **Schooling Corporate Citizens** Ronald W. Evans,2014-11-27 Schooling Corporate Citizens examines the full history of accountability reform in the United States from its origins in the 1970s and 1980s to the development of the Common Core in recent years Based in extensive archival research it traces the origins and development of accountability reform as marked by key government and business led reports from A Nation at Risk to No Child Left Behind and Race to the Top By using the lens of social studies and civic education as a means to understand the concrete impacts of accountability reforms on schools Evans shows how reformers have applied principles of business management to schools in extreme ways damaging civic education and undermining democratic learning The first full length narrative account of accountability reform and its impact on social studies and civic education Schooling Corporate Citizens offers crucial insights to the ongoing process of American school reform shedding light on its dilemmas and possibilities and allowing for thoughtful consideration of future reform efforts **Recent Department of Education Publications in ERIC** United States. Department of Education,1995 *American Educational Research Association Annual Meeting Program* American Educational Research Association,2000 **Education and Sociology** David Levinson,Peter Cookson,Alan Sadovnik,2014-01-21 First Published in 2002 This single volume reference provides readers and researchers with access to details on a wide range of topics and issues in the sociology of education Entries cover both national and international perspectives and studies as well as tackling controversial points in education today including gender inequality globalization minorities meritocracy and more This is a key one of a kind resource for all educational researchers and educators **Now Tell Me I Was Wrong** Tom DeWeese,2011-01-05 In this book Tom DeWeese has collected a strong representation of the hundreds of articles hes written on these subjects through the years These articles were written during some of the greatest changes to our government our schools our economy and our personal freedoms yet witnessed in American history They document the fights that erupted over those changes as policy was being written and enacted They name the perpetrators and document their actions In short this book represents a history of some of the major political battles of our time and stands as a truly remarkable indictment of not only the Democrats but more so of the Republicans who had a chance to stop those changes but instead actually helped make them happen For decades Tom DeWeese has been sounding the alarms over government land grabs radical environmentalists radical reform in the schools attacks on our national sovereignty and UN driven global governance For his efforts Tom DeWeese was not only ignored but derided and labeled an alarmist Now however those policies he warned us about are front page headlines fueling a national discontent As a result today most of the issues are the root of the growing national protest now commonly known as the Tea Party movement As they rip apart our nation and protests grow in our streets Tom DeWeese issues this challenge Now tell me I was wrong **Federal Register** ,1995 **Congressional Record** United States. Congress,2000 The

Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824*, the *Register of Debates in Congress 1824-1837*, and the *Congressional Globe 1833-1873*.

No Child Left Behind and the Transformation of Federal Education Policy, 1965-2005 Patrick J. McGuinn, 2006. Education is intimately connected to many of the most important and contentious questions confronting American society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance. Elementary and secondary schooling has long been the province of state and local governments but when George W. Bush signed into law the No Child Left Behind Act in 2002 it signaled an unprecedented expansion of the federal role in public education. This book provides the first balanced in-depth analysis of how No Child Left Behind (NCLB) became law. Patrick McGuinn, a political scientist with hands-on experience in secondary education, explains how this happened despite the country's long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform-oriented federal role in schools. His book provides the essential political context for understanding NCLB, the controversies surrounding its implementation and forthcoming debates over its reauthorization, how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare. He places the evolution of the federal role in schools within the context of broader institutional, ideological, and political changes that have swept the nation since the 1965 Elementary and Secondary Education Act. It chronicles the concerns raised by the 1983 report *A Nation at Risk* and shows how education became a major campaign issue for both parties in the 1990s. McGuinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict. McGuinn traces the Republican shift from seeking to eliminate the U.S. Department of Education to embracing federal leadership in school reform, then details the negotiations over NCLB, the forces that shaped its final provisions, and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel, and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform.
