Wehmeyer, 2001-07-26 Enables teachers and other school personnel working with students with disabilities to provide a gender equitable educational experience **International Journal of Educational Reform**, 2000

Education 02/03 Fred Schultz, 2001-12 Selected articles from magazines newspapers and journals covering educational topics **African American Review**, 1998 *Handbook for Achieving Gender Equity Through Education* Susan S. Klein, Barbara Richardson, Dolores A. Grayson, Lynn H. Fox, Cheris Kramarae, Diane S. Pollard, Carol Anne Dwyer, 2014-05-22 First published in 1985 the Handbook for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education This new expanded edition provides a 20 year retrospective of the field one that has the great advantage of documenting U S national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX the landmark federal law prohibiting sex discrimination in education equity programs and research Key features include Expertise Like its predecessor over 200 expert authors and reviewers provide accurate consensus research based information on the nature of gender equity challenges and what is needed to meet them at all levels of education Content Area Focus The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics science and engineering Global Diversity Focus

Global gender equity is addressed in a separate chapter as well as in numerous other chapters. The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans, Latinas/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students. Action Oriented. All chapters contain practical recommendations for making education activities and outcomes more gender equitable. A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education. New Material Expanded from 25 to 31 chapters, this new edition includes more emphasis on male gender equity and on sexuality issues, special within population gender equity challenges, race ability and disability, etc. coeducation and single sex education, increased use of rigorous research strategies such as meta analysis, showing more sex similarities and fewer sex differences, and of evaluations of implementation programs. Technology and gender equity is now treated in three chapters: women's and gender studies, communication skills relating to English bilingual and foreign language learning, and history and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will be essential for anyone who wants accurate research based information on controversial gender equity issues: journalists, policy makers, teachers, Title IX coordinators, equity trainers, women's and gender study faculty, students, and parents.

From Cultural Deprivation to Cultural Security Dale Allender, Arya Allender-West, 2024-07-24. This important book considers how youth of color and other marginalized youth experience socio cultural deprivation from the repetition of traumatic socio historic experiences as well as from the institutions they interact with, such as schools, mental health organizations, and social services agencies. Focusing on the importance of connection to cultural heritage, the book shows how young people's cognitive development can be mediated in educational settings through humanizing and culturally sustaining rituals that build rapport and facilitate learning and healing. The authors define socio cultural deprivation and locate its origins for marginalized youth in post traumatic slave syndrome, post apocalyptic stress syndrome, and similar socio historic trauma, epigenetic trauma, and contemporary trauma. They weave theory and research, autobiography, and professional anecdotes to identify and elaborate upon socio cultural deprivation and to provide rituals for rapport building that can be applied to classrooms, group counselling, social work practices, and other human centred work. Rituals include those acknowledging indigeneity, exploring personal ancestry, and alternative forms for those who have no connection to their biological family, healing experiences through yoga, meditation, progressive relaxation, and visualization practices, and explicit relationship building activities. *From Cultural Deprivation to Cultural Security* will be a crucial text for training and practising psychologists, educators, social workers, youth workers, and counsellors concerned with the positive development of children, adolescents, and young adults.
