**The Educational Legacy of Romanticism** John Willinsky, 2006-01-01 This international collection of essays by leading authorities in literature and education presents the first comprehensive view of the impact of Romanticism on education over the course of the last two centuries Romanticism's reconception of self nature writing and the imagination forms a chapter of intellectual history that has led to a number of innovative programs in the schools The book returns to the educational thinking of key figures from the time Rousseau Wordsworth Mary Shelley and Coleridge before charting their influence on such historical and contemporary developments as Montessori schools art education free schools and current writing programs The contributors tend to challenge common assumptions concerning Romanticism and do not shy away from its darker side their work encompasses both theoretical considerations of Romantic and post modern conceptions of the self and practical concerns with Romanticism's potential for the school curriculum The Educational Legacy of Romanticism represents a multi disciplinary inquiry into the continuing influence which cultural endeavours can have on the social practices of society Romantic Women Writers Paula R. Feldman, Theresa M. Kelley, 1995 Essays forging a new definition of Romanticism that includes the wide range of women's artistic expression *Changing the Educational Landscape* Jane Roland Martin, 2017-09-29 Changing the Educational Landscape is a collection of the best known and best loved essays by the renowned feminist philosopher of education Jane Roland Martin Trained as an analytic philosopher at a time before women or feminist ideas were welcome in the field Martin brought a philosopher's detachment to her earliest efforts at revolutionizing the curriculum Her later essays on women and gender further showcase the tremendous intellectual energy she brought to the field of feminist educational theory Martin explores the challenges and contradictions posed by the very concept of women's education and also recognizes how the presence of women necessitates the rearticulation of not only the curriculum but also the standard ideologies in education *Romanticism and Education* David Halpin, 2007-08-07 Argues that an understanding of romantic thought has major implications for educational thought and practice especially in relation to themes such as imagination creativity and personal growth practices in particular curriculum pedagogy and the structure of schooling This book provides a reinterpretation of romanticism JCT. ,1991\* Literature Criticism from 1400 to 1800 ,2006 **Romanticism and Parenting** Carolyn A. Weber, Carolyn Weber, 2007 If the child is the father of the man as William Wordsworth so famously declared then what of the father that child grows to become How does a daughter born of her mother's death as in the case of Mary Shelley navigate the politics of production and reproduction within a loaded language of mythological allusion between generational authorships How do the visual arts perpetuate or challenge cultural agendas such as portraying patriarchal anxieties about the effeminization of homeland by the foreign other or attempting iconically to save the soul of a nation How do parents both encode and decode our world With the rise of the cult of the child in the later 18th and 19th centuries Romantic writers of Britain and Europe and eventually of North America

were perfectly positioned to explore by extension what it meant to be parent whether it be in within the domestic or the political sphere The essays in *Romanticism and Parenting Image Instruction and Ideology* offer a fresh timely and cutting edge contribution to the field of Romantic studies The collection has its roots in conference proceedings from the 2005 Romanticism and Parenting Conference held at Seattle University in Seattle Washington Essays acknowledge traditional discussions of such quintessentially Romantic themes as the child education and familial politics while building upon contemporary innovative arguments within the contexts of Romanticism As a result chapters in the collection range from examining didactic children's literature to complicating constructions of the family politic at personal communal and nationalistic levels While challenging and deepening an understanding of Romantic studies the collection also points to current dynamic issues such as the burgeoning discussion of the experience that actual parents face in academia Consequently the collection reveals how the Romantic period has come to profoundly influence our own current constructions of the politics of parenting
