Theology in the Public Square Gavin D'Costa, 2013-04-10 This imaginative study rethinks the nature of theology and its role in universities The author sketches out a fascinating project using examples from US and UK institutions whereby theology becomes a transformative force within universities Imagines what a Christian university in which all disciplines have been theologized would look like Feeds into discussions about the religious identity of denominationally linked colleges and universities Forms part of a wider attempt to imagine a vital public role for theology that enables it to serve both the Church and the wider community

Sir Adolphus William Ward,1934 *Literary Communication as Dialogue* Roger D. Sell,2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell s ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through Wordsworth and Coleridge to Dickens Pinter and Rushdie **The Cambridge Modern History** ,1905 *The Cambridge Modern History* Sir Adolphus William Ward,George Walter Prothero,1904 The Cambridge Modern History is a comprehensive modern history of the world beginning with the 15th century age of Discovery published by the Cambridge University Press in the United Kingdom and also in the United States

Shakespearean Representation Howard M. Felperin,2015-03-08 We are often told that Shakespeare is our contemporary yet we insist just as often on the Elizabethan quality of his work as it reflects a culture remote from our own Beginning with this paradox Howard Felperin explores the question of modernity in literature He directs his attention toward several older poets and examines Shakespeare in particular to show how literary modernity depends not on chronological considerations but on the process of mimesis or imitation that art has traditionally claimed for itself In analyzing Shakespeare s major tragedies Professor Felperin notes that each carries within it a model of its dramatic prototypes and therefore requires a conservative response from its interpreters In the interest of being truer to life than its model however each play departs from that model and so requires a Romantic or modernist response as well The author contends that Shakespeare s meaning arises from this ambivalent relation to the forms of the past Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of

Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
