

The **ECONOMICS** and **POLITICS** of **WELFARE STATES**

In a welfare state, government programs take primary responsibility for providing the economic security of unemployed, ill, or retired citizens.

- Why were paternalistic poor relief schemes replaced by more universalistic welfare states in advanced capitalist nations?
- What explains cross-national variations of state-provided services in combination with voluntary, nonprofit, private-sector support?

- Should comprehensive, universal welfare be considered a human right? Or is the state obligated to provide only a minimal safety-net?
- Will inevitable fiscal crises necessitate severe retrenchments of the modern welfare states?

The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

The Ascent of Money Niall Ferguson, 2008-11-13 The 10th anniversary edition with new chapters on the crash Chimerica and cryptocurrency An excellent just in time guide to the history of finance and financial crisis The Washington Post Fascinating Fareed Zakaria Newsweek In this updated edition Niall Ferguson brings his classic financial history of the world up to the present day tackling the populist backlash that followed the 2008 crisis the descent of Chimerica into a trade war and the advent of cryptocurrencies such as Bitcoin with his signature clarity and expert lens The Ascent of Money reveals finance as the backbone of history casting a new light on familiar events the Renaissance enabled by Italian foreign exchange dealers the French Revolution traced back to a stock market bubble the 2008 crisis traced from America's bankruptcy capital Memphis to China's boomtown Chongqing We may resent the plutocrats of Wall Street but as Ferguson argues the evolution of finance has rivaled the importance of any technological innovation in the rise of civilization Indeed to study the ascent and descent of money is to study the rise and fall of Western power itself

The Invisible Infrastructure Pasquale De Marco, 2025-08-15 In *The Invisible Infrastructure* we take a close look at the social and economic changes that are shaping our world today We explore the rise of the knowledge economy the decline of manufacturing jobs the growth of the service sector and the changing nature of work We examine the changing role of government the rise of the welfare state the changing family structure and the changing role of education We also look at the global economy the environment and sustainability and the future of work the welfare state the family education and the global economy We argue that these changes are creating both
