actors and writers He comments on the poetry fiction essays and memoirs of both the New Irish and Americans of Irish heritage locating them within a literary and historical context But this is also a deeply personal book in which Wall wrestles with his own identity as an Irishman living in America raising his children as Americans and learning to love the American landscape from the streets of Manhattan to the western hills of Nebraska *Mail-Orders* Sunka Simon,2002-03-21 While the advent and structure of electronic mail has been discussed in web caucuses newspapers hypertext theory and communication theory it has not yet been considered in conjunction with epistolary scenarios in film art and literature To address this gap Mail Orders explores the status of the epistolary form at the end of the twentieth century and its connections to feminist criticism literary theory and postmodernism One of the first works to consider electronic mail in relation to the history of epistolary fiction Mail Orders concerns itself with individual letters as well as fiction written in letter form and widens the debate on the often postulated death of letters by considering the epistolary connections between the eighteenth and twentieth centuries systems of communication and representation

Haedicke, 2021-12-06 This book argues that the performance based work in the featured case studies contributes to the construction of food democracy where the public takes back decision making in shaping the food system It explores how contemporary artists translate scientific research about local and global agricultural issues into life stories that inform and engage their audiences and in so doing transform passive food consumers into proactive food citizens The pairing of performing and farmscapes complex webs of farmlands and storylines enables artists to use embodied practices to encourage audiences to imagine a just and sustainable agri food system and to collaborate on making it a reality The book arranges the case studies on a trajectory that moves from projects

that foreground knowledge acquisition to ones that emphasize social engagement by creating conversations and coalitions between farming and nonfarming communities to a final one that pairs protest art and political activism to achieve legally binding changes in the agricultural landscape
