Woman's Weekly and Lower Middle-Class Domestic Culture in Britain, 1918-1958 Eleanor Reed, 2022-03-23 A unique intersection between periodical and literary scholarship and class and gender history this book showcases a brand new approach to surveying a popular domestic magazine Reading Woman's Weekly alongside titles including Good Housekeeping My Weekly Peg's Paper and Woman's Own and works by authors including Dot Allan E M Delafield George Orwell and J B Priestley it positions the publication within both the contemporary magazine market and the field of literature more broadly redrawing the parameters of that field as it approaches the domestic magazine as a literary genre in its own right Between 1918 and 1958 Woman's Weekly targeted a lower middle class readership broadly housewives and unmarried clerical workers on low incomes who viewed or aspired to view themselves as middle class Examining the magazine's distinctively lower middle class treatment of issues including the First World War's impact on gender the status of housewives and working women women's contribution to the Second World War effort and Britain's post war economic and social recovery this book supplies fresh and challenging insights into lower middle class culture during a period in which Britain's lower middle classes were gaining prominence and middle class lifestyles were undergoing rapid and radical change

Festivals and the City Andrew Smith, Guy Osborn, Bernadette Quinn, 2022-08-23 This book explores how festivals and events affect urban places and public spaces with a particular focus on their role in fostering inclusion The festivalisation of culture politics and space in cities is often regarded as problematic but this book examines the positive and negative ways that festivals affect cities by examining festive spaces as contested spaces The book focuses on Western European cities a particularly interesting context given the social and cultural pressures associated with high levels of in migration and concerns over the commercialisation and privatisation of public spaces The key themes of this book are the quest for more inclusive urban spaces and the contested geographies of festival spaces and places Festivals are often used by municipal authorities to break down symbolic barriers that restrict who uses public spaces and what those spaces are used for However the rise of commercial festivals and ticketed events means that they are also responsible for imposing physical and financial obstacles that reduce the accessibility of city parks streets and squares Alongside addressing the contested effects of urban festivals on the character and inclusivity of public spaces the book addresses more general themes including the role of festivals in culture led regeneration Several chapters analyse festivals and events as economic development tools and the book also covers contested representations of festival cities and the ways related images and stories are used in place marketing A range of cases from Western Europe are used to explore these issues including chapters on some of the world's

most significant and contested festival cities Venice Edinburgh London and Barcelona The book covers a wide range of festivals including those dedicated to music and the arts but also events celebrating particular histories identities and pastimes A series of fascinating cases are discussed from the Venice Biennale and Dublin Festival of History to Rotterdam s music festivals and craft beer festivals in Manchester The diverse and innovative qualities of the book are also evident in the range of urban spaces covered obvious examples of public spaces such as parks streets squares and piazzas are addressed but the book includes chapters on enclosed public spaces e g libraries and urban blue spaces waterways too This reflects the interpretation of public spaces as socio material entities they are produced informally through their use including for festivals and events as well as through their formal design and management **The British Journal of Photography** ,1867

Queer Trades, Sex and Society Jeffrey Meek,2023-06-01 This book is the first scholarly work to explore male homosexual prostitution in interwar Scotland The male prostitute occupies a contested position within interwar society depending on the perspective he was representative of a descent into turpitude of tenacious organised criminality or of exploitation The book explores connections between male prostitution and criminal gangs prevalent during the interwar period by detailing the emergence and activities of Glasgow s notorious Whitehats a gang composed of a number of queer male prostitutes and led by William Paton This book discovers that although Paton s activities were representative of a career criminal the young men who joined the Whitehats were often driven by poverty and social isolation This book explores the experiences of Edinburgh police detective William Merrilees and his war on homosexuality in Edinburgh during the 1930s through examining the tactics used to regulate homosexual trade and the implications this held for the men involved The book not only explores the attitudes opinions and actions of police officers politicians and the legal process but also uncovers fragments from the lives of the men involved through personal reflections and letters The book explores the anxieties that the trade in homosexual sex provoked not just for understandings of sexuality but also of gender and nationhood and offers a comparative perspective of the forms of homosexual trade in Scotland England and major foreign cities This book will have broad appeal to academics and students in the field of social sexual and gender history as well as the social and criminal histories of Scotland and Britain Community-based Traditional Music in Scotland Josephine L. formation including the role and practice of tutors of traditional music The author proposes conceptualising the teaching and learning of traditional music in community based organisations as a pedagogy of participation **Comprehensive Manual of Ophthalmology** Ahmed E,2010-06-15 Comprehensive Manual of Ophthalmology in which sufficient information has been provided in easy to understand language with a definite and uniform format Many tables have been incorporated for summarizing key facts about different diseases Enough standard colored illustrations will be of immense help A short list of Further Readings has been added at the end of each chapter for those who want to pursue further on the particular topic I consider this humble endeavor as a mini textbook of ophthalmology in a refreshingly reader friendly fashion which I presume will be quite useful for both undergraduate and postgraduate students residents and even practicing ophthalmologists
