 Guy B. Senese, 1991-06-19 Self determination a crucial conceptual development in American Indian social and educational
 policy and the force behind current Indian policy programs is critically analyzed in this volume by a scholar educator who has
 worked closely with Native Americans Guy B Senese explores the wide gulf between the rhetoric and the reality of self
 determination in contemporary Native American education an area that has received little scrutiny by students of American
 education policy Senese contends that many aspects of Native American self determination policy work against the full
 realization of that policy and are in fact contradictory Arguing that self determination is not a unified coherent policy moving
 toward more community and tribal self government and economic self help Senese makes a strong case for his theory that
 the policy has been a vehicle to promote a smooth transition toward a termination of the tribal federal relationship This book
 is an excellent addition to the developing literature that questions the pluralist assumptions of the late twentieth century
 liberal progressive social policy Each of the volume s three parts addresses a basic assumption of Native American social
 education policy Part I shows how self determination policy grew as a response to the moral requirements of reservation
 development in a political climate of American patriotism Part II shifts the focus more directly to schooling including a
 discussion of the concept of community control and the 1975 Self Determination and Educational Assistance Act The
 concluding section analyzes the dialogue that resulted from the fragmentation of Native Americans who were divided over
 the meaning of self determination How the concepts of trust and sovereignty have created grounds for the expropriation of
 the meaning of self determination is also explored This volume s analysis of American Indian social and educational policy
 makes it required reading in the areas of Ethnic Studies Educational Policy Studies Ethnohistory and Sociology of Education
 The work is an important addition to the Education and Ethnic Studies collections of public and university libraries

Voices Raised in Protest Stephanie Bangarth, 2008-07-01 The uprooting and confinement of Japanese Americans and
 Japanese Canadians during the Second World War constituted the worst violations of citizenship rights in twentieth century
 North America Voices Raised in Protest examines the meaning and impact of these actions and how they diverged in Canada
 and the United States Many North Americans opposed their governments wartime policies toward their fellow citizens of
 Japanese extraction In this timely book Stephanie Bangarth studies the efforts and discourse of anti internment advocates
 and discusses the various cases they brought before the courts Persons of Japanese ancestry were also active in their own

defence Their critiques of the removal and deportation policies were seminal examples of a growing general interest in civil rights and would provide a foundation for rights activism in subsequent years Voices Raised in Protest offers valuable perspective for today's debates over ethnic and racial profiling treatment of enemy combatants and tensions between civil liberty and security imperatives It will be of interest to activists and general readers as well as to scholars and students in history law politics and Asian Canadian American studies
