Confidential to America David Gudelunas,2011-12-31 In modern day America newspaper advice columns have become public forums for the discussion of human sexuality Although questions posed to newspaper advice columnists ranges from matters of etiquette to intimacy as they have for decades increasingly most of the limited space in these newspaper features address issues that fall under a broader heading of sexuality Questions about marital fidelity dating and relationships sexual practices gender roles and sexual taboos have all become hot button topics within the morally conservative mainstream press In *Confidential to America* David Gudelunas shows how since the 1950s advice columns have been one of the few consistent mainstream and widely available public forums for the discussion of topics severely restricted in other places Newspaper advice columns serve as sites of discussion about sexuality within a larger culture that is severely divided on questions of how when and to what extent one may formally speak about sexuality Even now at the turn of the twenty first century high schools remain hesitant to devote more than a semester or two to formal discussions of sexuality When they do under current governmental policy and pressure these discussions are often restricted to abstinence only programs or what might be described as non discussions of sexuality Community based sexual education programs are similarly restricted in their reach funding and more often than not effectiveness In America in the twenty first century talking about sex in educational contexts is perceived to be almost as risky as having sex Gudelunas demonstrates that while formal discussions of sexuality are strictly regulated and often thwarted the informal curriculum of sexuality particularly in the

Directories in Print, 2004 **Cartoonists, Works, and Characters in the United States through 2005** John Lent, 2006-04-30

This penultimate work in John Lent's series of bibliographies on comic art gathers together an astounding array of citations on American cartoonists and their work. Author John Lent has used all manner of methods to gather the citations: searching library and online databases, contacting scholars and other professionals attending conferences and festivals and scanning hundreds of periodicals. He has gone to great length to categorize the citations in an easy to use scholarly fashion and in the process has helped to establish the field of comic art as an important part of social science and humanities research. The ten volumes in this series covering all regions of the world constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation, comics and cartooning. They are the definitive works on comic art research and are exhaustive in their inclusiveness, covering all types of publications: academic, trade, popular, fan, etc. from all over the world. Also included in these books are citations to systematically researched academic exercises as well as more ephemeral sources such as fanzines, press articles and fugitive materials, conference papers, unpublished documents, etc. attesting to Lent's belief that all pieces of information are vital in a new field of study such as comic art.

Encyclopedia of Journalism Christopher H. Sterling, 2009-09-23

Written in a clear and accessible style that would suit the needs of journalists and scholars alike, this encyclopedia is highly recommended for large news organizations and all schools of journalism. Starred Review Library Journal: Journalism permeates our lives and shapes our thoughts in ways we've long taken for granted. Whether we listen to National Public Radio in the morning, view the lead story on the Today show, read the morning newspaper headlines, stay up to the minute with Internet news, browse grocery store tabloids, receive Time magazine in our mailbox or watch the nightly news on television, journalism pervades our daily activities. The six volume Encyclopedia of Journalism covers all significant dimensions of journalism including print, broadcast and Internet journalism, U.S. and international perspectives, history, technology, legal issues and court cases, ownership and economics. The set contains more than 350 signed entries under the direction of leading journalism scholar Christopher H. Sterling of The George Washington University. In the A to Z volumes 1 through 4, both scholars and journalists contribute articles that span the field's wide spectrum of topics from design, editing, advertising and marketing to libel, censorship, First Amendment rights and bias to digital manipulation, media hoaxes, political cartoonists and secrecy and leaks. Also covered are recently emerging media such as podcasting, blogs and chat rooms. The last two volumes contain a thorough listing of journalism awards and prizes, a lengthy section on journalism freedom around the world, an annotated bibliography and key documents. The latter edited by Glenn Lewis of CUNY Graduate School of Journalism and York College, CUNY, comprises dozens of primary documents involving codes of ethics, media and the law and future changes in store for
