*Educating for Democracy* Robert F. McNergney, Edward R. Ducharme, Mary K. Ducharme, 1999-04 Use of case methods to promote democratic teaching learning Part I suggests how why teacher educators can use case methods at preservice inservice levels Part II presents 6 cases designed to stimulate consideration of democratic teaching learn Leading For Democracy Patrick M. Jenlink, Lee Stewart, Sandra Stewart, 2012-06-28 At a time when America's schools face many of the most difficult challenges ever the authors of *Leading for Democracy A Case Based Approach to Principal Preparation* return the reader to an agenda for democratic leadership for schools Emphasizing the need for leadership preparation programs to reexamine existing and more traditional approaches to principal preparation this comprehensive book draws to the foreground the need for a case based approach that reflects the real world problems and challenges faced by principals in schools today In particular *Leading for Democracy* emphasizes both a case based pedagogy for principal preparation and the democratic ideals that provide the foundation for democratic schools bringing into specific relief the work ahead for professors of educational leaders in preparing principals ground in democratic practice Equally important *Leading for Democracy* provides practical insight to the challenges of today's principal offering a set of pedagogical tools for professors to guide students of leadership in learning and understanding the difficult work required of leading democratically set against the backdrop of a changing America *Case Studies and Activities in Adult Education and Human Resource Development* Steven W. Schmidt, Kathleen P. King, 2010-09-01 Case studies have become a widely used instructional tool in many educational environments The use of case studies began in the 1950s at Harvard Business School Today they may be used as part of a course of study or as the main focus of a course to which other material is added While the use of case studies is prevalent in schools of business and medicine they are not often used in adult education or human resource development This may be because there are no current major publications that deal with the use of case studies in these disciplines nor are there any major databases of adult education or human resource development case studies for instructors to use Good case studies can bring reality into the classroom They can provide frameworks for discussion based on issues that must be faced in real life Complex case issues can be broken down and examined for greater understanding then pulled together again for resolution Case studies can be used successfully in adult education I propose a book based on the use of case based learning in adult education and human resource development HRD The book could be positioned as a supplement to course textbooks for courses in adult education and HRD I would write the cases and develop the exercises but could also get others to contribute a case study or exercise to the book Cases would each be a half page to maybe 2 3 pages at the long end and would include questions for students readers Supplementary information possibly in the form of a DVD could be put together for instructors This information would include case study focal points and examples of possible responses for each study exercise *Using Cases in Higher Education* James P. Honan, Cheryl Sternman Rule, 2002-10-01 Using Cases in

Higher Education A Guide for Faculty and Administrators is an essential resource created for faculty and administrators who utilize case studies to analyze assess and respond to the complex and difficult issues facing higher education leaders While this volume will prove useful with any case study it is specifically designed to complement the series of casebooks and teaching notes starting with Casebook I Faculty Employment Policies and Teaching Notes to Casebook I Faculty Employment Policies
