Education and Labour Party Ideologies 1900-2001 and Beyond Denis Lawton, 2004-08-02 An analysis of the relationship between labour party values and beliefs and educational ideas since 1900      *Assessing the Quality of Educational Research in Higher Education*, 2019-02-11 Tina Besley has edited this collection which examines and critiques the ways that different countries particularly Commonwealth and European states assess the quality of educational research in publicly funded higher education institutions Such assessment often ranks universities departments and even individual academics and plays an important role in determining the allocation of funding to support university research Yet research is only one aspect of academic performance alongside teaching and service or administration components The book focuses on the theoretical and practical issues that accompany the development of national and international systems of research assessment particularly in the field of education In our interconnected globalised world some of the ideas of assessment that have evolved in one country have almost inevitably travelled elsewhere especially the UK model Consequently the book comprises an introduction eighteen chapters that discuss the situation in ten countries followed by a postscript It gathers together an outstanding group of twenty five prominent international scholars with expertise in the field of educational research and includes many with hands on experience in the peer review process The book is designed to appeal to a wide group of people involved as knowledge workers and knowledge managers academics students and policy makers in higher education and interested in assessment and accountability mechanisms and processes      Ideology and Welfare Gary Taylor, 2006-12-07 This book introduces students to the diversity of theoretical perspectives on welfare both illuminating the distinctiveness of each ideology and highlighting important continuities in thought It goes on to illustrate how these theories are reflected in and challenge the development of welfare policy      *Education, Individualization and Neoliberalism* Valerie Visanich, 2020-05-28 Education Individualization and Neoliberalism questions the individualization process in education in the Anglo American context and analyses how this process is applied in the everyday life of millennials with tertiary education in Southern Europe Valerie Visanich explores the close affinity of this concept to neoliberalism in contemporary societies specifically by focusing on changes in education and employment Using Beck Beck Gernsheim s concept of individualization to refer to increased freedom in one s life choices yet at the same time increased risks Visanich unpacks the trajectories of life experiences of tertiary educated millennials in the contemporary neoliberal Anglo American setting in relation to recent cultural and socio economic changes She examines how this individualized mode is adopted and adapted in countries across Southern Europe including Italy Spain Portugal Malta and Greece in locations where cultural conditions habitually cushion out often by family networks and patronage some of the burdens of being young today      Exploring Key Issues in Education Derek Kassem, Dean Garratt, 2009-07-15 A key textbook for Education Studies providing an insight into some of the issues and dilemmas faced by education in the UK and internationally      **20th Century Britain** Francesca Carneval, Julie-Marie

Strange, 2014-06-11 Written by leading international scholars *Twentieth Century Britain* investigates key moments, themes and identities in the past century. Engaging with cutting edge research and debate, the essays in the volume combine discussion of the major issues currently preoccupying historians of the twentieth century with clear guidance on new directions in the theories and methodologies of modern British social, cultural and economic history. Divided into three, the first section of the book addresses key concepts historians use to think about the century, notably class, gender and national identity. Organised chronologically, the book then explores topical thematic issues such as multicultural Britain, religion and citizenship. Representing changes in the field, some chapters represent more recent fields of historical inquiry such as modernity and sexuality.

*Shirley Williams* Mark Peel, 2013-09-17 For fifty years Shirley Williams has been one of Britain's best known and best loved politicians, admired for her warmth, sincerity, integrity and compassion. Hailing from an impeccable intellectual background, the young Shirley seemed destined for great things as she rose effortlessly up the political ladder. Yet for all the talk of her becoming the country's first female Prime Minister, that accolade passed her by. Her feisty independence earned her a career that has been anything but perpetual sunshine. In this first ever biography, Mark Peel explores the dilemma that has faced Williams throughout the highs and lows of her political life: how to tread the line between firmly held principles and party solidarity. Drawing on his unfettered access to the family archive and conversations with Williams's colleagues, Peel skilfully teases out the contradictions at the heart of this remarkable character. *Shirley Williams: The Biography* reveals the surprisingly vulnerable figure behind the reassuring public façade. It uncovers the expectations placed on Williams by her highly ambitious parents, her guilt about her privileged background and her often tumultuous personal relationships. The result is a touching, intimate portrait of one of the most complex and popular politicians of our time: a woman who through good times and bad has retained her essential humanity.

*Social Equality in Education* Ann Margaret Doyle, 2018-08-21 This book explores the development of education in France and England from the French Revolution to the outbreak of World War II. The author uses social equality as a framework to compare and contrast the educational systems of both countries and to emphasise the distinctive ideological legacies at the heart of both systems. The author analyses how the French Revolution prompted the emergence of an egalitarian ideology in education that in turn was crucial for propagating the values of equality, patriotism and unity. In tandem, the volume discusses the equally dramatic consequences of the Industrial Revolution for English society while England led the world by 1800 in trade, commerce and industry. A strict form of liberalism and minimal state intervention impeded the reduction of educational inequality. This pioneering book will be of interest to students and scholars of educational equality as well as the history of education in France and England.

**Government, Policy, and Ideology** Keiko Yokoyama, 2010 *Government Policy and Ideology* analyzes the transformation of the university systems of England and Japan from the early 1980s with particular reference to the changing modalities of university autonomy and the power relationship between central authorities, the universities and the market. The analysis

compares the various policy positions of the relevant stakeholders in the two countries highlighting the ideologies of neoliberalism university autonomy and the new managerialism These ideologies coexist in both the English and the Japanese university systems However the interpretations of these ideologies made by stakeholders the patterns of the interrelations between them and their contextualization as elements in the policy and stance of each stakeholder differ between England and Japan This book argues that convergence between the English and Japanese university systems is to a large extent explained in the transformation of the university system in England during the 1980s and the continuity of the Ministerial jurisdictional mechanism in Japan Book jacket

**The Crisis of the Meritocracy** Peter Mandler, 2020-09-11 Before the Second World War only about 20% of the population went to secondary school and barely 2% to university today everyone goes to secondary school and half of all young people go to university How did we get here from there The Crisis of the Meritocracy answers this question not by looking to politicians and educational reforms but to the revolution in attitudes and expectations amongst the post war British public the rights guaranteed by the welfare state the hope of a better life for one's children widespread upward mobility from manual to non manual occupations confidence in the importance of education in a learning society and a knowledge economy As a result of these transformations meritocracy the idea that a few should be selected to succeed has been challenged by democracy and its wider understandings of equal opportunity across the life course At a time when doubts have arisen about whether we need so many students and amidst calls for a return to grammar school selection at 11 the tension between meritocracy and democracy remains vital to understanding why our grandparents our parents ourselves and our children have sought and got more and more education and to what end

**Introduction to Education Studies** Steve Bartlett, Diana M. Burton, 2007 Introduction to Education Studies is established as the key text for undergraduate students of education studies as well as for practitioners embarking on a higher degree The book provides a thorough grounding for students new to the subject without assuming a substantial prior knowledge of the area It also takes a multidisciplinary approach to the study of education drawing on the authors extensive experience of teaching and course development at both undergraduate and postgraduate level This updated edition includes new sections on the nature and purposes of education research in education ideologies and the curriculum lifelong learning comparative education social and psychological explanations for pupil student achievement policy developments in education This highly popular accessibly written text is essential reading for students on education studies courses The authors have provided an important resource for student study in education Importantly it reinforces the necessity of a multi disciplinary approach to the understanding of contested educational process and practices in a contemporary context Dave Trotman Escalate

Holocaust Consciousness in Contemporary Britain Andy Pearce, 2014-06-05 The Holocaust is a pervasive presence in British culture and society Schools have been legally required to deliver Holocaust education the government helps to fund student visits to Auschwitz the Imperial War Museum's permanent Holocaust Exhibition has attracted millions of visitors and

Britain has an annually commemorated Holocaust Memorial Day What has prompted this development how has it unfolded and why has it happened now How does it relate to Britain's post war history its contemporary concerns and the wider globalisation of Holocaust memory What are the multiple shapes that British Holocaust consciousness assumes and the consequences of their rapid emergence Why have the so called lessons of the Holocaust enjoyed such popularity in Britain Through analysis of changing engagements with the Holocaust in political cultural and memorial landscapes over the past generation this book addresses these questions demonstrating the complexities of Holocaust consciousness and reflecting on the contrasting ways that history is used in Britain today

**Special Educational Needs** Mary Warnock, Brahm Norwich, 2010-04-01 Special Educational Needs A New Look by Mary Warnock was initially published by the Philosophy of Education Society of Great Britain in 2005 In this new edition Warnock has updated her argument Brahm Norwich has contributed a counter argument and Lorella Terzi has provided an introduction and afterword drawing the two debates together The issues debated in this new edition of Special Educational Needs A New Look include The statement of special educational need The concept of inclusion Special Educational Needs A New Look raises issues which will be of interest to all involved in special education and inclusion including teachers policy makers and educationalists

**Making Markets in the Welfare State** Jane R. Gingrich, 2011-06-23 Over the past three decades market reforms have transformed public services such as education health and care of the elderly Whereas previous studies present markets as having similar and largely non political effects this book shows that political parties structure markets in diverse ways to achieve distinct political aims Left wing attempts to sustain the legitimacy of the welfare state are compared with right wing wishes to limit the state and empower the private sector Examining a broad range of countries time periods and policy areas Jane R Gingrich helps readers make sense of the complexity of market reforms in the industrialized world The use of innovative multi case studies and in depth interviews with senior European policymakers enriches the debate and brings clarity to this multifaceted topic Scholars and students working on the policymaking process in this central area will be interested in this new conceptualization of market reform

**Ideas, Institutions, and the Politics of Schools in Postwar Britain and Germany** Gregory Baldi, 2022-05-16 This book addresses one of the most contentious issues of postwar Western Europe namely the organization of the primary and secondary stages of schooling in state education systems In examining the politics of continuity and change in postwar schooling in Britain and the Federal Republic of Germany Gregory Baldi seeks to contribute to more general understandings of education's place in the welfare state the development of social institutions and the relationship between material and ideational factors in shaping political outcomes over time

**Education in the United Kingdom** Colin Brock, 2015-01-29 Education in the United Kingdom is a comprehensive critical reference guide to education in England Scotland Wales Northern Ireland The Isle of Man The Channel Islands Gibraltar The Cayman Islands Bermuda Anguilla and The British Overseas Territories Although generically similar in education structures the various components of

the United Kingdom have separate systems with some very distinctive differences The chapters written by regional experts offer a review of contemporary national and regional educational structures and policies research innovation and trends Some of the themes covered include issues relating to the partition of Ireland differences between maintained and independent schooling language issues and radical alternatives in teacher education Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets this book is an essential reference for researchers scholars international agencies and policy makers The Reshaping of West European Party Politics

Christoffer Green-Pedersen, 2019-07-31 Long gone are the times when class based political parties with extensive membership dominated politics Instead party politics has become issue based Surprisingly few studies have focused on how the issue content of West European party politics has developed over the past decades Empirically Reshaping of West European Party Politics studies party politics in Belgium Denmark France Germany the Netherlands Sweden and the UK from 1980 and onwards This book highlights the more complex party system agenda with the decline but not disappearance of macroeconomic issues as well as the rise in new politics issues together with education and health care Moreover various new politics issues such as immigration the environment and European integration have seen very different trajectories To explain the development of the individual issues this volume develops a new theoretical model labelled the issue incentive model of party system attention The aim of the model is to explain how much attention issues get throughout the party system which is labelled the party system agenda To explain the development of the party system agenda one needs to focus on the incentives that individual policy issues offer to large mainstream parties i e the typical Social Democratic Christian Democratic or Conservative Liberal parties that have dominated West European governments for decades The core idea of the model is that the incentives that individual policy issues offer to these vote and office seeking parties depend on three factors namely issue characteristics issue ownership and coalition considerations The issue incentive model builds on and develops a top down perspective on which the issue content of party politics is determined by the strategic considerations of political parties and their competition with each other Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston **Second International Handbook of Educational Change** Andy Hargreaves, Ann Lieberman, Michael Fullan, David Hopkins, 2010-08-13 The two volumes of the second edition of the International Handbook of Educational Change comprise a totally new and updated collection of the most critical and cutting edge ideas in educational

change Written by the most influential thinkers in the field these volumes cover educational change at both the theoretical and practical levels The updated handbook remains connected to the classical concerns of the field such as educational innovation reform and change management and also offers new insights into educational change that have been brought about by social change and shifting contexts of educational reform Like the first best selling Handbook this one will also undoubtedly become an essential resource for people involved in all spheres of education from classroom teachers teacher leaders and administrators to educational researchers curriculum developers and university professors No other work provides such a wide ranging and comprehensive examination of the field of educational change     Blair's Educational Legacy? Geoffrey Walford, 2013-10-18 The United Kingdom General Election on 1st May 1997 gave a landslide victory to a revitalised Labour Party Tony Blair became Prime Minister with a huge Commons majority of 179 over all other parties Such a majority meant that extensive changes of policy could be implemented with little effective opposition During the election campaign Tony Blair had repeatedly claimed that the top three priorities of a New Labour government would be education education education and on page two of the Labour Party's election manifesto a smiling Blair is seen with Nelson Mandela the unacknowledged originator of the oratorical education triplet Following a third Election victory in 2005 and after over ten years as Prime Minister Blair finally stepped down to Gordon Brown in mid 2007 but only after a promotional final tour that lasted several months Towards the end Blair devoted considerable efforts to try to ensure that his legacy would be positive and that he would be remembered for more than his role in the Iraq war But what is his legacy in the field of education This book brings together the assessments of key educational researchers who have been centrally involved with both the critique and implementation of various policy developments It is now time to make a solid academic evaluation of his influence on education This book is timely and relates directly to the central policy themes of the last decade It considers the relationships between theory and practice and examines the nature of policy and politics Each contribution will review empirical data and policy changes relating to Blair's period as Prime Minister and will make an assessment of the enduring effects of changes in policy Each will assess the long term and lasting effects as well as the shorter term responses This book was published as a special issue of the Oxford Review of Education     *Social Justice, Transformation and Knowledge* James Avis, 2016-01-22 Social Justice Transformation and Knowledge Policy Workplace Learning and Skills examines the policy contexts in which lifelong learning vocational education and training and skill development is set It provides a critique of neo liberalism and its impact on vocational education and training and lifelong learning It interrogates potentially progressive policy interventions that take for granted capitalist relations as these can become a form of comfort radicalism that whilst calling for structural change remain lodged within capitalism Such analyses are limited particularly in austere conditions of worklessness with increasing numbers of workers surplus to the requirements of capital Offering detailed discussions within UK European and global contexts this book proves an insightful and critical text which illustrates Professor Avis extensive

experience and knowledge of the field Adopting a substantive focus on debates and analysis with significance that extends beyond the particular policy context of England the book offers an exploration of arguments that suggest workplace learning carries with it progressive possibilities an examination of models of class implicit within education policy and documents consideration of forms of governance and professionalism and their articulation to the pursuit of social justice an insight into discussions concerned with social justice knowledge as well as the current conditions of austerity in which education and social policy are emphasised Social Justice Transformation and Knowledge is a significant addition to the field It is an insightful and thought provoking book from which students lecturers and researchers with an interest in education studies education policy and social justice will greatly benefit from reading
