Rethinking Family-school Relations Maria Eulina de Carvalho, 2000-10-01 This book addresses the complications and implications of parental involvement as a policy through an exploratory theoretical approach including historical and sociological accounts and personal reflection This approach represents the author's effort to understand the origins meanings and effects of parental involvement as a prerequisite of schooling and particularly as a policy solution for low achievement and even inequity in the American educational system Most of the policy and research discourse on school family relations exalts the partnership ideal taking for granted its desirability and viability the perspective of parents on specific involvement in instruction and the conditions of diverse families in fulfilling their appointed role in the partnership De Carvalho takes a distinct stance She argues that the partnership parental ideal neglects several major factors It proclaims parental involvement as a means to enhance and perhaps equalize school outcomes but disregards how family material and cultural conditions and feelings about schooling differ according to social class thus the partnership parental involvement ideal is more likely to be a projection of the model of upper middle class suburban community schooling than an open invitation for diverse families to recreate schooling Although it appeals to the image of the traditional community school the pressure for more family educational accountability really overlooks history as well as present social conditions Finally family school relations are relations of power but most families are powerless De Carvalho makes the case that two linked effects of this policy are the gravest the imposition of a particular parenting style and intrusion into family life and the escalation of educational inequality

Rethinking Family School Relations A Critique of Parental Involvement in Schooling a carefully researched and persuasively argued work is essential reading for all school professionals parents and individuals concerned with public schooling and educational equality
