Methods in Educational Research Marguerite G. Lodico, Dean T. Spaulding, Katherine H. Voegtle, 2010-05-17 *Methods in Educational Research* *Methods in Educational Research* is designed to prepare students for the real world of educational research. It focuses on scientifically based methods, school accountability, and the professional demands of the twenty-first century, empowering researchers to take an active role in conducting research in their classrooms, districts, and the greater educational community.
