El libro del ambiente Giuseppe Zanini, 1985 Valorizar el medio ambiente David Glover, International Development Research Centre (Canada), 2010 Una gran cantidad de personas en los países en desarrollo depende del medio ambiente natural para sus medios de vida sea en tierras de cultivo o bosques humedales o zonas costeras Para estas personas el medio ambiente es mucho más que una fuente de recreación es la base de la economía Pero carencias en el funcionamiento de los mercados derechos de propiedad incompletos y políticas equivocadas pueden llevar a las personas a seguir comportamientos que son racionales en el corto plazo o desde un punto de vista individual pero dañinos para el medio ambiente y las futuras generaciones La economía tiene mucho para ofrecer en la comprensión y en la orientación de este comportamiento También proporciona herramientas para los tomadores de decisiones enfrentados a opciones difíciles Como podemos comparar el valor de los beneficios ambientales con los costos de su preservación Como podemos evaluar los impactos de la intervención ambiental o de la no intervención sobre los pobres Como deberíamos repartir los costos de las mejoras Este libro expone la forma como investigadores en cuatro de las redes regionales de economía ambiental del IDRC han tratado cuestiones como estas en una gran variedad de situaciones en Asia África y América Latina Reúne las percepciones de más de 15 años de investigaciones y evalúa sus impactos sobre las políticas públicas y sobre la comunidad científica Concluye con una mirada hacia el futuro de la economía ambiental en el mundo en desarrollo EL AUTOR David Glover dirige el Programa de Economía Ambiental del Centro Internacional de Investigaciones para el Desarrollo de Canadá Ha trabajado en el IDRC desde 1982 primero como Director de Política Económica y desde 1993 hasta 2006 como director fundador del Programa Económico y
