Good Life Good Death A Doctors Case For Euthanasia And Suicide:

Good Life Good Death Christiaan Barnard, 1980 A strong advocate of euthanasia the world renowned heart surgeon explains his views on the patient's right to die cloning freezing bodies and recombinant DNA and RNA research **Good Life, Good Death** Derek Humphry, 2017-02-21 For nearly four decades Derek Humphry has blazed a trail for the right to die movement He founded the Hemlock Society pioneered Oregon's Death with Dignity Act and wrote the bestselling books *Final Exit* more than one million copies sold and a New York Times bestseller for eighteen weeks and *Jean's Way* UK bestseller But before his wife's terminal illness ravaged his life Humphry was a successful journalist In *Good Life Good Death* readers will learn how the twists and turns of fate led him to his life's purpose In his poignant memoir Derek tells of his broken family his wartime experiences as a boy in England and rising to the highest rungs of journalism on two continents In 1975 he lived with crippling fear and sadness when his beloved wife Jean was diagnosed with cancer As the disease gradually spread they both decided that rather than let a terminal illness run its course through extreme physical and emotional pain Jean would end her own life on her own terms at an agreed upon time and manner arranging her own last days Readers will witness the personal pain and emotional distress they endured as well as the legal repercussions Derek faced following her death As Humphry writes It would be far more preferable to legalize medically assisted suicide for terminally ill adults for it is a tremendous strain and risk put on families To know why he has maintained this struggle for choice in dying against powerful religious and political forces it is necessary to understand the whole man In *Good Life Good Death* readers will appreciate the fight he has gone through so that others might consider the option of dying with dignity The Good Death Marilyn Webb, 2011-07-27 *The Good Death* is the first full scale examination of one of today's most complex issues the profound change in the way Americans think about and confront death Drawing on more than six years of firsthand research and reporting noted journalist Marilyn Webb builds her account around intimate portraits of the dying themselves She explains why some deaths become shockingly difficult and needlessly painful and how the struggles over end of life decisions can pit patient and family against hospitals doctors insurance companies religious groups and the law But there is good news as well Webb describes many extraordinary programs and individuals who are changing the face of dying An abundant source of comfort and hope *The Good Death* shows how the essential elements of humane even uplifted death are available to all of us if we know what is possible where to go for help and how to prepare **Lethal Judgments** Melvin I. Urofsky, 2000 He shows how these 1997 cases relate to two other famous cases Karen Ann Quinlan and Nancy Beth Cruzan and carries the controversy up to the recent trials of Dr Jack Kevorkian Urofsky considers the many facets of this knotty argument He differentiates between discontinuation of medical treatment assisted suicide and active euthanasia and he sensitively examines the issue's social and religious contexts to enable readers to see both sides of the dispute He also shows that in its ruling the Supreme Court did not slam the door on the subject but left it ajar by allowing states to legislate on the matter as

Oregon has already done By treating assisted suicide simply as a legal question observes Urofsky we miss the real importance of the issue *Euthanasia and the "right to Die"* Renée C. Rebman,2002 An objective examination of both sides of the issue of euthanasia **Healing Death** Christopher Levan,2020-09-16 The apostle Paul said Oh death where is your sting 1 Corinthians 15 55 And yet when faced with their own end most believers are very anxious We know death is a fact of living but we are not too keen to go through the pain and anguish associated with it And it is how we address death s anguish that is the subject of this book Through a close examination of the recently legalized medical assistance in dying MAID Levan suggests that Canadians can now face their own end with a different spirit While death is the disease that will get us all he points out that dying is a process that can be healed if we are given the time and permission to face it Taking insights that arise from the Abrahamic religious traditions Levan shows how palliative care can be enhanced by MAID a new tool in the repertoire of end of life therapies For newcomers to the subject Levan outlines the facts on MAID what is allowed and who is excluded He studies the many taboos surrounding the taking of one s own life and points a way forward for believers *Healing Death* is a fresh and inspiring perspective on a very old and anxiety ridden subject **Good Life, Good Death** Christiaan Barnard,1983 A doctor s case for euthanasia and suicide **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 National Library of Medicine Current Catalog National Library of Medicine (U.S.),1985 **Bioethics in Canada, Third Edition** Carol Collier,Rachel Haliburton,2021-03-25 Now in its third edition *Bioethics in Canada A Philosophical Introduction* offers a comprehensive overview of the philosophical historical and medical concepts shaping contemporary debates on biomedical issues The text opens with an introduction to moral theory and bioethical principles followed by application of these theories and principles to real world ethical conflicts involving abortion distributive justice genetics reproductive technology and other vital topics A landmark case opens each chapter illuminating the many issues involved in these debates as well as the philosophical assumptions that shape them Thoroughly updated to reflect recent political medical and cultural changes this third edition features new sections on Medical Assistance in Dying MAiD the moral philosophy of liberalism in bioethics the Mad movement CRISPR and gene editing and expanded content on mental health rural and remote communities and codes of conduct and codes of ethics Accessibly written with newly added case studies in the health care workplace this text is an insightful resource for courses in the disciplines of philosophy health studies medicine and nursing providing a strong ethical foundation in an ever changing field *Encyclopedia of Death & Human Experience* Clifton D.
