Sharing the Easter Faith with Children Carolyn C. Brown,2011-07-01 Sharing the Easter Faith with Children is theologically sound biblically focused educationally on target and developmentally appropriate Carolyn Brown writes clearly and helpfully with conviction and passion for what to share and how to share one's faith with children It should be required

reading for every parent educator and pastor who wants to communicate and celebrate the Easter faith with children Brown packs a lot of practical suggestions insights and activities into this very readable resource I am confident children will mature in their understanding and affirmation of the Easter faith when they have been nurtured in families and congregations that take seriously what Brown offers Donald Griggs author of Teaching Today's Teachers to Teach It is easy to share the Christmas story and faith with children The story is beautiful and lends itself well to pageants and other celebratory events for children It is not so easy to share the Easter story and faith with children because the message and images are complex Many parents have trouble articulating what Easter means to them personally much less answering their children's questions In many congregations children are featured in palm parades on Palm Sunday but they are not specifically planned for at other Holy Week services When schools schedule an Easter break many families go away and thus unintentionally bypass the whole Easter message for years This book explores what the Easter message can mean to children as they grow up The author helps congregations and families share the Easter message with their children and include the children meaningfully in Lent Holy Week and Easter observances Included are materials for children from birth in the church nursery to age 12 and reproducible pages to create a booklet for parents The first section of the book describes the particular parts of the Easter faith that are important to children at different ages and comments on the biblical Easter texts from a child's point of view The second part of the book works through the Lenten season describing ways congregations can include children and providing program and worship plans including Lenten disciplines for children and their families Ash Wednesday Celebrating Palm Sunday or looking ahead on Passion Sunday Maundy Thursday Recalling the Last Supper Keeping Good Friday The church sponsored Easter Egg Hunt Easter Sunday Morning Another part of the book offers help to leaders who want to share the content with teachers parents or committees Also included is a comprehensive list of related resources This carefully researched and well grounded practical resource from a highly regarded Christian educator will strengthen your educational ministry with children and support parents as they shape the faith of their children

Fibkins, 2013-03-08 With budget cuts looming every year administrators and union leaders find themselves in a never ending game of promoting how good their school is and why budget cuts will derail their ongoing success The vehicle they choose for this ongoing self promotion is what William Fibkins calls the dazzle approach which focuses only on good news Overtime administrators and staff often come to believe the positive reviews of the good news process and overlook or abandon those

students who don't make good news but instead act out, fail, cause trouble and give the school a bad name. These are the bad news kids and their lives are not newsworthy. This book is about the unintended consequences that can occur when the good news process becomes heavily embedded in school life, a process that creates two different worlds in a school community that often prides itself on fostering unity and belonging. The school media promotions may say "All is well here" but this positive spin belies the divisions that breed isolation and estrangement for both the good news and bad news kids, which gives rise to class warfare in the school community. In a culture in which some students are valued as more worthy than others, being a more worthy student can have a serious downside that is as risky as being an unworthy student. This book explores these often hidden consequences and what school and community leaders need to do to right this sinking ship, a ship that seems sturdy and well built to onlookers but is abusing its crew to keep afloat. Some schools operate on a system which uses high achieving students as a commodity to pass school budgets and downplays the cries of troubled students to be included in their school. Good news gets headlines while bad news is shifted to the back page or left out, resulting in an "all is well" problem-free picture of the school.

Speak of the Devil Joseph Laycock, 2020. *Speak of the Devil* is the first book-length study of The Satanic Temple. Joseph Laycock, a scholar of new religious movements, contends that the emergence of political Satanism marks a significant moment in American religious history that will have a lasting impact on how Americans frame debates about religious freedom. Though the group gained attention for its strategic deployment of outrage, it claims to have developed beyond politics into a religious movement. Equal parts history and ethnography, *Speak of the Devil* demonstrates why religious Satanism is significant to larger conversations about the definition of religion, religious freedom, and religious tolerance.

Children and the Law Katherine Hunt Federle, 2012-11-16. The study and practice of juvenile law is inherently interdisciplinary; a successful practitioner must understand not only the legal implications in the field but also have a solid grounding in child psychology, child development, neuroscience, sociology, criminology, and social work. The best child advocates in the law have a firm familiarity with and understanding of the value these other disciplines provide. *Children and the Law* is a unique coursebook that will revolutionize the way students learn and apply juvenile law. By incorporating the interdisciplinary topics necessary to understand the best practices in child law, author Katherine Federle has carefully selected a vast array of articles, studies, research cases, and statutes that allow students to best understand the law and also help bridge the divide between theory and practice. The book is separated into four main sections: Children and Crime, Children and Protection, Children and Restraints on Freedom, and Children and Decision Making. Each section in *Children and the Law* also includes a series of questions, exercises, and problems that encourage students to critically examine legal doctrine and policy in light of available scientific and socio-scientific scholarship.
