The Gorgon's Gaze Paul Coates, 1991-04-26 This interdisciplinary study of recurrent themes in German cinema as it has developed since the early twentieth century focuses on pertinent films of the pre and post World War II eras The author explores the nature of expressionism which is generally agreed to have ended with the advent of sound and its persistence in the styles of such modern masters of film noir as Orson Welles and Ingmar Bergman In considering the possibility of homologies between the necessary silence of pre sound cinema and the widespread modernist aspiration to an aesthetic of silence Coates relates theories of the sublime the uncanny and the monstrous to his subject He also reflects upon problems of representability and the morality of representation of events that took place during the Nazi era **Death Stalks the Fire**

creature the Fire Child has ever had to face The Gorgon's Severed Head Cecelia Eaton Luschnig,2018-07-17 The Gorgon's Severed Head looks at three plays of Euripides one early one middle and one late in his career Innovations in genre in the use of the traditional stories in the representation of women and of gender issues are present at every period In all three plays characters are depicted creating themselves and each other Chapter One on Alcestis looks at the artistry of the two main characters and is especially concerned with finding a role for Admetus the play's most serious problem The second chapter treats the physical displacement of the myth in Euripides version of the Electra Orestes story A last section approaches the layers of time and space in *Phoenissae* **Black Bodies and Transhuman Realities** Melvin G.

Hill,2019-08-02 *Black Bodies and Transhuman Realities* Scientifically Modifying the Black Body in Posthuman Literature and Culture makes a series of valuable contributions to ongoing dialogues surrounding posthuman blackness and Afro transhumanism The collection explores the Black body self in the context of transhuman realities from a variety of literary and artistic perspectives These points of view convey the cultural political social and historical implications that frame the space of Black embodiment functioning as sites of potentiality and pointing toward the possibility of a transcendental Black subjectivity In this book many questions concerning the transformation of the Black body are presented as parallels to philosophical and religious inquiries that have traditionally been addressed from a hegemonic viewpoint The chapters demonstrate how literature based on its historical and social contexts contributes to broader thought about Black transcendence of subjectivity in a posthuman framework exploring interpretations of the old and visions of the new human

Hartman,2011-02-18 In Return of the Fire Child T J grudgingly accepted his destiny as the Fire Child protector of the Inner World a civilization located within the core of the Earth Along with his three teen friends Scott Chad and Crash he returned to the land of his birth to battle the evil that threatened not only his world but also the surface world where he had been raised Pursued by a Gorgon and her legion of cats they quickly learned that the Inner World was a land of myth filled with strange creatures and dangerous beasts such as the boys had never imagined In Quest of the Fire Child T J sought to establish himself as the protector of his world and faced new dangers from ruthless men and creatures that wished to destroy him Once again he must call upon his three friends who along with the wolf boy Criton risk their lives attempting to bring peace to a world in turmoil T J learned that his mother was still alive and he set out to rescue her from the brutish Mordraves He also discovered that Scott is his half brother and the bond between the two boys becomes stronger than ever before Now in Fortress of the Fire Child T J and his friends face further danger in the form of Aquatis a ruthless shape shifter who once battled the Fire Child's father and who now seeks revenge against the son Intrigue continues as Mathias the T J's arch enemy reappears and attempts to regain the throne of Stonemass the chief city of the Inner World Further danger ensues as an army of mercenaries march forward to attack the Fortress home of the Fire Child and T J begins to doubt his own power pitted against such formidable odds **A Gorgon's Mask** Lewis A. Lawson,2005-01-01 The thesis of

A Gorgon's mask The Mother in Thomas Mann's Fiction depends upon three psychoanalytic concepts Freud's early work on the relationship between the infant and its mother and on the psychology of artistic creation Annie Reich's analysis of the grotesque comic sublimation and Edmund Bergler's analysis of writer's block Mann's crisis of sexual anxiety in late adolescence is presented as the defining moment for his entire artistic life In the throes of that crisis he included a sketch of a female as Gorgon in a book that would not escape his mother's notice But to defend himself from being overcome by the Gorgon mother's stare he employed the grotesque comic sublimation hiding the mother figure behind fictional characters physically attractive but psychologically repellent all the while couching his fiction in an ironic tone that evoked humor however lacking in humor the subtext might be In this manner he could deny to himself that the mother figure always lurked in his work and by that denial deny that he was a victim of oral regression For as Edmund Bergler argues the creative writer who acknowledges his oral dependency will inevitably succumb to writer's block Mann's late work reveals that his defense against the Gorgon is crumbling In Doctor Faustus Mann portrays Adrian Leverkühn as ultimately the victim of oral regression but the fact that Mann was able to compete the novel despite severe physical illness and psychological distress demonstrates that he himself was still holding writer's block at bay In Confessions of Felix Krull Confidence Man a narrative that he had abandoned forty years before Mann was finally forced to acknowledge that he was depleted of creative vitality but not of his capacity for irony brilliantly couching the victorious return of the repressed in ambiguity This study will be of interest to general readers who enjoy Mann's narrative art to students of Mann's work especially its psychological and mythological aspects and to students of the psychology of artistic creativity

in the New Age of Multiculturalism and Pluralism Patricia Ruggiano Schmidt, Peter B. Mosenthal, 2001-07-01 This book offers a array of essays with challenging ideas and provoking new analyses of power asymmetries multiple epistemologies and vital concerns for the education of a different America the America of new immigrants people of color with other cultures languages and values The new American that many want to ignore and is becoming the only America This book also forces us to reflect on the educational challenges we must face especially in teacher education and the preparation of intellectual leaders None of the major agenda items associated with a new era of social justice can be either comprehended or accomplished without a profound understanding of multicultural literacy and of its relationship to ethnic racial cultural and linguistic diversity While in previous decades we used frequently a rhetoric of multiculturalism at a safe distance today we are living multiculturalism and practicing ethnic cultural and racial diversity in our daily lives as we seek a marriage

partner a business associate a friend a church Most of all we must live multiculturalism as we go school and see children's faces There is no way to escape the reality of ethnic racial and linguistic diversity as it comes entangled with many other cultural and class differences between and within each group we encounter Suddenly an abrupt awakening for many mainstream educators what was peculiar of some areas in the Southwest has become common scenario in most metropolises and large cities The present volume brings us face to face with issues and challenges we can no longer sweep under the rug This outstanding volume lays down a solid general conceptual foundation that permits us to link our theoretical past with the post modern era It also provides a clear context for the discussion of contrasting notions of monocultural literacy and the relationship of literacy and power The volume goes on to deal with the relationship of literacy and culture actually to specific cultures especially African American At this point the discourse turns to strategies for incorporating minority perspectives into the literacy curriculum and including the home cultures of disenfranchised peoples The last section of the book offers help on the practical issues of teacher education for student populations often ignored and linkages between schools and homes in order to empower the disenfranchised and isolated
