## **Gospel Swamp:**

**Fountain Valley** Daniel Aaron Gibb, 2007 Along the banks of the Santa Ana River between the larger cities of Santa Ana to the east and Huntington Beach to the west lies Fountain Valley named for its abundance of natural artesian wells and once swamp covered landscapes Formerly a portion of the Rancho Las Bolsas land grant of the late 1700s the area once called Gospel Swamp and later Talbert was known for cattle grazing agricultural productivity and game hunting as well as for fiery tent revival sermons delivered by itinerant preachers As agrarian lands became subdivisions in the 1950s the farmers and ranchers saw the writing on the wall for future development In 1957 Fountain Valley incorporated becoming the 21st city in Orange County and the county's first master planned community In a half century Fountain Valley has earned recognition nationally and internationally as a forward looking city Orange Coast Magazine, 2007-09 Orange Coast Magazine is the oldest continuously published lifestyle magazine in the region bringing together Orange County's most affluent coastal communities through smart fun and timely editorial content as well as compelling photographs and design Each issue features an award winning blend of celebrity and newsmaker profiles service journalism and authoritative articles on dining fashion home design and travel As Orange County's only paid subscription lifestyle magazine with circulation figures guaranteed by the Audit Bureau of Circulation Orange Coast is the definitive guidebook into the county's luxe lifestyle

**History of Orange County, California** Samuel Armor, 1921 *Munsey's Weekly*, 1925 **Beasts of the Field** Richard Steven Street, 2004 Written by one of America's preeminent labor historians this book is the definitive account of one of the most spectacular captivating complex and strangely neglected stories in Western history the emergence of migratory farmworkers and the development of California agriculture Street has systematically worked his way through a mountain of archival materials more than 500 manuscript collections scattered in 22 states including Spain and Mexico to follow the farmworker story from its beginnings on Spanish missions into the second decade of the twentieth century The result is a comprehensive tour de force Scene by scene the epic narrative clarifies and breathes new life into a controversial and instructive saga long surrounded by myth conjecture and scholarly neglect With its panoramic view spanning 144 years and moving from the US Mexico border to Oregon *Beasts of the Field* reveals diverse patterns of life and labor in the fields that varied among different crops regions time periods and racial and ethnic groups Enormous in scope packed with surprising twists and turns and devastating in impact this compelling revelatory work of American social history will inform generations to come of the history of California and the nation Munsey's Magazine, 1924 *A People's Guide to Orange County* Elaine Lewinnek, Gustavo Arellano, Thuy Vo Dang, 2022-01-25 At first encounter Orange County can resemble the incoherent sprawl that geographer James Howard Kunstler named *The Geography of Nowhere* a car dependent seemingly bland space designed most of all for efficient capitalist consumption But it is somewhere too and learning its stories helps it become more than its boosters slogans Writers Lisa Alvarez and Andrew Tonkovich residents of Orange County's remote Modjeska Canyon

describe this whole county as a much constructed and contrived locale a pestered and paved landscape built and borne upon stories of human development of destruction as well as happily of enduring wild places In a similar vein essayist D J Waldie chronicler of the bordering suburb of Lakewood asserts that becoming Californian means locating yourself in habitats of memory that connect ordinary local areas with broader themes Moving beyond sentimentality nostalgia and so many sales pitches that omit far too much Waldie echoes Michel de Certeau's call to awaken the stories that sleep in the streets That is the goal of this book Inspired by Laura Pulido Laura Barraclough and Wendy Cheng's *A People's Guide to Los Angeles* University of California Press 2012 as well as the *People's Guides* to Boston and San Francisco that have followed it we offer this guidebook for locals tourists students and everyone who wants to understand where they really are This book is organized with regional chapters sorted roughly north to south by community Within each city sites are listed alphabetically After the group of entries for each city we recommend nearby restaurants as well as other sites of interest for visitors Readers may explore this book geographically or use the thematic tours in the appendix to consider environmental politics Cold War legacies the politics of housing LGBTQ spaces or Orange County's carceral state The appendix also contains suggestions for teachers using this book engaging students in cognitive mapping close reading popular culture analysis and creating additional entries of people's history While many local histories tend to focus on a few white settlers this book places attention on the people especially the subaltern ones who are hierarchically under others including workers people of color youth and LGBTQ individuals No single book can represent an entire county so we have chosen to concentrate on the lesser known power struggles that have happened here and influenced the landscape that we all share We could not include everyone of course We are mindful that other groups are currently creating more people's history on this landscape that we hope our readers will continue to explore In Orange County excavating the diverse past can be frowned upon or actively repressed by those invested in selling Orange County in the style of its booster Anglo settlers from 150 years ago This book tells the diverse political history beyond the bucolic imagery of orange crate labels We hope it will inspire readers to further explore Orange County and reflect on even more sites that could be included in the ordinary extraordinary landscape here

**Six Collegiate Decades** Security-First National Bank, Los Angeles, Security-First National Bank of Los Angeles, 1929 Survey of universities and colleges art institutions scientific institutions etc in Southern California Well illustrated Many portraits

**Deep California** Craig Chalquist, 2008-06 California has been invaded by three imperial powers Spain Mexico and the United States Deep California examines in depth the lingering psychological traumas and motifs emanating from that long history of conquest These unhealed events have not been left in the past they recur symbolically again and again growing in intensity as the overbuilt land and its distracted occupiers unconsciously but definitively demonstrate that environmental justice and social justice can no longer be thought of as separate Pacing crusaders and colonizers from county to county along El Camino Real Deep California studies the lingering impact of continuous oppression of people and places as

images and themes of displacement and exile filter down into architecture agriculture politics art culture psychology and even folklore and dream Yet within the shadows cast over California also dwell resistance humor irony tragedy and hope for more heartfelt and soulful connections to this story rich land of the sundown sea History is an inadequate term for such a sweeping and deep discovery of how the past informs the present This work deserves to be read widely by all Californians and Americans and taken to heart and the hard lessons applied to all places we inhabit on this stolen land Lesley Thomas author of *Flight of the Goose* Far Eastern Press 2005 A monumental and much needed study in depth of the conquest occupation traumatization and animation of the mission cities and counties of coastal California places which have worked their way into our unsuspecting psyches Linda Buzzell MA MFT co editor of *Ecotherapy Healing with Nature in Mind* Sierra Club Books 2009     Addresses: 1965 California. Department of Water Resources,1956 A collection of addresses and essays produced over an eighteen year period by the California Department of Water Resources     **The Pacific Tourist** Frederick E. Shearer,1881     The Sunny South Oölogist Edwin C. Davis,1886     **The Condor** ,1900     **The Oölogist** ,1884

*Orange County Pioneers* Charles Epting,2014-11-18 Orange County s pioneer history is filled with harrowing tales every bit as entertaining as a western novel These stories culled from oral histories recorded by old timers in the 1930s as part of the Works Progress Administration offer a rarely seen look into Orange County s frontier days From bear hunts and bullfights to social gatherings at the home of the most famous Shakespearean actress of the day these tales are a window into the earliest days of every corner of the county Join editor Charles Epting for these wonderfully evocative portraits of the past recounted in the words of the eyewitnesses     **California Gold Camps** Erwin G. Gudde,2009-04 Many books have been written about the California Gold Rush but a geographical historical dictionary has long been lacking With the publication of *California Gold Camps* a monumental project has been completed *California Gold Camps* is a basic reference that will be indispensable to the historian the geographer and to the general reader interested in California s colorful past     **True Latter-Day Saints' Herald** ,1910 The family magazine of the Reorganized Church of Jesus Christ of Latter Day Saints

*Old Orange County Courthouse* Phil Brigandi,2001 An Illustrated history of the Old Orange County Courthouse in Orange County California with histories of the local companies     **Stories of the Foot-hills** Margaret Collier Graham,1895     The Contest for California in 1861 Elijah Robinson Kennedy,1912
