**Speaking of God in an Inhumane World, Volume 1** Christopher Rowland,2024-02-28 This two volume collection of essays on the Bible and social justice liberation theology and radical Christianity by Christopher Rowland addresses the question raised by Gustavo Gutierrez about how we can speak of God as a loving parent in a world that continues to be so inhumane These essays by an esteemed New Testament scholar represent intellectual interests of a lifetime as he integrated exegesis of the New Testament texts in their first century contexts and located their interpretations within the quests for meaning and significance that exist within contemporary society These essays represent mostly the latter concern exploring Christian Scripture which has informed the lives of men and women down the centuries as they interpret both contexts and in doing so make a significant contribution to contextual theology that should be heard by the inhabitants of both contexts The first volume of Speaking of God in an Inhumane World includes essays on liberation theology and radical Christianity the second volume focuses primarily on radical Christianity and includes reflections on Gerrard Winstanley William Blake William Stringfellow and others

Transforming Mission: Paradigm Shifts in Theology of Mission David J. Bosch,2011 David Bosch s Transforming Mission now available in over a dozen languages is widely recognized as an historic and magisterial contribution to the study of mission Examining the entire sweep of Christian tradition he shows how five paradigms have historically encapsulated the Christian understanding of mission and then outlines the characteristics of an emerging postmodern paradigm dialectically linking the transcendent and imminent dimensions of salvation In this new anniversary edition Darrel Guder and Martin Reppenhagen explore the impact of Bosch s work and the unfolding application of his seminal vision

**Romans: Three Exegetical Interpretations and the History of Reception** Daniel Patte,2018-07-26 In the first of a three volume work Daniel Patte presents three very different critical exegeses of Romans 1 arguing that all are equally legitimate and hermeneutically plausible By expanding upon and respecting the exegeses of many erudite scholars of the last two centuries Patte concludes that three families of vastly different critical interpretations are fully justified traditional philological and epistolary studies rhetorical and sociocultural studies and figurative studies of the coherence of Paul s teaching Arising from a long standing interdisciplinary investigation of many receptions of Romans in light of recent diversification of exegetical methodologies Patte concludes that the interpretation of a scriptural text necessarily involves making a choice among equally legitimate and plausible alternatives and second that this choice is always contextual and ethical When these points are denied by failing to respect the

interpretations of others and absolutizing one's interpretation instead of being a scriptural blessing Romans becomes a deadly weapon against others heretics Jews Shoah and many others The result is a threefold commentary of Romans 1 that is unique in its scope and thorough going exegesis

**With God on Our Side** Anna Peterson, 2024-09-23 Religion plays a central role in a variety of social movements including many that are not explicitly faith based This book provides the first systematic analysis of the ways religion contributes to diverse movements for social change It draws on a variety of case studies from the US and globally to build an argument about religion's distinctive capacity to provide logistical support to inspire and legitimize activist practices to connect different spatial scales and to link big ideas to everyday experiences The book's analysis rests on three foundational arguments First and most fundamentally it is impossible to understand movements for social change without analyzing the multiple ways that religion shapes their ideas communities and practices Second religion is always in mutually transformative interaction with social and political forces and can never be entirely separated from them In social movements and in the public sphere more generally people interpret politics with values and concepts drawn from religion and understand their activism as spiritually meaningful This challenges the assumption that religion is a largely a private matter Third scholars must treat religion as a relatively independent variable which actively shapes social processes just as it is shaped by them We cannot make sense of religion's role in social movements without acknowledging that religious institutions and traditions have to some extent a life of their own

**The Revelation of God And/as Human Reception** Dan Otto Via, 1997-10-01 A resourceful and thorough study of an important issue in New Testament and systematic theology this book is one that takes human action and reception into full account Where does God's revelation reside in the event or in the interpretation If history is about the creation of meaning what does it mean to say that God reveals God's self in history Dan Via addresses these and related issues in this original volume

**Reading the Parables** Richard Lischer, 2014-01-01 Parables make up one third of Jesus' speech in the New Testament In this volume Richard Lischer provides an expert guide to these parables and proposes an important distinction between reading and interpreting the parables Emphasizing the importance of reading the parables versus interpreting them Lischer asserts that reading offers a kind of breathing space to

explore historical literary theological and socio political dimensions of the parables and their various meanings whereas interpreting implies an expert and critical position that must be defended In this volume Lischer lays out four theories for reading parables 1 parables obscure truth 2 parables teach many truths 3 parables teach one truth and 4 parables undermine the truth Ultimately he concludes that biblical parables undermine dominant myths called the truth to shine light on the Truth that is Jesus God s presence with us      *Unexpected News* Robert McAfee Brown,1984-01-01 Describes the ways that Asian African and South American Christians interpret the Bible especially the story of Jesus life      **Liberating Exegesis** Christopher Rowland,Mark Corner,1989-01-01 This important book provides a sampling of liberation theology s use of biblical texts relating it to the standard methods of interpretation in Europe and America Divided into four sections the book sets out contemporary readings of the parable of Jesus influenced by a liberationist perspective identifies the biblical and theoretical foundations of liberation theology comparing them with the dominant exegetical paradigm in the first world explores the way in which liberation exegesis affects reading the canonical accounts of Jesus and argues that liberation theology cannot be seen solely as a third world phenomenon      Feminism & Christianity Denise Lardner Carmody,1991 Seeking to uncover the places where feminism and Christianity taken as deep spiritual paths converge the author shows that theism adds a dimension to life that the feminist movement needs Conversely she points out that Christianity can benefit from some of the messages that feminists are projecting She focuses on the dimensions of divinity theology self psychology society sociology and nature ecology Her balanced perspective should appeal to both feminists and Christians of both sexes Originally published in 1982 by Abingdon Press      *The Gospel in Art by the Peasants of Solentiname* Philip J. *The Decline and Fall of the Lettered City* Jean FRANCO,Jean Franco,2009-06-30 The cultural Cold War in Latin America was waged as a war of values artistic freedom versus communitarianism Western values versus national cultures the autonomy of art versus a commitment to liberation struggles and at a time when the prestige of literature had never been higher The projects of the historic avant garde were revitalized by an anti capitalist ethos and envisaged as the opposite of the republican state The Decline and Fall of the Lettered City charts the conflicting universals of this period the clash between avant garde and political vanguard This was also a twilight of literature at the threshold of the great cultural revolution of the seventies and eighties a revolution to which the Cold War indirectly contributed In the eighties civil war and military rule together with the rapid development of mass culture and communication empires changed the political and cultural map A long awaited work by an eminent Latin Americanist widely read throughout the world this book will prove indispensable to anyone hoping to understand Latin American literature and society Jean Franco guides the reader across minefields of cultural debate and histories of highly polarized struggle Focusing on literary texts by Garc a Marquez Vargas Llosa Roa Bastos and Juan Carlos Onetti conducting us through this contested history with the authority of an eyewitness Franco gives us an engaging overview as involving as it is moving      **Freedom and Existence** Matthew Aaron

Tennant,2023-08-07 Is theology a dead corpse or living organism For Uruguayan Jesuit Juan Luis Segundo 1925 1996 theology is dynamic Freedom and existence for central themes Segundo believed that theology should be transformative in human lives For a theology to be transformative there must be a connection to existence That is it must be existential Yet most scholars have overlooked this assumption in critical analyses of liberation theology This prima facie connection to existence is distinguishable from existentialism as a school of philosophy By showing the significant existential dimension to Segundo s theology assessing his work and contribution to twentieth century theology relates to freedom ecumenism the role of faith in society and the relationship between faith and ideologies *Hermeneutics* Anthony C. Thiselton,2009-10-09 Here Anthony Thiselton brings together his encyclopedic knowledge of hermeneutics and his nearly four decades of teaching on the subject to provide an ideal textbook which takes the reader through the time honoured interpretation techniques of the past and on to modern times The Didache Aaron Milavec,2003 In this study Aaron Milavec comprehensively examines how the first century pastoral manual known as the Didache enumerated the step by step training of converts for the full active participation in the earliest Jewish Christian communities Milavec shows how the Didache can in turn illuminate our understanding of how these first Christian men and women organized their community life socially religiously and politically in order to safeguard its members from the challenges of the surrounding Roman pagan society of the first century Mediterranean basin He argues not only that the Didache s textual and contextual clues demonstrate the document s organic unity from beginning to end but also that it dates from a period before the gospels were written and had gained acceptance BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Bonded in Christ's Love** Denise Lardner Carmody,John Carmody,1986 An introduction to the theology of the Church that explores what it means to be a member of the Church today through a survey of biblical and historical background and a look at a constructive contemporary model *Hearing the New Testament* Joel B. Green,1995 Exciting approaches to biblical interpretation are introduced in this volume by contributors who are distinguished as leaders in the field of New Testament studies Each chapter introduces a particular approach to interpretation and demonstrates with biblical texts how that approach can be used by students and pastors **Dreams of Peace and Freedom** Jay Winter,2008-10-01 In the wake of the monstrous projects of Hitler Stalin Mao and others in the twentieth century the idea of utopia has been discredited Yet historian Jay Winter suggests alongside the major utopians who murdered millions in their attempts to transform the world were disparate groups of people trying in their own separate ways to imagine a radically better world This original book focuses on some of the twentieth century s minor utopias whose stories overshadowed by the horrors of the Holocaust and the Gulag suggest that the future need not be as catastrophic as the past The book is organized around six key moments when utopian ideas and projects flourished in Europe 1900 the Paris World s Fair 1919 the Paris Peace Conference 1937 the Paris exhibition celebrating science and light 1948 the Universal Declaration of Human Rights 1968 moral indictments and student revolt and

1992 the emergence of visions of global citizenship Winter considers the dreamers and the nature of their dreams as well as their connections to one another and to the history of utopian thought By restoring minor utopias to their rightful place in the recent past Winter fills an important gap in the history of social thought and action in the twentieth century
