Loren Ruth Lerner, Mary F. Williamson, 1991-01-01 Identifies and summarizes thousands of books article exhibition catalogues government publications and theses published in many countries and in several languages from the early nineteenth century to 1981 **Glory of Ottawa** Carolyn A. Young, 1995-05-19 The competition to design and construct the government buildings in Ottawa the new national capital was one of the most important architectural events in nineteenth century British North America and the finished buildings inspired a major movement in Canadian federal architecture The Glory of Ottawa focuses on the 1859 design competition for the parliamentary complex from which these unrivalled buildings emerged Young includes an investigation of the architectural climate in which the parliament buildings were conceived providing insight into the practice of architecture in pre Confederation Canada The aftermath of the contest is also explored including changes to the plans the problem of costs the critical reception of the buildings and their place in the aesthetics of the time **Architecture in Transition** Kelly Crossman, 1987 The world of Canadian architecture was transformed during the years before 1900 New technologies such as the steel frame changed the way buildings were constructed new styles such as the Richardsonian Romanesque changed the way buildings looked and the development of the Canadian economy meant that new types of buildings were required Many of the public buildings banks houses hotels department stores and factories constructed during these years determined the character of Canadian cities for the next half century *Montreal, City of Spires* Clarence Epstein, 2012-03-19 T00:00:00-04:00 Of the fifty religious buildings discussed in this book only a precious few remain standing despite the fact that Montreal boasts one of the largest and most eclectic groupings of Georgian and Victorian structures of any city in North America Following the British conquest of New France in 1759 a remarkable series of transformations took place in the small Catholic trading town of Montreal Given the diversity of settlers forced to live side by side the new church buildings that were to rise became strategic public spaces meeting places as well as power bases It was no wonder that by the time Mark Twain toured Canada s first metropolis in the 1880s he found that one could not throw a brick in the place without breaking a church window By addressing the social religious and architectural issues surrounding these colonial era structures it will become apparent that Montreal was at once a shining jewel in England s imperial crown a chief outpost of Catholicism in the New World as well as the British North American headquarters for more than a dozen independent congregations History of Canadian Architecture Harold Kalman, 1994 *Vernacular architecture in the Codroy Valley* Richard MacKinnon, 2002-01-01 This book relates the story of a small Newfoundland community as told through its buildings From the addition of a kitchen to the construction of a new house the way people build and change their homes says a great deal about their histories and daily lives and the author s insights on the stories told in the architecture of the Codroy Valley are sure to encourage readers to look at their own communities in a new way
