Good Neighbours:

Mitchum, Mexico and the Good Neighbours Era Liam White, 2014-02-12 Robert Mitchum was one of the most charismatic stars of the classic Hollywood era. His screen persona was the essence of cool, tough but vulnerable, accepting of his fate with languid charm and easy humour. His films have often been seen through the lens of film noir but they had something else in common too: the characters he played in *Out of the Past*, *The Big Steal*, *His Kind of Woman*, *Second Chance*, *Where Danger Lives* and *Angel Face* seemed irrevocably drawn to Mexico. Mitchum's sequence of films south of the border coincided with the advent of the golden age of Mexico's own film industry, a new cinematic wave that drew on serious artistic influences from the muralists to Sergei Eisenstein and that was led by director Emilio Fernández and cinematographer Gabriel Figueroa, whose 1943 film *Mar a Candelaria* starring former Hollywood siren Dolores del Río had won a prize at Cannes. Under the Roosevelt administration's Good Neighbour policy, a wartime effort to court friendly Latin American countries, Hollywood's portrayal of Mexico changed outwent the all-purpose exoticism where south of the border was a metaphor for the loosening of moral and sexual standards and in came a more nuanced approach. In this authoritative study, Liam White encourages us to take a fresh look at how Mitchum's films broke with Hollywood convention in the way they depicted Mexico, how Mexico's own film industry boomed, becoming the first example of world cinema to have an impact on the post-War world, and how its success attracted significant US talent from John Steinbeck to John Ford to work on bi-national projects.

The Dismantling of the Good Neighbor Policy Bryce Wood, 2010-07-22 The Good Neighbor Policy was unique: a great power obligated itself not to use force in its dealings with twenty smaller powers and not to interfere in their domestic politics. It was a policy that lasted, with some perturbations, for twenty years, instituted by President Roosevelt in 1933 and carried out effectively from 1933 to 1943 by word and action, maintained during the Second World War largely as a result of British concern for continuance of Argentine beef exports, codified in the Charter of the Organization of American States in 1948 and reasserted by Truman and Acheson in 1950-51; it was covertly repudiated in Guatemala in 1954 by Eisenhower and the Dulles brothers and not so secretly by Kennedy in the disastrous Bay of Pigs invasion of 1961. Openly shattered in the Dominican Republic by Johnson in 1965, it has since been completely abandoned in favor of the usual relationships between large and small powers. Working with documents from the Public Records Office in London and the National Archives, with recently released materials from the US Department of State and with secondary sources, Bryce Wood describes the temptations laid before the leaders of one powerful state by its occasionally recalcitrant neighbors and the ways of reacting that were found. Having told half the story in his *The Making of the Good Neighbor Policy*, Wood now concludes it in the present volume. One of the chief casualties is shown to be the Organization of American States, which since 1954 has found itself badly crippled in its work to promote harmony and continued cooperation among the member states.

Lopez Mateos 1958-1964 leveraged Mexico's historical ties with the United States while harnessing the left's passionate calls for solidarity with developing nations in a bold attempt to alter the course of global politics. During this period, Mexico forged relationships with the Soviet Bloc, took positions at odds with US interests, and entered the scene of Third World internationalism. Drawing on archival research from Mexico, the United States, and Britain, Zolov gives a broad perspective on the multitudinous transnational forces that shaped Mexican political culture in ways that challenge standard histories of the period. *the girlfriend boyfriend relationship part 2* IslamKotob, *The Good Neighbor* Mary E. Stuckey, 2013-11-01. No modern president has had as much influence on American national politics as Franklin D. Roosevelt. During FDR's administration, power shifted from states and localities to the federal government; within the federal government, it shifted from Congress to the president, and internationally, it moved from Europe to the United States. All of these changes required significant effort on the part of the president, who triumphed over fierce opposition and succeeded in remaking the American political system in ways that continue to shape our politics today. Using the metaphor of the good neighbor, Mary E. Stuckey examines the persuasive work that took place to authorize these changes. Through the metaphor, FDR's administration can be better understood: his emphasis on communal values, the importance of national mobilization in domestic as well as foreign affairs in defense of those values, his use of what he considered a particularly democratic approach to public communication, his treatment of friends and his delineation of enemies, and finally the ways in which he used this rhetoric to broaden his neighborhood from the limits of the United States to encompass the entire world, laying the groundwork for American ideological dominance in the post-World War II era. *Familiar Fields* Peter McArthur, 2022-08-01. For ethnic minorities in Britain, broadcast TV provides powerful representations of national and western culture. In Southall, which has the largest population of South Asians outside the Indian subcontinent, the VCR furnishes Hindi films, sacred soaps such as the Mahabharata, and family videos of rites of passage as well as mainstream American films. *Television, Ethnicity and Cultural Change* examines how TV and video are being used to recreate cultural traditions within the South Asian diaspora and how they are also catalysing cultural change in this local community. Marie Gillespie explores how young people negotiate between the parental and peer, local and global, national and international contexts and cultures which traverse their lives. Articulating their own preoccupations with television narratives, they both reaffirm and challenge parental traditions, formulating their own aspirations towards cultural change. Marie Gillespie's in-depth study offers an invaluable survey of how cultures are shaped and changed through people's recreative reception of the media. EBOOK:
