The Good News of Our Limits Sean McGeever,2022-02-08 Become More Effective by Embracing Your Inability Many of us are tired stressed and overworked We think that following God will bring peace but instead find ourselves anxious We expect a life of joy but end up feeling stressed living under the heavy load of new expectations It s a spiritual and emotional rollercoaster We search for solutions using optimization techniques attempting to fit more and more into our already full days We try to craft efficiently maximized lives but these methods always fail not because they are ill intentioned but because they do not go far enough They fail to understand how God made us as people with inherent limitations and they fail to accept that as good In The Good News of Our Limits professor and longtime ministry leader Sean McGeever reveals the wonderful news that we cannot do be or know all of the things that others expect of us and that we often expect from ourselves Nor should we As it turns out these expectations are not God s expectations The freeing truth is that God created us with limitations and he did it for a reason God is the only all powerful all present and all knowing person and we are not We can only know and do some things and we can only be in one place at a time And that is enough Accepting this truth frees us to find greater peace and joy and somewhat surprisingly greater effectiveness in life The Good News of Our Limits helps readers answer questions like What are our God given human limits How do I find peace when I can t control the circumstances tragedies and difficulties that surround my life How do I choose what is best when my time focus and abilities are limited How many people can I realistically know personally What can I do to deepen key relationships when I feel relationally maxed out How do I navigate all the information that comes my way each day Through personal stories and fascinating cultural insights The Good News of Our Limits calls readers to embrace the blessedness of their limitations and adopt a few key practices to better balance their lives Biblical and practical it points to a better way forward for us all

they never seek out alternative treatments due to their unscientific status They dont stop to contemplate the risks associated
