Ronald Reagan and His Quest to Abolish Nuclear Weapons Paul Lettow, 2006-02-14 In Ronald Reagan and His Quest to Abolish Nuclear Weapons Paul Lettow explores the depth and sophistication of President Ronald Reagan's commitment to ridding humankind permanently of the threat of nuclear war Lettow's narrative spans the

start of Reagan's presidency and the 1986 Reykjavik summit between Reagan and Soviet leader Mikhail Gorbachev during which America's Strategic Defense Initiative SDI was a defining issue Lettow reveals SDI for what it was a full on assault against nuclear weapons waged as much through policy as through ideology While cabinet members and advisers played significant roles in guiding American defense policy it was Reagan himself who presided over every element large and small of this paradigm shift in U S diplomacy Lettow conducted interviews with several former Reagan administration officials and he draws upon the vast body of declassified security documents from the Reagan presidency much of what he quotes from these documents appears publicly here for the first time The result is the first major work to apply such evidence to the study of SDI and superpower diplomacy This is a survey that doesn't merely add nuance to the existing record but revises our very understanding of the Reagan presidency

The ^ACold War Ronald E. Powaski, 1997-09-25 For half of the twentieth century the Cold War gripped the world International relations everywhere and domestic policy in scores of nations pivoted around this central point the American Soviet rivalry Even today much of the world's diplomacy grapples with chaos created by the Cold War's sudden disappearance Here indeed is a subject that defies easy understanding Now comes a definitive account a startlingly fresh clear-eyed comprehensive history of our century's longest struggle In The Cold War Ronald E. Powaski offers a new perspective on the great rivalry even as he provides a coherent concise narrative He wastes no time in challenging the reader to think of the Cold War in new ways arguing that the roots of the conflict are centuries old going back to Czarist Russia and to the very infancy of the American nation He shows that both Russia and America were expansionist nations with messianic complexes and the people of both nations believed they possessed a unique mission in history Except for a brief interval in 1917 Americans perceived the Russian government whether Czarist or Bolshevik as despotic Russians saw the United States as conspiring to prevent it from reaching its place in the sun U S military intervention in Russia's civil war with the aim of overthrowing Lenin's upstart regime entrenched Moscow's fears Soviet American relations difficult before World War II when both nations were relatively weak militarily and isolated from world affairs escalated dramatically after both nations emerged as the world's major military powers Powaski paints a portrait of the spiraling tensions with stark clarity as each new development added to the rivalry the Marshall Plan the communist coup in Czechoslovakia the Berlin blockade the formation of NATO the first Soviet nuclear test In this atmosphere Truman found it easy to believe that the Communist victory in China and the Korean War were products of Soviet expansionism He and his successors extended their own web of mutual defense treaties covert actions and military interventions across the globe from the Caribbean to the Middle East and finally to Southeast Asia where containment famously foundered in the bog of Vietnam Powaski skillfully highlights the domestic politics diplomatic maneuvers and even psychological factors as he untangles the knot that bound the two superpowers together in conflict From the nuclear arms race to the impact of U S recognition of China on detente to Brezhnev's inflexible persistence in competing with America everywhere he casts new light on familiar

topics Always judicious in his assessments Powaski gives due credit to Reagan and especially Bush in facilitating the Soviet collapse but also notes that internal economic failure not outside pressure proved decisive in the Communist failure Perhaps most important he offers a clear eyed assessment of the lasting distortions the struggle wrought upon American institutions raising questions about whether anyone really won the Cold War With clarity fairness and insight he offers the definitive account of our century s longest international rivalry **Soviet Briefing** Ben Eklof,2019-06-04 In writing this book I incurred a number of debts which I now gratefully acknowledge During a year at the Kennan Institute for Advanced Russian Studies in the Wilson Center of the Smithsonian Institution I attended many seminars and discussions on current events In one way or another the ideas information and debates that took place during my stay contributed to my opinions and shaped the direction of my research unfortunately I cannot list all the names of those from whom I benefited The Kennan Institute itself provided a stimulating and supportive environment for my work I am especially thankful to Peter Reddaway and Ted Taranovski for all they have done
