Gothic England A Survey Of National Cult:

Art in England Sara N. James, 2016-10-31 Art in England fills a void in the scholarship of both English and medieval art by offering the first single volume overview of artistic movements in Medieval and Early Renaissance England Grounded in history and using the chronology of the reign of monarchs as a structure it is contextual and comprehensive revealing unobserved threads of continuity patterns of intention and unique qualities that run through English art of the medieval millennium By placing the English movement in a European context this book brings to light many ingenious innovations that focused studies tend not to recognize and offers a fresh look at the movement as a whole The media studied include architecture and related sculpture both ecclesiastical and secular tomb monuments murals panel paintings altarpieces and portraits manuscript illuminations textiles and art by English artists and by foreign artists commissioned by English patrons

Gothic Antiquity Dale

Townshend, 2019-09-26 Gothic Antiquity History Romance and the Architectural Imagination 1760 1840 provides the first sustained scholarly account of the relationship between Gothic architecture and Gothic literature fiction poetry drama in the late eighteenth and early nineteenth centuries Although the relationship between literature and architecture is a topic that has long preoccupied scholars of the literary Gothic there remains to date no monograph length study of the intriguing and complex interactions between these two aesthetic forms Equally Gothic literature has received only the most cursory of treatments in art historical accounts of the early Gothic Revival in architecture interiors and design In addressing this gap in contemporary scholarship Gothic Antiquity seeks to situate Gothic writing in relation to the Gothic architectural theories aesthetics and practices with which it was contemporary providing closely historicized readings of a wide selection of canonical and lesser known texts and writers Correspondingly it shows how these architectural debates responded to and were to a certain extent shaped by what we have since come to identify as the literary Gothic mode In both its survivalist and revivalist forms the architecture of the Middle Ages in the long eighteenth century was always much more than a matter of style Incarnating for better or for worse the memory of a vanished Gothic age in the modern enlightened present Gothic architecture be it ruined or complete prompted imaginative reconstructions of the nation s past a notable visionary turn as the antiquary John Pinkerton put it in 1788 in which Gothic writers architects and antiquaries enthusiastically participated The volume establishes a series of dialogues between Gothic literature architectural history and the antiquarian interest in the material remains of the Gothic past and argues that these discrete yet intimately related approaches to vernacular antiquity are most fruitfully read in relation to one another **Art Index Retrospective** ,1951 *Religion in Museums*

Gretchen Buggeln, Crispin Paine, S. Brent Plate, 2017-02-23 Bringing together scholars and practitioners from North America Europe Russia and Australia this pioneering volume provides a global survey of how museums address religion and charts a course for future research and interpretation Contributors from a variety of disciplines and institutions explore the work of

museums from many perspectives including cultural studies religious studies and visual and material culture Most museums throughout the world whether art archaeology anthropology or history museums include religious objects and an increasing number are beginning to address religion as a major category of human identity With rising museum attendance and the increasingly complex role of religion in social and geopolitical realities this work of stewardship and interpretation is urgent and important Religion in Museums is divided into six sections museum buildings reception objects collecting and research interpretation of objects and exhibitions and the representation of religion in different types of museums Topics covered include repatriation conservation architectural design exhibition heritage missionary collections curation collections and display and the visitor's experience Case studies provide comprehensive coverage and range from museums devoted specifically to the diversity of religious traditions such as the State Museum of the History of Religion in St Petersburg to exhibitions centered on religion at secular museums such as Hajj Journey to the Heart of Islam at the British Museum

Medievalia Et Humanistica, 1980 **The Formation of English Gothic** Peter Draper, 2006-01-01 In this original account of architecture in England between c 1150 and c 1250 Peter Draper explores how the assimilation of new ideas from France led to an English version of Gothic architecture that was quite distinct from Gothic expression elsewhere The author considers the great cathedrals of England Canterbury Wells Salisbury Lincoln Ely York Durham and others as well as parish churches and secular buildings to examine the complex interrelations between architecture and its social and political functions Architecture was an expression of identity Draper finds and the unique Gothic that developed in England was one of a number of manifestations of an emerging sense of national identity The book inquires into such topics as the role of patrons the relationships between patrons and architects and the wide variety of factors that contributed to the process of creating a building With 250 illustrations including more than 50 in color this book offers new ways of seeing and thinking about some of England's greatest and best loved architecture **'England's darling'** Joanne Parker, 2017-10-03 During the last two decades numerous studies have been devoted to the Victorian fascination with King Arthur however the figure of King Alfred has received almost no attention For much of the nineteenth century Alfred was as important as Arthur in the British popular imagination A pervasive cult of the king developed which included the erection of at least four public statues the completion of more than twenty five paintings and the publication of over a hundred texts by authors ranging from Wordsworth to minor women writers By 1852 J A Froude could describe Alfred's life as the favourite story in English nurseries in 1901 a national holiday marked the thousandth anniversary of his death organised by a committee including Edward Burne Jones Arthur Conan Doyle and Thomas Hughes England's darling sets out to answer the questions that must arise in the face of such nineteenth century enthusiasm for a long dead king It addresses a genuine gap in the literature on Victorian medievalism in particular and cultural history in general and argues that knowledge of the cult of Alfred is crucial to understanding the Victorian cultural map The book examines the ways in which Alfred was rewritten by nineteenth

century authors and artists and asks how beliefs about the Saxon king's reign and achievements related to nineteenth century ideals about leadership law religion commerce education and the Empire The book concludes by addressing the most interesting enigma in Alfred's reception history why is the king no longer England's darling A fascinating study that will be enjoyed by scholars of history cultural history literature and art history Maps and Monsters in Medieval England Asa Mittman, 2013-09-13 This study centers on issues of marginality and monstrosity in medieval England In the middle ages geography was viewed as divinely ordered so Britain's location at the periphery of the inhabitable world caused anxiety among its inhabitants Far from the world's holy center the geographic margins were considered monstrous Medieval geography for centuries scorned as crude is now the subject of several careful studies Monsters have likewise been the subject of recent attention in the growing field of monster studies though few works situate these creatures firmly in their specific historical contexts This book sits at the crossroads of these two discourses geography and monstrosity treated separately in the established scholarship but inseparable in the minds of medieval authors and artists The College Survey of English Literature Alexander Maclaren Witherspoon, 1951 *Bestsellers: Popular Fiction since 1900* C. Bloom, 2002-07-09 This guide and reference work of all of the bestselling books authors and genres since the beginning of the 20th century provides an insight into over 100 years of publishing and reading as well as taking us on a journey into the heart of the British imagination British National Cinema Sarah Street, 2009-06-02 The eclectic nature of British cinema is explored in this examination of genres from the Ealing comedies to heritage films Viewed against the social financial and political background this is an indispensable evaluation of British cinema **The Spectator**, 1915 A weekly review of politics literature theology and art **British Builder**, 1925 **Medieval Decorative Ironwork in England** Jane Geddes, 1999 Reports of the Research Committee of the Society of Antiquaries of London AV NO 59 *A Sense of the Sacred* R. Kevin Seasoltz, 2005-04-13 There have been many histories of Christian art and architecture but none written by a theologian such as Kevin Seasoltz Following a chapter on culture as the context for theology liturgy and art Seasoltz surveys developments from the early church up through the conventional artistic styles and periods Comprehensive illuminating ecumenical Bestsellers C. Bloom, 2008-09-29 This essential guide now available in a fully updated new edition is the only available study of all bestselling books authors and genres since the start of the last century giving an unique insight into a hundred years of publishing and reading and taking us on a journey into the heart of the British imagination **Gothic England** John Harvey, 1942 **Interwar** Gavin Stamp, 2024-03-07 A FINANCIAL TIMES BOOK OF THE YEAR 2024 A Country Life Architecture Book to Read in 2025 Elegant erudite and entertaining a superbly detailed picture of an architectural era The Times A magnificent monument in itself to a fine architectural writer Simon Heffer Telegraph British architecture between the wars is most famous for the rise of modernism the flat roofs clean lines and concrete of the Isokon flats in Hampstead and the Penguin Pool at London Zoo but the reality was far more diverse As the modernists came of age and the traditionalists

began to decline there arose a rich variety of styles and tastes in Britain and across the empire a variety that reflected the restless zeitgeist of the years before the Second World War At the time of his death in 2017 Gavin Stamp one of Britain's leading architectural critics was at work on a deeply considered account of British architecture in the interwar period correcting what he saw as the skewed view of earlier historians who were unable to see past modernism Beginning with a survey of the modern movement after the armistice *Interwar* untangles the threads that link lesser known movements like the Egyptian revival with the enduring popularity of the Tudorbethan to chronicle one of Britain's most dynamic architectural periods The result is more than an architectural history it is the portrait of a changing nation As an account of the period that still shapes much of Britain's towns and cities Gavin Stamp's final work is the definitive history of British architecture between the Great War and the Blitz
