superficial knowledge of nature even while living at Walden Pond he later began to study the subject more intensely in 1849 Over the next dozen years he applied himself especially to botany and ornithology seeking to integrate knowledge into the larger patterns of life Independently deriving what today would be considered an ecological worldview Thoreau devoted the last years of his writing career to nature studies written in his own distinctive voice In this revised edition of a standard study of Thoreau and nature the author traces the origins and development of Thoreau's shift in viewpoint and his painstaking efforts thereafter

A Study of Emersonian Transcendental Educational Thought Yang Jing, 2020-06-01

Waldo Ralph Emerson 1803 1882 was a famous American writer and poet in the 19th century He was also an educational thinker who advocates reform and progress As a representative of transcendentalism he advocated the doctrine of individualism emphasizing that the power of the spirit is far more than material and that the potential of individual potential is infinite Around him gathered a group of people of insight who were determined to transform the society such as Amos Bronson Alcott 1799 1888 Margaret Fuller 1810 1850 Nathaniel Hawthorne 1804 1864 Henry David Thoreau 1817 1862 etc All of the above had once been teachers and they were deeply saddened by the rigid education system and the old fashioned education methods at the time and firmly believed that the progress and improvement of society must be based on personal education and moral self improvement They actively participated in the mainstream of educational reforms that opened people's mind innovated their ways of thinking and created a new culture with reformed educational system in New England At the same time transcendentalism has become an important part of American educational thought

Manhood and the American Renaissance David Leverenz, 2019-06-30

In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history Manhood and the American Renaissance demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast patrician artisan and entrepreneurial He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism The male writers of the American Renaissance patrician almost without exception in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential new men In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies He discerns different patterns in the works of Whitman with his artisan's background and Frederick Douglass who rose from artisan freedom to entrepreneurial

power Emphasizing the interplay of class and gender Leverenz also considers how women viewed manhood He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe A bold and imaginative work Manhood and the American Renaissance will enlighten and inspire controversy among all students of American literature nineteenth century American history and the relation of gender and literature

**The Golden Age of the Classics in America** Carl J. Richard, 2009-03-23 Richard explores the enshrinement of the classics in American antebellum culture For the first time knowledge of the classics extended beyond aristocratic males to the middle class women African Americans and frontier settlers but the Civil War led to a radical alteration of the educational system that steadily eroded their preeminence

**The New England Milton** K. P. Van Anglen, 2010-11 The New England Milton concentrates on the poet's place in the writings of the Unitarians and the Transcendentalists especially Emerson Thoreau William Ellery Channing Jones Very Margaret Fuller and Theodore Parker and demonstrates that his reception by both groups was a function of their response as members of the New England elite to older and broader sociopolitical tensions in Yankee culture as it underwent the process of modernization For Milton and his writings particularly Paradise Lost were themselves early manifestations of the continuing crisis of authority that later afflicted the dominant class and professions in Boston and so the Unitarian Milton like the Milton of Emerson's lectures or Thoreau's Walden quite naturally became the vehicle for literary attempts by these authors to resolve the ideological contradictions they had inherited from the Puritan past

*Thoreau's Living Ethics* Philip Cafaro, 2006 Thoreau's Living Ethics is the first full rigorous account of Henry Thoreau's ethical philosophy Focused on Walden but ranging widely across his writings the study situates Thoreau within a long tradition of ethical thinking in the West from the ancients to the Romantics and on to the present day Philip Cafaro shows Thoreau grappling with important ethical questions that agitated his own society and discusses his value for those seeking to understand contemporary ethical issues Cafaro's particular interest is in Thoreau's treatment of virtue ethics the branch of ethics centered on personal and social flourishing Ranging across the central elements of Thoreau's philosophy life virtue economy solitude and society nature and politics Cafaro shows Thoreau developing a comprehensive virtue ethics less based in ancient philosophy than many recent efforts and more grounded in modern life and experience He presents Thoreau's evolutionary experimental ethics as superior to the more static foundational efforts of current virtue ethicists Another main

focus is Thoreau's environmental ethics. The book shows Thoreau not only anticipating recent arguments for wild nature's intrinsic value but also demonstrating how a personal connection to nature furthers self-development, moral character, knowledge, and creativity. Thoreau's life and writings argue that a positive life-affirming environmental ethics combines respect and restraint with an appreciation for human possibilities for flourishing within nature. *Ecological Restoration and the U.S. Nature and Environmental Writing Tradition* Laura Smith, 2022-01-12. This book presents a critical history of the intersections between American environmental literature and ecological restoration policy and practice. Through a storying, restorying, restoring framework, this book explores how entanglements between writers and places have produced literary interventions in restoration politics. The book considers the ways literary landscapes are politicized by writers themselves and by conservationists, activists, policymakers, and others in defense of U.S. public lands and the idea of wilderness. The book profiles five environmental writers and examines how their writings on nature, wilderness, conservation, preservation, and restoration have variously inspired and been translated into ecological restoration programs and campaigns by environmental organizations. The featured authors are Henry David Thoreau (1817-1862) at Walden Pond; John Muir (1838-1914) in Yosemite National Park; Aldo Leopold (1887-1948) at his family's Wisconsin sand farm; Marjory Stoneman Douglas (1890-1998) in the Everglades; and Edward Abbey (1927-1989) in Glen Canyon. This book combines environmental history, literature, biography, philosophy, and politics in a commentary on considering and developing environmental literature's place in conversations on restoration, ecology, ecological restoration, and rewilding.

**American Literature Before 1880** Robert Lawson-Peebles, 2003-11-13. *American Literature Before 1880* attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastward. In between, the book examines the projection of images of the East onto an as yet unrecognised West; the cultural consequences of Viking, Colombian, and then English migration to America; the growth and independence of the British American colonies; the key writers of the new Republic; and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature.
