The Rhetoricity of Philosophy
 Blake D. Scott, 2024-08-02 This book aims to recast the way that philosophers understand rhetoric Rather than follow most philosophers in conceiving rhetoric as a specific way of speaking or writing it shows that rhetoric is better understood as a dimension of all human discourse and action what the author calls rhetoricity This book provides the first philosophical treatment of rhetoricity It is motivated by two ongoing developments The first is the debate between Alain Badiou and Barbara Cassin about philosophy's relation to rhetoric Both Badiou and Cassin are critical of rhetoric albeit for different reasons Second there has been a growing resurgence of interest in rhetoric considering the recent rise in authoritarian politics as well as new forms of propaganda driven by persuasive technologies This book identifies the common target of Badiou's and Cassin's otherwise incompatible critiques rhetoric's conception of audience It offers a fresh take on the new rhetoric project of Chaim Perelman and Lucie Olbrechts Tyteca putting their work into conversation with the Badiou Cassin debate The book then turns to the hermeneutic philosophy of Paul Ricoeur in search of an expanded conception of audience It shows that Ricoeur's hermeneutic philosophy allows us to extend Perelman and Olbrechts Tyteca's psychological notion of audience to texts themselves and to argue that human beings have a rhetorical capacity to reflect on audiences in search of what is potentially persuasive The *Rhetoricity of Philosophy* will be of interest to scholars and advanced students working in contemporary European philosophy rhetoric argumentation studies and social theory

The book examines the war of images between France and Algeria Discussing the role of the United States during the war it covers topics such the presence of American reporters in Algeria John F Kennedy s support for Algerian independence while a senator the broadcasting of documentaries on the Algerian war on public television and reporting in the press Even half a century after Algerian independence there remains a need for both film and literature on the war from both sides of the Mediterranean This might seem surprising particularly to media professionals given the quantity of output on the subject but both French and Algerian portrayals of the war remain flawed and shackled to their respective ideologies The generation of FLN leaders recognized early on the importance of images and established a clandestine film structure that would bring the Algerian cause to the world stage The book offers an insightful and timely contribution not just to the field of North African studies but also to other disciplines such as film and media studies anthropology history journalism and political science Providing a rich source of research topics and viable ideas for film and documentary projects it is a must read for students scholars and media professionals alike
