Empire Unpossessed An Essay On Gibbons Decline And Fall:

The Empire Unpossessed Lionel Gossman, 2008-12-11 One of a small number of historical texts that have become classics Gibbon's *Decline and Fall of the Roman Empire* demands and deserves the kind of attention readers habitually grant to the classics of fictional literature In Lionel Gossman's thematic and rhetorical study of Gibbon's masterpiece the foundation of authority is seen as the historian's chief concern The central problem of the work the foundation of political authority also appears in another form Gossman contends as a central problem of the work that of the authority of the historical text itself

The Empire Unpossessed Lionel Gossman, 1891 *The History of the Decline and Fall of the Roman Empire* Edward Gibbon, 1998 Published between 1776 and 1788 this text is acknowledged as a masterpiece of English historical writing Covering the history of Europe from the 2nd century AD to the fall of Constantinople in 1453 this edition includes footnotes explanatory comments and a precis of the chapters not included **Narratives of Enlightenment** Karen

O'Brien, 1997-06-05 *Narratives of Enlightenment* is an interdisciplinary study of cosmopolitan approaches to the past It reappraises the work of five of the most important narrative historians of the century Voltaire David Hume William Robertson Edward Gibbon and the historian of the American Revolution David Ramsay in the context of political and national debates in France Scotland England and America and it investigates the nature and degree of their intellectual investment in the idea of a common European civilisation Karen O'Brien combines the methodologies of literary criticism and intellectual history to explore debates about Enlightenments and the political uses of narrative Where previous studies have emphasised the growth of nationalism in eighteenth century literature she reveals the development of cosmopolitan ways of thinking beyond national cultural issues *The Study of History*, 2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians' views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided

The Modern Cultural Myth of the Decline and Fall of the Roman Empire Jonathan Theodore, 2016-08-13 This book investigates the decline and fall of Rome as perceived and imagined in aspects of British and American culture and thought from the late nineteenth through the early twenty first centuries It explores the ways in which writers filmmakers and the media have conceptualized this process and the parallels they have drawn deliberately or unconsciously to their contemporary world Jonathan Theodore argues that the decline and fall of Rome is no straightforward historical fact but a myth in terms coined by Claude Lévi-Strauss meaning not a falsehood but a complex social and ideological construct Instead it represents the fears of European and American thinkers as they confront the perceived instability and pitfalls of the

civilization to which they belonged The material gathered in this book illustrates the value of this idea as a spatiotemporal concept rather than a historical event a narrative with its own unique moral purpose **Edward Gibbon and Empire**

Rosamond McKitterick, Roland Quinault, 2002-07-18 This book examines Gibbon's interpretations of empire and the intellectual context in which he formulated them against a background of the eighteenth and late twentieth century knowledge of late antiquity and the Middle Ages Gibbon's ideas of empire his understanding of monarchy and the balance of power his sources and working methods the structure of the *History of the Decline and Fall of the Roman Empire* his attitude towards the barbarians the contrasting treatments of the eastern and western Empire his appreciation of past civilizations and their material remains his audience and their reactions contemporary and Victorian are considered in the light of the latest research on eighteenth century intellectual history on the one hand and on late antiquity Byzantium and the Middle Ages on the other The book breaks new ground in taking the form of a dialogue between experts on the fields about which Gibbon himself wrote and eighteenth century intellectual historians [Encyclopedia of Early Christianity](#) Everett

Ferguson, 2013-10-08 First published in 1997 What's new in the Second Edition Some 250 new entries twenty five percent more than in the first edition plus twenty five new expert contributors Bibliographies are greatly expanded and updated throughout More focus on biblical books and philosophical schools their influence on early Christianity and their use by patristic writers More information about the Jewish and pagan environment of early Christianity Greatly enlarged coverage of the eastern expansion of the faith throughout Asia including persons and literature More extensive treatment of saints monasticism worship practices and modern scholars Greater emphasis on social history and more theme articles More illustrations maps and plans Additional articles on geographical regions Expanded chronological table Also includes maps

Kinaesthesia and Classical Antiquity 1750-1820 Helen Slaney, 2020-09-03 This book argues that touch and movement played a significant role long overlooked in generating perceptions of ancient material culture in the late 18th century At this time the reception of classical antiquity had been transformed Interactions with material culture ruins sculpture and artefacts formed the core of this transformation Some such interactions were proto archaeological such as the Dilettanti expeditions to Athens and Asia Minor others were touristic seen in the guidebooks consulted by travellers to Rome and the diaries they composed and others creative resulting in novels poetry and dance performances Some involved the reproduction of experience in a gallery or museum setting What all encounters with ancient material culture had in common however is their haptic sensory basis The sense typically associated with the Enlightenment is vision but this has obscured the equally important contribution made by touch and movement to the way in which a newly materialised Graeco Roman world was perceived Kinaesthesia or the sense of self movement is rarely recognised in its own right but because all encounters with sites and objects are embodied and all embodiment takes place in motion this sense is vital to forming more abstract or imaginative impressions Theories of embodied cognition propose that all intellectual processes are also physical

This book shows how ideas about classical antiquity in the volatile milieu of the late 18th century developed as a result of diverse kinaesthetic relationships

The Fall of the Roman Empire Martin M. Winkler, 2009-04-20 The essays collected in this book present the first comprehensive appreciation of The Fall of the Roman Empire from historical historiographical and cinematic perspectives The book also provides the principal classical sources on the period It is a companion to Gladiator Film and History Blackwell 2004 and Spartacus Film and History Blackwell 2007 and completes a triad of scholarly studies on Hollywood's greatest films about Roman history A critical re-evaluation of the 1964 epic film The Fall of the Roman Empire directed by Anthony Mann from historical film historical and contemporary points of view Presents a collection of scholarly essays and classical sources on the period of Roman history that ancient and modern historians have considered to be the turning point toward the eventual fall of Rome Contains a short essay by director Anthony Mann Includes a map of the Roman Empire and film stills as well as translations of the principal ancient sources an extensive bibliography and a chronology of events

Edward Gibbon and the Shape of History Charlotte Roberts, 2014 Edward Gibbon and the Shape of History offers a detailed examination of Edward Gibbon's History of the Decline and Fall of the Roman Empire as a work of scholarship and of literature

The Cambridge Companion to Edward Gibbon Karen O'Brien, Brian Young, 2018-06-21 Edward Gibbon's History of the Decline and Fall of the Roman Empire published in three instalments from 1776 to 1788 is widely regarded as the greatest work of history in the English language Starting with the accession of the Roman Emperor Commodus in the late second century CE Gibbon's work traverses thirteen centuries encompassing the rise of Christianity and of Islam the collapse of the Roman Empire in the West and the fall of the Byzantine Empire in 1453 This Companion provides a comprehensive overview of the intellectual roots contemporary European contexts literary style and thematic scale of Gibbon's achievement Alongside the History it gives an introduction to Gibbon's other works including the Memoirs he left unfinished at his death and previously unpublished material Leading international scholars in the fields of classics geography history and literature provide a comprehensive account of Gibbon's monumental account of decline fall and global historical transformation

The Undivided Past David Cannadine, 2013-03-19 An impassioned controversial plea for us to recognise the importance of writing history from world famous historian David Cannadine David Cannadine is one of Britain's most distinguished historians and this is his masterpiece The Undivided Past is an agonised attempt to understand how so much of the writing of history has been driven by a fatal desire to dramatize differences to create an us versus them Great works of history have so often had at their heart a wish to sift people in ways that have been profoundly damaging and provided the intellectual backing and justification for terrible political decisions Again and again categories have been found whether religion nation class gender race or civilization that have sought to explain world events by fabricating some malevolent or helpless other This book is above all an appeal to common humanity We seem doomed always to fall most recently in the wake of 9/11 into the us versus them trap but there is no reason why the history we read and write should not

be much better than this and describe what we all have in common rather than what divides us About the author Sir David Cannadine is Chair of the National Portrait Gallery Dodge Professor of History at Princeton University and General Editor of the Penguin History of Europe and Penguin History of Britain He is a Fellow of the British Academy and the Chair of the Blue Plaques Committee His major books include *The Rise and Fall of the British Aristocracy* *Ornamentalism* and *Mellon A Life* He is currently writing the Penguin History of Victorian Britain He has previously taught at Cambridge Columbia and London universities

What Is a Classic in History? Jaume Aurell, 2024-02-22 What is a classic in historical writing How do we explain the continued interest in certain historical texts even when their accounts and interpretations of particular periods have been displaced or revised by newer generations of historians How do these texts help to maintain the historiographical canon Jaume Aurell's innovative study ranges from the heroic writings of ancient Greek historians such as Herodotus to the twentieth century microhistories of Carlo Ginzburg The book explores how certain texts have been able to stand the test of time gain their status as historiographical classics and capture the imaginations of readers across generations Investigating the processes of permanence and change in both historiography and history Aurell further examines the creation of historical genres and canons Taking influence from methodologies including sociology literary criticism theology and postcolonial studies *What Is a Classic in History* encourages readers to re-evaluate their ideas of history and historiography alike

Satire in Narrative Frank Palmeri, 2014-08-04 Virtually all theories of satire define it as a criticism of contemporary society Some argue that satire criticizes the present in favor of a standard of values that has been superseded and thus that satire is generally backward looking and conservative While this is often true of poetic satire in this study Frank Palmeri asserts that narrative satire performs a different function that it parodies both the established view of the world and that of its opponents offering its own distinctive critical perspective This theory of satire builds on the idea of dialogical parody in the work of Russian theorist Mikhail Bakhtin while revising Bakhtin's estimate of carnival In Palmeri's view the carnivalesque offers only an inverted mirror image of authoritative discourse while parodic narrative satire suggests an alternative to both the official world and its inverted opposite Palmeri applies this theory of narrative satire to five works of world literature each of which has generated sharp controversy about the genre to which it rightly belongs Petronius's *Satyricon* Jonathan Swift's *A Tale of a Tub* Edward Gibbon's *Decline and Fall of the Roman Empire* Herman Melville's *The Confidence-Man* and Thomas Pynchon's *The Crying of Lot 49* He analyzes the features that link these works and shows how the changing pairs of alternatives that

are parodied in these satires reflect changes in the terms of social and cultural oppositions Satire in Narrative will appeal to comparatists specialists in eighteenth century and American literature and others interested in theories of genre and the relations between literary forms and social history

The Early Amazons Josine Blok, 2015-08-27 The Early Amazons offers a new understanding of the ancient Amazon myth situating mythical representations in the realm of cultural history The first section examines how the Amazons have presented a challenge to views on history myth and gender in classical mythology from the late eighteenth century up to the impact of structuralism Topics included are nineteenth century historiography and the interest in linguistics The second section sheds new light on the culture of archaic Greece offering a coherent assessment of literary and visual representations Taking mythical narrative as a form of oral storytelling it shows the emergence of the Amazon motif and its meaning in the world of epic Iconographical analysis reveals how the visual arts have made a contribution of their own to the imaginary presence of the Amazons

Rethinking British Romantic History, 1770-1845 Porscha Fermanis, John Regan, 2014 Rethinking British Romantic History 1770 1845 brings together a team of leading scholars to examine the interactions between history and literature in the Romantic period focusing on practical as well as theoretical interconnections between the two genres and disciplines

China Marches West Peter C Perdue, 2009-06-30 From about 1600 to 1800 the Qing empire of China expanded to unprecedented size Through astute diplomacy economic investment and a series of ambitious military campaigns into the heart of Central Eurasia the Manchu rulers defeated the Zunghar Mongols and brought all of modern Xinjiang and Mongolia under their control while gaining dominant influence in Tibet The China we know is a product of these vast conquests Peter C Perdue chronicles this little known story of China's expansion into the northwestern frontier Unlike previous Chinese dynasties the Qing achieved lasting domination over the eastern half of the Eurasian continent Rulers used forcible repression when faced with resistance but also aimed to win over subject peoples by peaceful means They invested heavily in the economic and administrative development of the frontier promoted trade networks and adapted ceremonies to the distinct regional cultures Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control what holds the Chinese nation together and how its relations with the Islamic world and Mongolia developed He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule At the same time China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies China Marches West is a tour de force that will fundamentally alter the way we understand Central Eurasia
