Remaining and Becoming Shelley Roberts, 2000-12-01 Remaining and Becoming Cultural Crosscurrents in an Hispano School deals with the politics of identity and the concept of boundaries during a time of rapid change It investigates how the role of schooling for Hispanos in the Norte o School District a pseudonym in Northern New Mexico a public school district not fully consolidated until 1972 has changed significantly over the past three generations Today the Hispanos a minority in the outside world but a majority in their own are debating how the functions of the school should respond to the changes resulting from the coming of public education to their region But the contemporary story of education in Norte o has much deeper roots in the political religious and cultural history of Northern New Mexico a region where over a period of several centuries Spain Mexico and the United States each have claimed sovereignty with differing goals for and attitudes about the welfare of the people This study is an analysis of the ambiguity of education the losses and gains that are its consequences the lingering doubts about the past and the questions about what future education can and should serve It is about asking Is what the students are learning worth as much as what they are forgetting How does schooling affect the evolving process of asserting renegotiating and defending an Hispano identity By exploring historical factors and ideologies of a particular school within a particular community Roberts seeks to understand community expectations for the school as a fitting place for its children The goal is not to generalize from the particular to the universal but to join others in suggesting that we move away from discussing students in a generic sense and focus instead on looking at them in relation to the community in which they live The fascinating and largely unknown story this book tells will be of interest to educators researchers and students across a range of fields including sociology of education educational anthropology multicultural education ethnic studies Chicano studies and qualitative research in education

The Worlds of Langston Hughes Vera M. Kutzinski, 2012-10-15. The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that for writers who are part of the African diaspora, translation is more than just a literary practice; it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated, and often mistranslated, are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course, Harlem. The result is a fresh look at Hughes not as a solitary author who wrote in a single language but as an international figure at the heart of a global intellectual and artistic formation.

Novel Friendships and Community in Cervantes's "Don Quixote" Marsha S. Collins, 2025-09-30. *Novel Friendships and Community in Cervantes's Don Quixote* analyzes *Don Quixote* through the critical lens of friendship studies. Turning a critical spotlight on the friendship between Don Quixote and Sancho Panza, this book examines the formation, growth, and dynamics of their friendship as the nucleus of the first modern novel in the West and the source of the work's enduring power. *Novel Friendships* also examines the theme of amity in relation to the evolving concept of community as a throughline in Cervantes's fiction before, during, and after *Don Quixote*. This book shows the power of the arts, especially storytelling, to build friendships and foster community and highlights how Cervantes deploys fiction to cultivate his readers' sense of friendship and to create a community of readers. *Novel Friendships* suggests that today's readers may find Cervantes's views on amity and community highly relevant to the contemporary world.
