Empirical Models For Biblical Criticism:

Empirical Models for Biblical Criticism Jeffrey H. Tigay, 2005-10-21 Modern critical scholarship has concluded that the books of the Hebrew Bible have not reached us in their original form but are the products of lengthy evolution. Many of these books are thought to combine the works of more than one author or age and to have undergone considerable revision. Tigay and the other contributors use comparisons of various texts from ancient Mesopotamia and post-exilic Israel. Such comparisons show that the sort of development of biblical literature that nineteenth-century critics were led to postulate from close study of the texts alone is characteristic of many ancient Near Eastern texts. *Empirical Models for Biblical Criticism* is of value to scholars interested in the Old Testament as well as religion, theology, Jewish studies, Near Eastern studies, and comparative literature. *Empirical Models for Biblical Criticism* Jeffrey H. Tigay, 1988 **Empirical Models**

Challenging Biblical Criticism Raymond F. Person, Robert Rezetko, 2016-09-21 Cutting-edge reflections on biblical text formation. Empirical models based on ancient Near Eastern literature and variations between different textual traditions have been used to lend credibility to the identification of the sources behind biblical literature and the different editorial layers. In this volume, empirical models are used to critique the exaggerated results of identifying sources and editorial layers by demonstrating that even though much of ancient literature had such complex literary histories, our methods are often inadequate for the task of precisely identifying sources and editorial layers. The contributors are Maxine L. Grossman, Benedicta Lemmelijn, Alan Lenzi, Sara J. Milstein, Raymond F. Person Jr., Robert Rezetko, Stefan Schorch, Julio Trebolle Barrera, Ian Young, and Joseph A. Weeks. Features: Evidence that many ancient texts are composite texts with complex literary histories. Ten essays and an introduction cover texts from Mesopotamia, the Hebrew Bible, the New Testament, and the Dead Sea Scrolls. **Genesis Forty-nine in Its Literary and Historical Context** Raymond De Hoop, 1972 This book deals with the so-called Blessing of Jacob, Genesis 49, in all its aspects, discussing philological, literary, and historical problems. After an introductory chapter, a thoroughly discussed translation of Genesis 49 and an analysis of its poetical structure are presented, followed by the discussion of the genre, definition, tribal saying, Stammesspruch, and a synchronic and diachronic analysis of Genesis 49 in its literary context. Gen 47:29-49:33. The remarkable results of this analysis are finally discussed in relation to Israel's history. It is suggested that only part of the Blessing functioned within the originally much shorter deathbed account, Gen 47:29-49:33, reflecting the historical situation of the time of origin. Afterwards, it was thoroughly worked up into its present shape to meet the conditions of later political development. *Reading the Fractures of Genesis* David McLain Carr, 1996-01-01 Historical and Literary Approaches. מִסְתָּרֵי מִסְתָּרֵי, מִסְתָּרֵי Menahem Haran, 1996 Professor Menahem Haran is honored in this volume by a chorus of colleagues, disciples, and friends from Israel, Europe, North America, and the Far East. The diversity of Haran's expertise is reflected in the table of contents of this collection, organized around the topics: Priests and Their Sphere, The Torah, The Prophets, The Writings, and Language and Writing. *A Guide to Old Testament Theology*

Editorial Techniques in the Hebrew Bible Reinhard Müller,Juha Pakkala,2022-05-06 Editorial Techniques in the Hebrew Bible Toward a Refined Literary Criticism presents and applies a model for understanding and reconstructing the diachronic development of the Hebrew Bible through historical criticism or the historical critical method Reinhard M ller and Juha Pakkala refine the methodologies of literary and redaction criticism through a systematic investigation of the evidence of additions omissions replacements and transpositions that are documented by divergent ancient textual traditions At stake is not only historical criticism but also the Hebrew Bible as a historical source for historical criticism has been and continues to be the only method to unwind those scribal changes that left no traces in textual variants
