Empty Ark:

Empty Fields, Empty Promises Loka Ashwood, Aimee Imlay, Lindsay Kuehn, Allen Franco, Danielle Diamond, 2023-09-26
The right to farm is essential to everyone's survival. Since the late 1970s, states across the nation have adopted so-called right to farm laws to limit nuisance suits loosely related to agriculture. But since their adoption, there has yet to be a comprehensive analysis of what these laws do and who they benefit. This book offers the first national analysis and guide to these laws. It reveals that they generally benefit the largest operators like processing plants, while traditional farmers benefit the least. Disfavored most of all are those seeking to defend their homes and environment against multinational corporations that use right to farm laws to strip neighboring owners of their property rights. Through what the book calls the midburden right to farm laws, dispossess the many in favor of the few, paving the path to rural poverty. **Empty Fields, Empty Promises** summarizes every state's right to farm laws to help readers track and navigate their local and regional legal landscape. The book concludes by offering paths forward for a more distributed and democratic agrifood system that achieves agricultural, rural, and environmental justice.

The National Security Sublime Matthew Potolsky, 2019-03-27
Why do recent depictions of government secrecy and surveillance so often use images suggesting massive size and scale: gigantic warehouses, remote black sites, numberless security cameras? Drawing on post-War American art, film, television, and fiction, Matthew Potolsky argues that the aesthetic of the sublime provides a privileged window into the nature of modern intelligence, a way of describing the curiously open secret of covert operations. The book tracks the development of the national security sublime from the Cold War to the War on Terror and places it in a long history of efforts by artists and writers to represent political secrecy.

The Rapture Code Craig S. Luchin, 2010-03-03 Can there only be one Rapture The Rapture Code Part One of an Eight Book Coded Series This is the first book of an Eight Book Coded Series concerning Christian living I ve been a Christian for 34 yrs and for over 30 of those years I have tried to augment the Rapture of the Church with additional biblical evidence I started out all those years ago to accomplish this one task Well God has greatly blessed me in that I found not one code concerning the Rapture but a coded series of eight codes total Thus each one relating to the Christians walking out their salvation in one aspect or another Doctrinally this first book pertains to the Rapture of the Church in a Pre Millennial position that promotes as true The Seven year Tribulation the Millennial Reign of Jesus Christ here on earth the little season of Satan and then the New Heavens and Earth What I have uncovered is a deeper answer that gives good reasons for all three rapture positions which are Pre Mid and Post Tribulation being three different raptures all taking place during this 7 year time period Thus there being three separate raptures instead of just one I see there are three raptures of three different groups of peoples in the Tribulation Period Instead of the one group of the one Rapture of the Church in only one of the three rapture positions offered us Namely the rapture positions of Pre or Mid or Post Tribulation Thus again I see three different raptures taking place as follows Rapture of the Church Rapture of the Two Witnessess Rapture of the Elect of Israel Pre Tribulation Mid Tribulation Post Tribulation Israel is always the key to proper biblical prophecy Without Israel in existence today as a nation there would be no final End Times Israel and the Church are separate in the Scriptures and so it only makes sense especially after seeing the evidence that I have accumulated in this book that Israel would have it s OWN rapture Further Christians are making the same error of judgment pertaining to Christ s Rapture of the Church seeing only one rapture that Israel made concerning Christ s First Coming Israel perceived wrongly

that there was only one Coming of Christ which they were sorely mistaken and we now know that there are two Comings of the LORD one 2 000 yrs ago and one in the near future But Christians are making the same error in thinking that there is only one rapture of one major group of people The Rapture of the Church When in fact there are two raptures of two major groups of peoples as noted above Note The Two Witnesses are not a group though I feel with some Scriptural evidence that the 144 000 may go up with the Witnesses In which the Left Behind notion will be proved wrong Also I have found a word pattern order exclusive to the KJB that shows forth this order in many OT verses as well as the NT I have found the threefold pattern of these three raptures in the Breastplate of the High Priest in the Seven Feasts of Israel in the books of Daniel and Revelation in the books of Matthew Mark and Luke and in many other places In addition these truths will strengthen the Eternal Security of any Believer Finally I have discovered many new study aids for advance studies that only appear in the KJB which will strengthen the Christian for the ongoing battle for the Bible The King James Bible in which these study aids can and will be demonstrated throughout this Eight Book Coded Series by which these eight codes are based in Acts 3 The codes are there in this chapter four times in a four times over repeating order perfectly This co

The Art of Words: Bede and Theodulf Paul Meyvaert, 2023-05-31 Medieval art is wordy inscriptions and poems commentaries and chronicles accompany and adorn it The Art of Words presents a series of detective stories by a renowned explorer of medieval philological evidence who here examines the thought and objects of the Venerable Bede and Theodulf of Orleans What physical objects did Bede have in mind for example when writing about the paintings of his monastic churches How did he conceive of the division of biblical books into chapters Why was the famous Libri Carolini made for Charlemagne never published Indeed what did it mean in the Middle Ages to publish something Pursuing the story of Bede s calendar shows how Valentine s Day began with a reference to birds To unravel the meaning of the image of Ezra in the Codex Amiatinus the author then demonstrates the importance of knowing the books that Bede knew and wrote The final topic is the celebrated Apse mosaic of Germigny des Pr s how it was saved from destruction and how Theodulf s words explain what we see Words matter and in these studies Paul Meyvaert constantly delights the reader with careful excavations of that place in medieval art and thought where images and words connect and collide
