**Mission and Migration** John Lapp, 2010-07-01 Mission and Migration is the first comprehensive history to be written by Latin American Mennonite historians about Mennonite church life in Central and South Americas from its beginnings From the Introduction to the volume The story of the coming of Anabaptist descended churches to Latin America begins not in the Spanish colonial period but in the late nineteenth and early twentieth centuries in the period following Latin American political independence from Spain and Portugal The first Mennonite church to take root in Latin American soil gathered for worship in 1919 in the town of Pehuajo Argentina It was the result of North American mission efforts and represents one major impulse for the planting of Mennonite churches in Latin America The second major impulse came with the settling of Mennonite colonists in Mexico Paraguay and Brazil in the 1920s and 30s The Mennonite colonists did not come to Latin America as missionaries but rather to settle as ethnic and religious communities seeking new life and a future Given the variety of Mennonites who live in Latin America the question Who or what is a Latin American Mennonite Christian is a recurring theme that runs throughout our story including the present day

LaShandra Sullivan,2023-06 In the last half century Brazil s rural economy has developed profitable soy and sugarcane plantations causing mass displacement of rural inhabitants deforestation casualization of labor and reorganization of politics Since the early 2000s Indigenous peoples have protested the taking of their land and transformed terms provided by state institutions NGOs agribusiness firms and myriad local middlemen toward their material survival leading to significant violence from third party security forces Guarani protestors have confronted these armed security forces through a form of life or death political theater and spectacle on the sides of highways while squatters have viscerally disturbed the landscape and enlivened long standing genocide and settler colonial violence In *Unsettling Agribusiness* LaShandra Sullivan analyzes the transformations in rural life wrought by the internationalization of agribusiness and contests over land rights by Indigenous social movements The protest camps by reclaiming the countryside as a site of residence and not merely one of abstract maximized agribusiness production call into question the meanings and stakes of Brazil s political model The

squatter protests complicated federal attempts to balance land reform with economic development imperatives and imperiled existing constellations of political and economic order Unsettling Agribusiness encompasses the multiple scales of the conflict maintaining within the same frame of analysis the unique operations of daily life in the protest camps and the larger political economic and social networks of pan Indigenous activism and transnational agribusiness complexes of which they are a part Sullivan speaks to the urgent need to link the dual preoccupations of multi scalar political economic change and the ethno racial terms in which Indigenous people in Brazil live today     *The Scottish Educational Journal* ,1954     **A**
