R.B. McKenzie,2012-12-06 The essays in this volume were a challenge to me to write I am an economist to the core inclined  
to evaluate most observed behavior and public policies with conventional neoclassical theory The essays represent my  
attempt to come to grips with the meaning and importance of what I try to do as a professional economist They reflect my  
attempt to acquire a new and improved understanding of the usefulness and limitations of the writings of professional  
economists especially my own In this regard although I hope others will find the thoughts useful the volume represents a  
personal statement of how one economist views his and others work For that reason the discussion is often openly normative  
tinged with the conviction that social discourse is more than costs and benefits and that economics cannot be fully evaluated  
by the methods economic methods that are the subject of the evaluation These essays could not have been written without  
considerable encouragement and help from colleagues and friends The following people are recognized for having read one  
or more chapters and for having contributed critical substantive comments Diana Bailey Wilfred Beckerman Geoffrey
